

China's Report of Bulk Stock E-commerce Market (2016-2021), Forecast and Investment Strategic Planning

目 录

CONTENTS

Chapter 1: Overview of China's bulk stock electronic trading market

- 1.1 instructions of Qianzhan's report of bulk stock electronic trading market
 - 1.1.1 scope of the study in the report
 - 1.1.2 main objects of study in the report
 - 1.1.3 main analysis tools in the report
 - 1.1.4 main glossaries in the report
- 1.2 definition of bulk stock electronic trading market
 - 1.2.1 related concepts of bulk stock trading market
 - (1) futures market
 - (2) spot market
 - (3) bulk stock electronic trading market
 - 1.2.2 difference and relationship of the three types of trading market
 - 1.2.3 difference between big four exchanges
- 1.3 analysis of participating subjects of bulk stock electronic trading market
 - 1.3.1 analysis of interest demands of local governments
 - 1.3.2 analysis of the role of the exchange
 - 1.3.3 analysis of status quo of agency management
 - 1.3.4 analysis of retail investors
- 1.4 characteristics of investment of bulk stock electronic trading market
 - 1.4.1 access threshold
 - 1.4.2 investment cost
 - 1.4.3 profit factor
- 1.5 operation system of business of bulk stock electronic trading market
 - 1.5.1 business model
 - 1.5.2 client groups
 - 1.5.3 revenue source

Chapter 2: Living environment of China's bulk stock electronic trading market

- 2.1 analysis of policy environment
 - 2.1.1 regulatory classification of bulk stock electronic trading market
 - 2.1.2 analysis of policies of bulk stock electronic trading market in previous years
 - 2.1.3 clean-up and rectification of bulk stock electronic trading market
 - 2.1.4 policy trends of bulk stock electronic trading market
- 2.2 social demand environment
 - 2.2.1 the demand generated by the growth of the quantity of trade enterprises
 - 2.2.2 the rate of return of bulk stock market improves the demand
- 2.3 analysis of economic environment
 - 2.3.1 correlation between bulk stock trading and economic cycles
 - 2.3.2 correlation between bulk stock trading and manufacturing economy
 - 2.3.3 analysis of infrastructure of bulk stock electronic trading market

Chapter 3: Analysis of subdivided product variety of China's bulk stock trading market

- 3.1 overview of operation of bulk stock trading market
 - 3.1.1 analysis of bulk stock price trends
 - (1) changes of bulk stock price
 - (2) factors influencing bulk stock price
 - 3.1.2 analysis of external dependence of bulk stock
 - (1) overview of degree of external dependence of bulk stock
 - (2) ranking of degree of external dependence of bulk stock
 - (3) analysis of industry distribution of external dependence of bulk stock
 - (4) analysis of distribution of industry chain of external dependence of bulk stock

- (5) analysis of impact of degree of external dependence of bulk stock
- 3.1.3 analysis of overcapacity of bulk stock
 - (1) overview of utilization rate of capacity of bulk stock
 - (2) ranking of utilization rate of capacity of bulk stock
 - (3) analysis of industry distribution of overcapacity of bulk stock
 - (4) analysis of distribution of industry chain of overcapacity of bulk stock
 - (5) analysis of impact of overcapacity of bulk stock
- 3.2 analysis of agricultural products electronic trading market
 - 3.2.1 characteristics of operation of agricultural bulk stock market
 - 3.2.2 analysis of price changes of agricultural bulk stock
 - 3.2.3 analysis of hot varieties of agricultural bulk stock
 - 3.2.4 forecast of agricultural bulk stock prices
- 3.3 analysis of steel products electronic trading market
 - 3.3.1 characteristics of operation of steel bulk stock market
 - 3.3.2 analysis of price changes of steel bulk stock
 - 3.3.3 analysis of hot varieties of steel bulk stock
 - 3.3.4 forecast of steel bulk stock prices
- 3.4 analysis of energy products electronic trading market
 - 3.4.1 characteristics of operation of energy bulk stock market
 - 3.4.2 analysis of price changes of energy bulk stock
 - 3.4.3 analysis of hot varieties of energy bulk stock
 - (1) coke
 - (2) diesel
 - (3) gasoline
 - 3.4.4 forecast of energy bulk stock prices
- 3.5 analysis of chemical products electronic trading market
 - 3.5.1 characteristics of operation of chemical bulk stock market
 - 3.5.2 analysis of price changes of chemical bulk stock
 - 3.5.3 analysis of hot varieties of chemical bulk stock
 - (1) urea
 - (2) glyphosate
 - 3.5.4 forecast of chemical bulk stock prices
- 3.6 analysis of textile products electronic trading market
 - 3.6.1 characteristics of operation of textile bulk stock market
 - 3.6.2 analysis of price changes of textile bulk stock
 - 3.6.3 analysis of hot varieties of textile bulk stock
 - 3.6.4 forecast of textile bulk stock prices
- 3.7 analysis of building materials electronic trading market
 - 3.7.1 characteristics of operation of building materials bulk stock market
 - 3.7.2 analysis of price changes of building materials bulk stock
 - 3.7.3 analysis of hot varieties of building materials bulk stock
 - (1) float glass
 - (2) cement
 - 3.7.4 forecast of building materials bulk stock prices
- 3.8 analysis of colored products electronic trading market
 - 3.8.1 characteristics of operation of colored bulk stock market
 - 3.8.2 analysis of price changes of colored bulk stock
 - 3.8.3 analysis of hot varieties of colored bulk stock
 - (1) aluminum metal
 - (2) nickel
 - 3.8.4 forecast of colored bulk stock prices
- 3.9 analysis of rubber products electronic trading market
 - 3.9.1 characteristics of operation of rubber bulk stock market
 - 3.9.2 analysis of price changes of rubber bulk stock
 - 3.9.3 analysis of hot varieties of rubber bulk stock
 - (1) natural rubber
 - (2) SBR
 - 3.9.4 forecast of rubber bulk stock prices

Chapter 4: Analysis of development of China's bulk stock electronic trading market

- 4.1 analysis of development scale of bulk stock electronic trading market
 - 4.1.1 quantity scale of bulk stock electronic trading market
 - 4.1.2 transaction scale of bulk stock electronic trading market
- 4.2 analysis of operation of bulk stock electronic trading market
 - 4.2.1 time of establishment of bulk stock electronic trading market
 - 4.2.2 development factors of bulk stock electronic trading market
 - 4.2.3 geographical distribution of bulk stock electronic trading market
 - 4.2.4 analysis of operation status of bulk stock electronic trading market
 - 4.2.5 analysis of trading products of bulk stock electronic trading market
- 4.3 analysis of operating conditions of bulk stock electronic trading market
 - 4.3.1 analysis of nature of bulk stock electronic trading market
 - 4.3.2 operation costs of bulk stock electronic trading market
 - 4.3.3 profit level of bulk stock electronic trading market
- 4.4 analysis of service levels of bulk stock electronic trading market
 - 4.4.1 information service of bulk stock electronic trading market
 - 4.4.2 logistics service of bulk stock electronic trading market
 - 4.4.3 capital service of bulk stock electronic trading market
- 4.5 analysis of trading patterns of bulk stock electronic trading market
 - 4.5.1 status quo of application of transaction model of bulk stock electronic trading market
 - 4.5.2 analysis of subdivide trading models of bulk stock electronic trading market
 - (1) analysis of non-IPO trading model
 - (2) analysis of medium and long term trading model
 - (3) analysis of auction trading model
 - (4) analysis of order trading model
 - (5) analysis of tender trading model
 - (6) analysis of other trading models
- 4.6 analysis of development model of bulk stock electronic trading market
 - 4.6.1 business positioning of bulk stock electronic trading market
 - 4.6.2 operation model of financing of bulk stock trading platform
 - (1) traditional financing model of bulk stock trading
 - (2) cases of financing of bulk stock trading platform
 - (3) innovation of financing mechanisms of bulk stock trading platform
- 4.7 analysis of SCP paradigm of bulk stock electronic trading market
 - 4.7.1 structure of bulk stock electronic trading market
 - 4.7.2 code of conduct of bulk stock electronic trading market
 - 4.7.3 performance of bulk stock electronic trading market

Chapter 5: Analysis of the development of third-party bulk stock service platform

- 5.1 business model of third-party bulk stock service platform
 - 5.1.1 dominated by information service of the industry
 - (1) introduction of the model
 - (2) analysis of typical enterprises
 - (3) analysis of typical cases
 - 5.1.2 dominated by online bulk stock trading service
 - (1) introduction of the model
 - (2) analysis of typical enterprises
 - (3) analysis of typical cases
