

China Coal Chemical Equipment Industry Report, Extensive Market Research and Investment Forecast

目 录

CONTENTS

Chapter 1: Summary of coal chemical equipment industry

1.1 overview of the coal chemical industry

- 1.1.1 concept of coal chemical industry
- 1.1.2 analysis of coal chemical industry chain
- 1.1.3 reasons for the development of coal chemical industry

1.2 definitions of coal chemical equipment industry

- 1.2.1 definition of coal chemical equipment industry
- 1.2.2 classification of coal chemical equipment industry
- 1.2.3 the importance of coal chemical equipment

1.3 characteristics of coal chemical equipment industry

- 1.3.1 industry barriers to entry
- 1.3.2 Industry cyclical characteristics
- 1.3.3 Industry regional characteristics

1.4 analysis of coal chemical equipment industry chain

- 1.4.1 introduction of industry chain
- 1.4.2 the impact of upstream industry
- 1.4.3 the impact of downstream industry

Chapter 2: Analysis of market environment of coal chemical equipment industry

2.1 analysis of social environment

- 2.1.1 resource pattern of rich in coal, poor in gas and oil
 - (1) structure of fossil energy reserves
 - (2) China's energy consumption structure
- 2.1.2 the international crude oil price trends and forecasts
- 2.1.3 environmental carrying capacity of resources of coal chemical industry
- 2.1.4 covert security test of coal chemical equipment

2.2 analysis of policy environment

- 2.2.1 industry management system
- 2.2.2 interpretation of industry key policies
 - (1) " planning of demonstration project of deep processing of coal "
 - (2) " coal chemical demonstration project specification (draft) during Twelfth- five year plan "

development in Xinjiang . "

- (3) " notice on regulating the orderly development of coal chemical industry "
- (4) " notice on regulating related matters of coal gas industry "
- (5) "opinions on promoting industrial policy communications and information technology "
- (6) " guidance on petroleum and chemical industry promotion supporting technology. "
- (7) " guidance on petroleum and chemical industry promotion supporting technology "
- (8) " notice on the inhibition of overcapacity and duplication in some industries to guide the healthy development of the industry "
- (9) " petrochemical industry restructuring and revitalization plan "
- (10) " notice on the adjustment of tax policy for large-scale coal chemical equipment and imported raw materials of key components "

2.3 analysis of economic environment

- 2.3.1 domestic macroeconomic environment situation
 - (1) analysis of international macroeconomic environment
 - (2) analysis of domestic macroeconomic environment
- 2.3.2 analysis of the macroeconomic environment
- 2.3.3 the impact of the economic environment on the industry

2.4 analysis of technology environment

- 2.4.1 status quo of coal chemical industry technology
 - (1) coal gasification technology
 - (2) coal methanol DME technology
 - (3) coal-acetic acid technology
 - (4) methanol to olefins (MTO and MTP) technology
 - (5) direct coal liquefaction technology
 - (6) indirect coal liquefaction technology
- 2.4.2 status quo of coal chemical equipment technology
- 2.4.3 the gap between domestic and international coal chemical equipment technology
- 2.4.4 development trends of coal chemical equipment technology

Chapter 3: Development status of coal chemical industry and planning

3.1 analysis of the development of coal chemical industry in 2011-2012

- 3.1.1 development of China coal chemical industry
- 3.1.2 review of the coal chemical industry development in.....2011
- 3.1.3 analysis of coal chemical industry operation in.....2012
- 3.1.4 constraints of coal chemical industry development

3.2 analysis of the development of coal chemical industry subdivided market

- 3.2.1 development status of traditional coal chemical industry
 - (1) development status of traditional coal chemical industry
 - (2) main features of traditional coal chemical industry
 - (3) product development direction of traditional coal chemical industry
- 3.2.2 analysis of new coal chemical industry development
 - (1) development status of the new coal chemical industry
 - (2) analysis of market demand of new coal chemical industry
 - (3) analysis of competition of new coal chemical industry
 - (4) product development direction of new coal chemical industry
 - (5) analysis of development prospects of new coal chemical industry

3.3 analysis of China coal chemical projects under construction / proposed

- 3.3.1 progress of new coal chemical demonstration projects
- 3.3.2 analysis of coal chemical projects under construction / proposed
 - (1) coal liquefaction projects under construction / proposed
 - (2) coal gas projects under construction / proposed
 - (3) coal-to-olefins projects under construction / proposed
 - (4) coal glycol projects under construction / proposed
 - (5) coal-dimethyl ether projects under construction / proposed
 - (6) ammonia urea projects under construction / proposed
 - (7) coking projects under construction / proposed
- 3.3.3 latest approved new coal chemical projects
- 3.3.4 analysis of profit margins of coal chemical project

3.4 analysis of development plan of China coal chemical industry

- 3.4.1 national coal chemical industry development plan
- 3.4.2 coal chemical industry development plan in Northwest China
 - (1) coal chemical industry development plan in Shanxi
 - (2) coal chemical industry development plan in Shaanxi
 - (3) coal chemical industry development plan in Ningxia
 - (4) coal chemical industry development plan in Inner Mongolia
 - (5) coal chemical industry development plan in Xinjiang
 - (6) coal chemical industry development plan in Guizhou
- 3.4.3 planning of energy chemical "Golden Triangle" economic area

Chapter 4: Development status and trends of coal chemical equipment industry

4.1 development status of coal chemical equipment industry

- 4.1.1 overview of the development of coal chemical equipment industry
- 4.1.2 coal chemical equipment industry demand
 - (1) demand of traditional coal chemical production equipment
 - (2) demand of new coal chemical production equipment
- 4.1.3 the proportion of constituents of investment in the coal chemical equipment
- 4.1.4 market size of coal chemical equipment industry

4.2 analysis of the import and export of coal chemical equipment

- 4.2.1 the overall import and export of coal chemical equipment

4.2.2 analysis of coal chemical equipment imports

(1) scale of coal chemical equipment imports
