China RFID Industry Market Forecast and Investment Strategy Planning Report, 2013-2017

目 录

CONTENTS

Chapter 1: Development Overview of China RFID Industry
1.1 Overview of RFID Industry
1.1.1 Definition of RFID Industry
1.1.2 Composition of RFID System
1.1.3 Category of RFID Technology
1.1.4 Category of RFID Application
1.2 Analysis of RFID Industrial Chain
1.2.1 Composition of RFID Industrial Chain
1.2.2 Analysis of RFID Industrial Structure
1.3 Development Environment of China RFID Industry
1.3.1 Policy Environment of RFID Industry
(1) Relevant Policy Trend of RFID Industry
(2) Relevant Development Planning of RFID Industry
1.3.2 Economic Environment of RFID Industry
(1) Analysis of International Macro-Economic Environment
(2) Analysis of Domestic Macro-Economic Environment
(3) Analysis of Industrial Macro-Economic Environment
1.3.3 Social Environment of RFID Industry
(1) Food Safety Tracing Demand
(2) Medical Quality Improving Demand
(3) Intelligent Transportation Demand
Chapter 2: Development Status of Global RFID Industry
2.1 Development of Global RFID Industry
2.1.1 Development Status of Global RFID Industry
2.1.2 Analysis of Global RFID System
2.1.3 Market Size of Global RFID Industry
2.1.4 Price Analysis of Global RFID
2.1.5 Condition of Global RFID Technical Patent
2.1.6 Development Trend of Global RFID Industry
2.2 Development of RFID Industry in Major Countries
2.2.1 Development of RFID Industry in America
(1) Development of RFID Industry in America
(2) Development Strategy of RFID Industry in America
(3) Application Status of RFID Industry in America
2.2.2 Development of RFID Industry in European Union
(1) Development of RFID Industry in European Union
(2) Development Strategy of RFID Industry in European Union
(3) Application Status of RFID Industry in European Union
2.2.3 Development of RFID Industry in Japan
(1) Development of RFID Industry in Japan
(2) Development Strategy of RFID Industry in Japan
(3) Application Status of RFID Industry in Japan
2.2.4 Development of RFID Industry in Korea
(1) Development of RFID Industry in Korea
(2) Development Strategy of RFID Industry in Korea
(3) Application Status of RFID Industry in Korea
2.3 Analysis of Major Corporations of Global RFID Industry
2.3.1 ThingMagic
(1) Development Briefing of the Company

(2) Products and Technologies of the Company
(3) Product Application of the Company
(4) Global Distribution of the Company
2.3.2 SIRIT Inc
(1) Development Briefing of the Company
(2) Products and Technologies of the Company
(3) Product Application of the Company
(4) Global Distribution of the Company
2.3.3 AWID
(1) Development Briefing of the Company
(2) Products and Technologies of the Company
(3) Product Application of the Company
(4) Global Distribution of the Company
2.3.4 ATID
(1) Development Briefing of the Company
(2) Products and Technologies of the Company
(3) Product Application of the Company
(4) Global Distribution of the Company
2.3.5 Texas Instruments
(1) Development Briefing of the Company
(2) Products and Technologies of the Company
(3) Product Application of the Company
(4) Global Distribution of the Company
2.3.6 OMRON
(1) Development Briefing of the Company
(2) Products and Technologies of the Company
(3) Product Application of the Company
(4) Development of the Company in China
2.3.7 Avery Dennison
(1) Development Briefing of the Company
(2) Products and Technologies of the Company
(3) Product Application of the Company
(4) Global Distribution of the Company
2.3.8 Impinj
(1) Development Briefing of the Company
(2) Products and Technologies of the Company
(3) Product Application of the Company
2.3.9 NXP
(1) Development Briefing of the Company
(2) Products and Technologies of the Company
(3) Product Application of the Company
(4) Global Distribution of the Company
2.3.10 Infineon
(1) Development Briefing of the Company
(2) Products and Technologies of the Company
(3) Product Application of the Company
(4) Development of the Company in China
Chapter 3: Development Status of China RFID Industry
3.1 Development Status of China RFID Industry
3.1.1 Development Progress of China RFID Industry
3.1.2 Market Size of China RFID Industry
3.1.3 Market Distribution of China RFID Industry
3.1.4 Technology Development Status of China RFID Industry
3.1.5 Application Status of China RFID Industry
3.1.6 Existing Problems and Strategy of China RFID Industry
3.2 Operation Status of China RFID Industry
3.2.1 Cost of China RFID Industry
(1) Cost Structure of RFID Industry
(2) Cost Competitiveness of RFID Industry

3.2.2 Profit Level of China RFID Industry
3.3 Market Structure of China RFID Industry
3.3.1 Overall Competitive Structure of China RFID Industry
(1) Major Competitors of Radio Frequency Identification Market
(2) Major Competitors of Middleman Market
(3) Major Competitors of Reader Market
3.3.2 Recommend Models of Major RFID Manufacturers
3.3.3 Development Structure of China RFID Industry in the Future
3.3.4 Market Positioning of China RFID Corporations
3.4 Hot Spots and Application of China RFID Industry
3.4.1 Special Fund to Develop China Internet
3.4.2 Experimental Units of Animal Electronic Identification (Electronic Ear Tag)
3.4.3 Experimental Units of Meet-and-Vegetable Circulation Tracing System
3.4.4 Experimental Units of Resident Health Card
3.4.5 Promotion of Financial IC Card
3.4.6 Application in White Wine RFID Anti-fake
3.4.7 Application in Internet Mobile Phone
3.4.8 Application in Grain Storage and Transportation Management (Digital Granary)
3.4.9 Application in New Electronic Ordinary Passport
3.4.10 Application in Financial Mobile Payment Industry
Chapter 4: Development of China Internet of Things Industry
4.1 Development Status of China Internet of Things Industry
4.1.1 Development Scale of China Internet of Things Industry
4.1.2 Development Prospects of China Internet of Things Industry
4.1.3 Influence of the Development of Internet of Things to RFID Industry
4.1.4 Investment Opportunities of RFID Industry in the Era of Internet of Things
4.2 Development of China Internet of Things Application
4.2.1 Overall Condition of China Internet of Things Application
4.2.2 Analysis of Regional Internet of Things Application in China
(1) Internet of Things Application in Wuxi City
(2) Internet of Things Application in Beijing City
(3) Internet of Things Application in Chongqing City
(4) Internet of Things Application in Guangzhou City
