

China Woodworking Machinery Industry Report (2016–2021), Production & Sales demand and Investment Forecast

目 录

CONTENTS

Chapter 1: Analysis of development environment of Chinese woodworking machinery industry

1.1 definition and classification of woodworking machinery industry

- 1.1.1 concepts and definitions of the industry
- 1.1.2 categories of main products of the industry
- 1.1.3 features of woodworking machinery

1.2 analysis of development environment of woodworking machinery industry

- 1.2.1 analysis of policy environment of the industry
- 1.2.2 analysis of economic environment of the industry
 - (1) analysis of China's economic growth and trends
 - (2) analysis of the relationship between the industry and macro economy
- 1.2.3 analysis of technical environment of the industry
 - (1) analysis of technology patent applications of the industry
 - (2) analysis of technology patent applicants of the industry
 - (3) analysis of hot technology developments of the industry

Chapter 2: Analysis of raw materials market of woodworking machinery industry

2.1 status quo of operation and price trends of the steel industry

- 2.1.1 status quo of operation of the steel industry
 - (1) analysis of supply of steel market
 - (2) analysis of demand of steel market
 - (3) supply and demand trends of the steel market
- 2.1.2 analysis of price trends of the steel industry
 - (1) current market prices of steel
 - (2) market price trends of steel
- 2.1.3 impact of the steel industry on woodworking machinery industry

2.2 development status quo and trends of motor industry

- 2.2.1 analysis of scale of motor industry
- 2.2.2 analysis of competition of motor industry
- 2.2.3 development trends of motor industry
- 2.2.4 impact of the development of the motor industry on woodworking machinery industry

Chapter 3: Analysis of development status quo of woodworking machinery industry

3.1 analysis of development status quo of woodworking machinery industry

- 3.1.1 general overview of the development of woodworking machinery industry
- 3.1.2 main features of the development of woodworking machinery industry
- 3.1.3 analysis of scale and financial indicators of woodworking machinery industry
 - (1) analysis of operating efficiency of woodworking machinery industry
 - (2) analysis of profitability capability of woodworking machinery industry
 - (3) analysis of operation capability of woodworking machinery industry
 - (4) analysis of solvency capability of woodworking machinery industry
 - (5) analysis of development capability of woodworking machinery industry

3.2 analysis of economic indicators of woodworking machinery industry

- 3.2.1 major factors influencing economic efficiency of woodworking machinery industry
- 3.2.2 analysis of economic indicators of woodworking machinery industry
- 3.2.3 analysis of changes in the proportion of main economic indicators of companies of different scales
- 3.2.4 analysis of changes in the proportion of main economic indicators of companies of different natures
- 3.2.5 analysis of economic indicators of companies in different regions

3.3 analysis of supply and demand balance of woodworking machinery industry

- 3.3.1 analysis of the national supply situation of woodworking machinery industry

- (1) analysis of the national output value of woodworking machinery industry
- (2) analysis of the national finished products of woodworking machinery industry
- 3.3.2 analysis of national demand of woodworking machinery industry
 - (1) analysis of national sales value of woodworking machinery industry
 - (2) analysis of national sales revenue of woodworking machinery industry
- 3.3.3 analysis of national production and sales ratio of woodworking machinery industry
- 3.4 analysis of import and export market of woodworking machinery industry**
 - 3.4.1 summary of import and export of woodworking machinery industry
 - 3.4.2 analysis of export market of woodworking machinery industry
 - (1) overall export situation of the industry
 - (2) analysis of structure of export products of the industry
 - 3.4.3 analysis of import market of woodworking machinery industry
 - (1) overall import situation of the industry
 - (2) analysis of structure of import products of the industry
 - 3.4.4 prospects of import and export of woodworking machinery industry and recommendations
 - (1) prospects of export of woodworking machinery industry and recommendations
 - (2) prospects of import of woodworking machinery industry and recommendations
- 3.5 development trends of Chinese woodworking machinery industry**
 - 3.5.1 analysis of the driving forces of the development of woodworking machinery industry
 - 3.5.2 analysis of the obstacles of the development of woodworking machinery industry
 - 3.5.3 development trends of woodworking machinery industry

Chapter 4: Analysis of market competition of woodworking machinery industry

- 4.1 analysis of competitive strength of woodworking machinery industry**
 - 4.1.1 competition of existing enterprises
 - 4.1.2 threat of potential entrants
 - 4.1.3 the bargaining power of upstream suppliers
 - 4.1.4 the bargaining power of downstream owners
 - 4.1.5 threat of alternatives
 - 4.1.6 summary of competition in the industry
- 4.2 analysis of competitive pattern of woodworking machinery industry**
 - 4.2.1 analysis of competition of economic type
 - 4.2.2 analysis of competition of regional distribution
 - 4.2.3 analysis of competition of market share

Chapter 5: Analysis of the development potential of market segments of woodworking machinery industry

- 5.1 analysis of the market potential of wood processing machinery**
 - 5.1.1 development status quo
 - 5.1.2 analysis of market potential
- 5.2 analysis of the market potential of plywood equipment**
 - 5.2.1 development status quo
 - 5.2.2 analysis of market potential
- 5.3 analysis of the market potential of fiberboard equipment**
 - 5.3.1 development status quo
 - 5.3.2 analysis of market potential
- 5.4 analysis of the market potential of particleboard equipment**
 - 5.4.1 development status quo
 - 5.4.2 analysis of market potential

Chapter 6: Analysis of operation of leading manufacturers of woodworking machinery industry

- 6.1 analysis of ranking of manufacturers of woodworking machinery industry**
 - 6.1.1 overall situation of manufacturer scale of woodworking machinery industry
 - 6.1.2 ranking of total industrial output value of manufacturers of woodworking machinery industry
 - 6.1.3 ranking of sales revenue of manufacturers of woodworking machinery industry
 - 6.1.4 ranking of total profit of manufacturers of woodworking machinery industry
- 6.2 analysis of operation of leading manufacturers of woodworking machinery industry**
 - 6.2.1 Shanghai Artificial Board Machinery Co., Ltd.
 - (1) overview of the company's development
 - (2) analysis of the company's production and sales capabilities
 - (3) analysis of the company's profitability capability

- (4) analysis of the company's operation capability
- (5) analysis of the company's solvency capability
- (6) analysis of the company's development capability
- (7) analysis of the company's patent technology
