

China Smart Meter Industry Report of Evolution Forecast and Investment Strategy Planning, 2016-2021

目 录

CONTENTS

Chapter 1: China Smart Metering Industry Development Environment

1.1 Overview of Smart Metering Industry

- 1.1.1 Smart Metering Industry's Definition
- 1.1.2 Smart Metering Industry's Classification
- 1.1.3 Technical characteristics of smart metering device
- 1.1.4 Difference between smart table and the traditional table

1.2 Analysis of the Industry's Policy Environment

- 1.2.1 Analysis of the regulatory regime
- 1.2.2 Main laws and regulations
- 1.2.3 Main industrial policies

1.3 Analysis of the Industry's Economic Environment

- 1.3.1 GDP Growth Trend Analysis
- 1.3.2 Analysis of industrial added value trend
- 1.3.3 the impact of the economic environment on the industry

1.4 Analysis of the Industry's Technical Environment

- 1.4.1 Technical standards for smart metering device industry
- 1.4.2 Technical characteristics of smart metering instrument industry
- 1.4.3 Technology trends of smart metering device industry

Chapter 2: Smart Metering products, raw materials market analysis

2.1 Analysis of the industrial chain relationships

2.2 Analysis of the raw materials market operation

- 2.2.1 Analysis of steel market operation
 - (1) steel production analysis
 - (2) Analysis of steel consumption quantity
 - (3) steel imports and exports
 - (4) Changes in steel prices
- 2.2.2 Analysis of copper market operation
 - (1) copper production analysis
 - (2) Analysis of copper consumption quantity
 - (3) copper imports and exports
 - (4) Changes in copper prices
- 2.2.3 Analysis of the aluminum market operations
 - (1) aluminum production analysis
 - (2) aluminum sales analysis
 - (3) Aluminum Import and Export Analysis
 - (4) aluminum price changes
- 2.2.4 Analysis of the operations of the insulating material
 - (1) Production capacity of insulation material
 - 1) .Analysis of sales volume of Insulation material
 - 2) Development projections of insulating material

2.3 Electronic components market operations

- 2.3.1 microcontroller (MCU) Market Analysis
 - (1) market development status
 - (2) Technology Trends
- 2.3.2 IC Market Analysis
 - (1) Market development status
 - 1) trends forecast
- 2.3.3 Resistor Market Analysis
- 2.3.4 Capacitor Market Analysis

- (1) market development status
- (2) Market prospects
- 2.3.5 semiconductor market analysis
 - (1) International market developments
 - (2) Domestic market developments
 - (3) Development Trend Analysis
- 2.3.6 printed circuit board (PCB) Market Analysis
 - (1) International market developments
 - (2) Domestic market developments.....45

Chapter 3: Analysis of development status of smart metering instrument industry in China

3.1 Analysis of instrument industry

- 3.1.1 Summary of the industry's development
- 3.1.2 Operations of the instrument industry
 - (1) Industry management benefits analysis
 - (2) Industry Profitability Analysis
 - (3) Industry Operations Analysis
 - (4) Industry Solvency Analysis
 - (5) Industry Development Analysis
- 3.1.3 Supply and demand of the instrument industry
 - (1) Industry supply analysis
 - (2) Industry demand analysis
 - (3) Industry sales rate analysis
- 3.1.4 Development trends of the instrument industry

3.2 Development Status of Smart Metering Industry

- 3.2.1 Review of Smart Metering Industry's Development
- 3.2.2 Analysis of Smart Metering Applications
- 3.2.3 Factors affecting the Smart Metering Industry

3.3 The main features of Smart Metering Industry

- 3.3.1 Smart Metering industry business model
- 3.3.2 Cycle of Smart Metering industry
- 3.3.3 Regional smart metering industry
- 3.3.4 Seasonal smart metering industry

Chapter 4: China smart meter market's development and demand forecasting

4.1 International developments of Smart Meter Industry

- 4.1.1 The international smart meter market's developments and trends
- 4.1.2 The international smart meter market competition
- 4.1.3 The main countries' smart meter market demand
 - (1) Analysis of U.S. smart meter market demand
 - (2) Analysis of European. Smart meter market demand
 - (3) Analysis of Japanese. Smart meter market demand

4.2 Analysis of domestic smart meter market

- 4.2.1 Summary of smart meter market developments
- 4.2.2 Applications of smart meter
- 4.2.3 Analysis of smart meter sales
- 4.2.4 Analysis of smart meter market capacity
- 4.2.5 Smart meter market competition

4.3 Analysis of smart meter market segmentation

- 4.3.1 Carrier Meter Market Analysis
 - (1) Features Analysis
 - (2) Market Size Analysis
 - (3) Market demand outlook
- 4.3.2 Prepayment meter market analysis
 - (1) Features Analysis
 - (2) Market Trend Analysis
 - (3) Market demand outlook
- 4.3.3 Multi-rate meter Market Analysis
 - (1) Features Analysis
 - (2) Market Size Analysis
 - (3) Market demand outlook

4.3.4 Multi-user meter market analysis	
(1) Features Analysis	
1) Market Size Analysis	
(2) Market demand outlook	
4.3.5 Energy Meter Market Analysis	
(1) Features Analysis	
(2) Market Size Analysis	
(3) Market demand outlook	
4.4 smart meter procurement and bidding	
4.4.1 Overall situation of smart meter tenders	
(1) Scale of smart meter tenders	
(2) Market share analysis of successful bidder	
4.4.2 smart meter bidding in.....	2012
(1) size of the smart meter tenders in.....	2012
(2) Grade 2 single-phase smart meter bidding situation in.....	2012
(3) Grade 3 single-phase smart meter bidding situation in.....	2012
4.4.3 smart meter bidding in.....	2013
(1) size of the smart meter tenders in.....	2013
(2) Grade 2 single-phase smart meter bidding situation in.....	2013
(3) Grade 3 single-phase smart meter bidding situation in.....	2013
4.5 Smart meters' downstream demand and forecast	
4.5.1 Status of Smart Grid construction	
4.5.2 construction plan	
4.5.3 Smart Grid demands for smart meter	
4.5.4 scale of demand forecasting for smart meter	
4.6 Future trends of smart meter industry	
4.6.1 Interface Integration
