

China Power Line Carrier Communication Industry Production & Marketing Demand and Investment Forecast Report, 2013-2017

目 录

CONTENTS

Chapter 1: Development Overview of Power Line Carrier Communication Industry

- 1.1 Definition and Classification of Power Line Carrier Communication Industry
 - 1.1.1 Industry Definition
 - 1.1.2 Major Product Categories in Industry
- 1.2 Analysis of Features of Power Line Carrier Communication Industry
 - 1.2.1 Analysis of Entry Barriers to Industry
 - (1) Technical Barrier
 - (2) Talent Barrier
 - (3) Brand and Customer Resource Barrier
 - (4) After-sales Service Barrier
 - 1.2.2 Technical Level and Features in the Industry
 - 1.2.3 Cyclicity and Seasonality of Industry
- 1.3 Analysis of Market Environment for Power Line Carrier Communication Industry
 - 1.3.1 Analysis of Policy Environment for Industry
 - (1) Management Mechanism of Industry
 - (2) Policy Tendency Related to Industry
 - 1.3.2 Analysis of Economic Environment for Industry
 - (1) Analysis of International Macro-economic Environment
 - (2) Analysis of Domestic Macro-economic Environment
 - 1.3.3 Technical Standards for Industry
- 1.4 Analysis of Correlation with Power Line Carrier Communication Industry
 - 1.4.1 Analysis of Correlation with Upstream Industry
 - 1.4.2 Analysis of Correlation with Downstream Industry
- 1.5 Analysis of Industrial Markets Related to Power Line Carrier Communication Industry
 - 1.5.1 Analysis of MCU Market
 - 1.5.2 Analysis of IC Market
 - 1.5.3 Analysis of Resistor Market
 - 1.5.4 Analysis of Capacity Market
 - 1.5.5 Analysis of Semiconductor Market

Chapter 2: China Smart Grid Construction Status and Planning

- 2.1 Investment Status and Planning of Smart Grid
 - 2.1.1 Investment Size of Smart Grid
 - 2.1.2 Investment Structure of Smart Grid
 - (1) Investment Structure of All links
 - (2) Investment Structure of All Regions
 - 2.1.3 Progress Made in Key Fields of Smart Grid
 - 2.1.4 Development Planning of Smart Grid
 - (1) Overall Framework of Strong Smart Grid
 - (2) Construction Goal for Strong Smart Grid
 - (3) Construction Links of Strong Smart Grid
 - (4) Construction Conditions for Strong Smart Grid
 - (5) Technology Roadmap for Strong Smart Grid
- 2.2 Construction Status and Planning of Smart Grid in All Links
 - 2.2.1 Investment Construction Situation in the Link of Power Generation
 - (1) Development Priority in the Link of Power Generation
 - (2) Investment Size in the Link of Power Generation
 - (3) Construction Status in the Link of Power Generation
 - (4) Pilot Project Progress in the Link of Power Generation
 - (5) Development Planning in the Link of Power Generation

- 2.2.2 Investment Construction Situation in the Link of Power Transmission
 - (1) Development Priority in the Link of Power Transmission
 - (2) Investment Size in the Link of Power Transmission
 - (3) Construction Status in the Link of Power Transmission
 - (4) Pilot Project Progress in the Link of Power Transmission
 - (5) Development Planning in the Link of Power Transmission
- 2.2.3 Investment Construction Situation in the Link of Power Transformation
 - (1) Development Priority in the Link of Power Transformation
 - (2) Investment Size in the Link of Power Transformation
 - (3) Construction Status in the Link of Power Transformation
 - (4) Pilot Project Progress in the Link of Power Transformation
 - (5) Development Planning in the Link of Power Transformation
- 2.2.4 Investment Construction Situation in the Link of Power Distribution
 - (1) Development Priority in the Link of Power Distribution
 - (2) Investment Size in the Link of Power Distribution
 - (3) Construction Status in the Link of Power Distribution
 - (4) Pilot Project Progress in the Link of Power Distribution
 - (5) Development Planning in the Link of Power Distribution
- 2.2.5 Investment Construction Situation in the Link of Power Utilization
 - (1) Development Priority in the Link of Power Utilization
 - (2) Investment Size in the Link of Power Utilization
 - (3) Construction Status in the Link of Power Utilization
 - (4) Pilot Project Progress in the Link of Power Utilization
 - (5) Development Planning in the Link of Power Utilization

2.3 Development Situation and Planning of Major Power Grid Enterprises

- 2.3.1 Development Situation and Planning of National Power Grid
 - (1) Analysis of Enterprise Development Profile
 - (2) Analysis of Power Supply Capability and Operation Situation of Enterprise
 - (3) Analysis of Enterprise Development Planning
- 2.3.2 Development Situation and Planning of China Southern Power Grid
 - (1) Analysis of Enterprise Development Profile
 - (2) Analysis of Power Supply Capability and Operation Situation of Enterprise
 - (3) Analysis of Enterprise Development Planning

Chapter 3: Analysis of Development Situation of International Power Line Carrier Communication Industry

3.1 Analysis of Development Situation of International Power Line Carrier Communication Industry

- 3.1.1 Development History of International Power Line Carrier Communication Industry
- 3.1.2 Development Status of International Power Line Carrier Communication Industry
- 3.1.3 Market Development Situation of International Power Line Carrier Communication Industry
- 3.1.4 Analysis of Market Competition of International Power Line Carrier Communication Industry

3.2 Analysis of Development Situation of Major Power Line Carrier Communication Enterprises

- 3.2.1 STMicroelectronics, Inc.
 - (1) Development Profile
 - (2) Analysis of Competitive Advantages and Disadvantages
 - (3) Analysis of Major Products and Features
 - (4) Investment Layout in China
- 3.2.2 DS2 Corporation
 - (1) Development Profile
 - (2) Analysis of Competitive Advantages and Disadvantages
 - (3) Analysis of Major Products and Features
 - (4) Investment Layout in China
- 3.2.3 Echelon Corporation
 - (1) Development Profile
 - (2) Analysis of Competitive Advantages and Disadvantages
 - (3) Analysis of Major Products and Features
 - (4) Investment Layout in China
- 3.2.4 Intellon Corporation
 - (1) Development Profile
 - (2) Analysis of Competitive Advantages and Disadvantages

- (3) Analysis of Major Products and Features
- (4) Investment Layout in China
- 3.2.5 Yitran Corporation
 - (1) Development Profile
 - (2) Analysis of Competitive Advantages and Disadvantages
 - (3) Analysis of Major Products and Features
 - (4) Investment Layout in China

Chapter 4: Analysis of Development Situation of China Power Line Carrier Communication Industry

4.1 Analysis of Development of China Power Line Carrier Communication Industry

- 4.1.1 Development History of China Power Line Carrier Communication Industry
- 4.1.2 Development Status and Trend for China Power Line Carrier Communication Industry
- 4.1.3 Analysis of Profit Change Trend for China Power Line Carrier Communication Industry
- 4.1.4 Factors of Influencing Development of China Power Line Carrier Communication Industry
 - (1) Advantageous Factors
 - (2) Disadvantageous Factors
- 4.1.5 Analysis of Problems in the Construction of China Power Line Carrier Communication Industry

4.2 Analysis of Operation Models for China Power Line Carrier Communication Industry

- 4.2.1 Analysis of Procurement Model for China Power Line Carrier Communication Industry
- 4.2.2 Analysis of Production Model for China Power Line Carrier Communication Industry
- 4.2.3 Analysis of Profit Model for China Power Line Carrier Communication Industry
- 4.2.4 Analysis of Customer Bidding Model for China Power Line Carrier Communication Industry
- 4.2.5 Analysis of Marketing Model for China Power Line Carrier Communication Industry

4.3 Analysis of Market of China Power Line Carrier Communication Industry

- 4.3.1 Analysis of Demand Structure of China Power Line Carrier Communication Market
 - (1) Analysis of Demand Percentage in China Power Line Carrier Communication Market
 - (2) Analysis of Prospects for China Power Line Carrier Communication Market Segments
- 4.3.2 Analysis of Market Capacity of China Power Line Carrier Communication Industry
- 4.3.3 Analysis of Competitive Landscape of China Power Line Carrier Communication Industry
- 4.3.4 Analysis of Bargaining Power of China Power Line Carrier Communication Industry
- 4.3.5 Analysis of Potential Threats for China Power Line Carrier Communication Industry

4.4 Analysis of Application Models for China Power Line Carrier Communication Industry

- 4.4.1 Analysis of Power Information Acquisition Model
 - (1) Information Collection Model for Large-scale Special Voltage Transformation Users
 - (2) Public Voltage Transformation-based Collection Model for Single-Phase and Tri-Phase Industry and Commerce Business Users
 - (3) Resident Users and Collection Model for Public Voltage Transformation Metering Point
- 4.4.2 Analysis of Data Communication Model
 - (1) Remote Communication
 - (2) Local Communication

4.5 Analysis of Construction Benefit of China Power Line Carrier Communication Industry

- 4.5.1 Analysis of Economic Benefit of China Power Line Carrier Communication Industry
- 4.5.2 Analysis of Management Benefit of China Power Line Carrier Communication Industry
- 4.5.3 Analysis of Social Benefit of China Power Line Carrier Communication Industry

Chapter 5: Analysis of Major Products and Technologies in China Power Line Carrier Communication Industry

5.1 Analysis of Product Demand Motivation of China Power Line Carrier Communication Industry

- 5.1.1 Eliminate Disadvantages Caused by Traditional Artificial Meter Reading
- 5.1.2 Grasp Electric Power Demand in Real Time
- 5.1.3 Online Supervision Changes Traditional Management Model
- 5.1.4 Improve Management Level for Preventing Power Leakage and Electric Larceny in Power Grid
- 5.1.5 Promote Tiered Pricing for Demand of Electricity and Achieve Energy-saving and Emission-reduction

5.2 Analysis of Major Products in China Power Line Carrier Communication Industry

- 5.2.1 Analysis of Chip Market for Power Line Carrier Communication
 - (1) Analysis of Function Features
 - (2) Analysis of Market Size
 - (3) Market Demand Prospects
- 5.2.2 Analysis of Carrier Electricity Meter

- (1) Analysis of Function Features
- (2) Analysis of Bidding Size
- (3) Market Demand Prospects
- 5.2.3 Analysis of Concentrator Market
 - (1) Analysis of Concentrator Demand User
 - (2) Analysis of Concentrator Market Demand
 - (3) Analysis of Bidding of Concentrator Market
- 5.2.4 Analysis of Collector Market
 - (1) Analysis of Collector Demand User
 - (2) Analysis of Collector Market Demand
 - (3) Analysis of Bidding of Collector Market
