

China Converged Communications (UC) Industry Report (2016–2021), Development Forecast and Investment Strategic Planning

目 录

CONTENTS

Chapter 1: Basic overview of converged communications industry

- 1.1 background of generation of converged communications
- 1.2 basic concepts of converged communications
 - 1.2.1 concept of converged communications
 - 1.2.2 characteristics of converged communications
 - 1.2.3 business functions of converged communications
 - 1.2.4 system architecture of converged communications
- 1.3 advantages and service models of converged communications
 - 1.3.1 main advantages of converged communications
 - 1.3.2 service models of converged communications
 - (1) converge of network
 - (2) converge of application
 - (3) converge of management
 - (4) converge of terminal
- 1.4 drivers and obstacles of converged communications
 - 1.4.1 drivers of converged communications
 - 1.4.2 barriers of converged communications
- 1.5 analysis of external environment of converged communications industry
 - 1.5.1 analysis of policy environment of the industry
 - 1.5.2 analysis of economic environment of the industry
 - (1) global economic development
 - 1) domestic economic growth
 - 2) forecast of economic development
 - 3) impact of the economic environment on the industry
 - 1.5.3 analysis of technical environment of the industry
 - (1) analysis of quantity of patent applications
 - (2) analysis of quantity of patent publications
 - (3) analysis of patent applicants
 - (4) analysis of hot patented technologies

Chapter 2: Analysis of related industries of converged communications and development models

- 2.1 analysis of related industries of converged communications
 - 2.1.1 industrial chains of converged communications
 - (1) equipment providers
 - (2) software and application providers
 - (3) platform providers
 - (4) service providers (systems integrators)
 - (5) network operators
 - 2.1.2 main participants of converged communications industry
- 2.2 analysis of development models of converged communications industry
 - 2.2.1 main models of converged communications industry
 - (1) model dominated by equipment manufacturers
 - (2) model dominated by software and application providers
 - (3) model dominated by telecom operators
 - 2.2.2 analysis of characteristics of the model dominated by equipment manufacturers
 - (1) market entry point
 - (2) technical architecture
 - (3) competitive advantage
 - (4) development direction

- 2.2.3 features of the model dominated by software and application providers
 - (1) market entry point
 - (2) technical architecture
 - (3) competitive advantage
- 2.2.4 features of the model dominated by software and application providers
 - (1) converged communications business of British Telecom
 - (2) converged communications business of Verizon

Chapter 3: Analysis of global converged communications industry and leading companies

3.1 analysis of development status quo of global converged communications industry

- 3.1.1 overview of development of global converged communications industry
- 3.1.2 market scale of global converged communications industry
- 3.1.3 analysis of market of global converged communications products
- 3.1.4 analysis of services market of global converged communications
- 3.1.5 competition of global converged communications industry

3.2 analysis of development of converged communications industry in main areas

- 3.2.1 analysis of converged communications industry in North America
 - (1) analysis of market demand of converged communications in North America
 - (2) market scale of converged communications in North America
 - (3) market pattern of converged communications in North America
 - (4) development potential of converged communications industry in North America
- 3.2.2 analysis of converged communications industry in Europe
 - (1) analysis of market demand of converged communications in Europe
 - (2) market scale of converged communications in Europe
 - (3) market pattern of converged communications in Europe
 - (4) development potential of converged communications industry in Europe
- 3.2.3 analysis of converged communications industry in Asia-Pacific
 - (1) analysis of market demand of converged communications in Asia-Pacific
 - (2) market scale of converged communications in Asia-Pacific
 - (3) market pattern of converged communications in Asia-Pacific
 - (4) development potential of converged communications industry in Asia-Pacific
- 3.2.4 analysis of converged communications industry in other regions

3.3 analysis of leading companies of global converged communications industry

- 3.3.1 Cisco
 - (1) overview of the company' s development
 - (2) analysis of the company' s product structure
 - (3) the company' s converged communications business
 - (4) the company' s sales channels and network
 - (5) analysis of the company' s operation
 - (6) analysis of the company' s development advantages and disadvantages
 - (7) analysis of the company' s latest developments
- 3.3.2 Microsoft
 - (1) overview of the company' s development
 - (2) analysis of the company' s product structure
 - (3) analysis of the company' s new product developments
 - (4) analysis of the company' s solutions
 - (5) analysis of the company' s operation
 - (6) analysis of the company' s development advantages and disadvantages
 - (7) analysis of the company' s latest developments
- 3.3.3 Avaya
 - (1) overview of the company' s development
 - (2) analysis of the company' s product structure
 - (3) the company' s converged communications business
 - (4) the company' s channels and sales strategy
 - (5) analysis of the company' s operation
 - (6) analysis of the company' s development advantages and disadvantages
- 3.3.4 Alcatel-Lucent
 - (1) overview of the company' s development
 - (2) analysis of the company' s main business
 - (3) analysis of the company' s operation

- (4) the company' s sales channels and network
- (5) analysis of the company' s development advantages and disadvantages
- (6) analysis of the company' s development strategy
- (7) analysis of the company' s latest developments
- 3.3.5 IBM
 - (1) overview of the company' s development
 - (2) analysis of the company' s product structure
 - (3) the company' s converged communications business
 - (4) analysis of the company' s acquisition and restructuring
 - (5) analysis of the company' s operation
 - (6) analysis of the company' s development advantages and disadvantages
- 3.3.6 Orange Business Services
 - (1) overview of the company' s development
 - (2) analysis of the company' s product structure
 - (3) the company' s converged communications business
 - (4) cases of the company' s converged communications
 - (5) the company' s channels and sales strategy
 - (6) analysis of the company' s operation
 - (7) analysis of the company' s development advantages and disadvantages
 - (8) analysis of the company' s latest developments
- 3.3.7 Siemens
 - (1) overview of the company' s development
 - (2) the company' s converged communications business
 - (3) the company' s channels and sales strategy
 - (4) analysis of the company' s operation
 - (5) analysis of the company' s investment layout in China
 - (6) analysis of the company' s development advantages and disadvantages
- 3.3.8 HP
 - (1) overview of the company' s development
 - (2) analysis of the company' s product structure
 - (3) the company' s converged communications business
 - (4) analysis of the company' s operation
 - (5) analysis of the company' s development advantages and disadvantages
- 3.3.9 Aspect
 - (1) overview of the company' s development
 - (2) analysis of the company' s product structure
 - (3) cases of the company' s converged communications
 - (4) analysis of the company' s development advantages and disadvantages
- 3.3.10 Google
 - (1) overview of the company' s development
 - (2) analysis of the company' s product structure
 - (3) the company' s converged communications business
 - (4) analysis of the company' s acquisition and restructuring
 - (5) analysis of the company' s operation
 - (6) analysis of the company' s development advantages and disadvantages
 - (7) analysis of the company' s latest developments

3.4 outlook for development trends of global converged communications industry

Chapter 4: Analysis of operation of China' s converged communications industry

4.1 analysis of development status quo of converged communications industry

- 4.1.1 analysis of the development process of converged communications industry
- 4.1.2 analysis of market characteristics of converged communications industry
- 4.1.3 analysis of development hotspots of converged communications industry
- 4.1.4 analysis of influencing factors of converged communications industry

4.2 Analysis of operation of converged communications industry

- 4.2.1 analysis of market scale of converged communications industry
- 4.2.2 analysis of product structure of converged communications industry
- 4.2.3 analysis of profitability capability of converged communications industry
 - (1) analysis of profitability capability of products of the industry
 - 1) analysis of profitability capability of assets of the industry

4.2.4 analysis of development capability of converged communications industry

4.3 analysis of user demand of converged communications

4.3.1 user's cognitive of converged communications

4.3.2 analysis of target customers of converged communications

4.3.3 analysis of demand of target customers of converged communications

4.3.4 purchasing behavior of target customers of converged communications

4.4 research on user usage of converged communications

4.4.1 analysis of usage rate of converged communications products

4.4.2 analysis of usage scenario of converged communications products

4.4.3 main appeals under the occasion of internal usage

4.4.4 main appeals under the occasion of customer contact

4.4.5 main appeals under the occasion of partner Contact

Chapter 5: Analysis of competition pattern of Chinese converged communications industry

5.1 analysis of status quo of competition of converged communications industry

5.1.1 manufacturers' echelon camp of the industry

5.1.2 prediction of competition trends of the industry

5.2 analysis of competition pattern of different types of vendors

5.2.1 communications equipment suppliers

(1) representative companies and services provided

(2) competition pattern of communications equipment suppliers

(3) competition advantages and disadvantages of communications equipment suppliers

5.2.2 software service providers
