

# China ETC Industry Report, Market Prospect and Investment Forecast

## 目 录

### CONTENTS

#### Chapter 1: Overview of development of China's ETC industry

##### 1.1 related overview of ETC system

- 1.1.1 definition of ETC system
- 1.1.2 classification of ETC system
- 1.1.3 component of ETC system
- 1.1.4 working principles of ETC system
- 1.1.5 main functions of ETC system
- 1.1.6 necessity of application of ETC system

##### 1.2 analysis of industrial chain of ETC industry

- 1.2.1 introduction of industry chain of ETC industry
- 1.2.2 analysis of downstream demand chain of ETC industry
  - (1) status quo of development of traffic management industry
  - (2) analysis of status quo of development of automobile industry
- 1.2.3 analysis of upstream supply chain of ETC industry
  - (1) development of information technology industry
  - (2) development of electronic components industry
  - (3) analysis of development of new materials industry
  - (4) development of system integration industry
  - (5) development of basic energy industry

##### 1.3 analysis of development environment of ETC industry

- 1.3.1 analysis of policy environment of ETC industry
  - (1) formulation of related standards of ETC
  - (2) interpretation of major policies of ETC industry
  - (3) interpretation of development planning of ETC industry
- 1.3.2 analysis of economic environment of ETC industry
  - (1) analysis of the international macro economic environment
  - (2) analysis of the domestic macro economic environment
  - (3) analysis of macro economic environment of the industry
  - (4) correlation between the industry and national economy

#### Chapter 2: Analysis of operation and management of ETC system

##### 2.1 analysis of operation mode of ETC system

- 2.1.1 analysis of operation mode of ETC system
  - (1) government selling operation right to the public
  - (2) mode of cooperation between the government and the public
- 2.1.2 analysis of charging mode of ETC system
  - (1) traditional MTC charging method
  - (2) MTC / ETC modular charging
  - (3) analysis of ETC charging mode

##### 2.2 analysis of cost-benefit of ETC system

- 2.2.1 analysis of operation cost of ETC system
  - (1) input during ETC construction
  - (2) cost during ETC operation
- 2.2.2 analysis of operation revenue of ETC system

##### 2.3 analysis of benefit of application of ETC

- 2.3.1 analysis of benefit of application of ETC system
- 2.3.2 analysis of economic benefit of application of ETC
  - (1) for driver
  - (2) for road owner
- 2.3.3 analysis of social benefit of application of ETC

2.3.4 analysis of case of economic value of ETC

#### 2.4 analysis of promotion of application of ETC

2.4.1 analysis of premise for promotion of ETC

2.4.2 analysis of problems of promotion of ETC

2.4.3 programs and measures of promotion of ETC

(1) analysis of government-level promotion measures

(2) promotion of highway operators

(3) marketing strategy of ETC equipment manufacturers

### Chapter 3: Reference of development experience of the international ETC industry

#### 3.1 analysis of development of the international ETC industry

3.1.1 development course of the international ETC industry

3.1.2 global ETC standards and progress

3.1.3 market scale of the international ETC industry

3.1.4 forecast of development of the global ETC

#### 3.2 development of ETC in major developed countries

3.2.1 analysis of development of ETC industry in America

(1) overview of development of America's E-ZPass

(2) scale of America's E-ZPass market

(3) selection of of America's E-ZPass technology

(4) operation mode of America's E-ZPass

(5) successful enterprises of America's E-ZPass

(6) implementation experience and inspiration of America's E-ZPass

3.2.2 analysis of development of ETC industry in Japan

(1) overview of development of Japan's ETC system

(2) scale of Japan's ETC industry market

(3) analysis of Japan's ETC technology selection

(4) analysis of operation mode of Japan's ETC

(5) analysis of successful enterprises of Japan's ETC

(6) analysis of effect of Japan's implementation of ETC

(7) development direction of Japan's ETC technology

(8) implementation experience and inspiration of Japan's ETC

3.2.3 analysis of development of ETC industry in Europe

(1) analysis of development of European ETC

(2) scale of European ETC industry market

(3) analysis of European ETC technology selection

(4) analysis of operation mode of European ETC

(5) analysis of successful enterprises of European ETC

(6) implementation experience and inspiration of European ETC

3.2.4 analysis of development of ETC industry in Singapore

(1) analysis of development of Singaporean ETC

(2) scale of Singaporean ETC industry market

(3) analysis of Singaporean ETC technology selection

(4) analysis of operation mode of Singaporean ETC

(5) experience and inspiration of Singaporean ETC construction

### Chapter 4: Analysis of market development of China's ETC industry

#### 4.1 development of China's highway industry

4.1.1 analysis of overview of development of China's highway

(1) highway mileage and growth

(2) highway mileage in various provinces and cities

(3) highway operation automobiles and growth

(4) average daily traffic on highway

(5) status quo of operation and management of highway

(6) operation and management mode of China's highway

4.1.2 analysis of intelligent development of China's highway

(1) overview of development of interconnection charging on highway

(2) technology selection for interconnection charging on highway

(3) analysis of ETC interconnection charging mode

1) fully networked charging method

2) electronic networked charging method

- 3) combination electronic charging mode
- (4) keys for implementation of ETC interconnection charging

#### 4.1.3 development planning and forecast of future highway

- (1) analysis of planning of highway network
- (2) development planning of future highway
- (3) forecast of supply of highway industry
- (4) forecast of demand of highway industry

### 4.2 analysis of development of ETC industry

- 4.2.1 analysis of overview of development of ETC market
  - (1) analysis of characteristics of development of ETC industry
  - (2) analysis of development process of ETC industry
  - (3) analysis of scale of development of ETC market
  - (4) status quo of development of ETC customer service outlets
- 4.2.2 analysis of China's ETC application
  - (1) application of ETC on highway
  - (2) analysis of application of ETC in community
  - (3) application of ETC in parking lot
- 4.2.3 analysis of China's ETC demonstration project
  - (1) ETC demonstration project in Yangtze River Delta
  - (2) ETC demonstration project in Beijing, Tianjin and Hebei
  - (3) analysis of effect of implementation of demonstration project

### 4.3 development measures and forecast of ETC industry

- 4.3.1 problems of China's development of ETC
- 4.3.2 analysis of China's development strategy of ETC
- 4.3.3 analysis of China's development measures of ETC
- 4.3.4 forecast of development prospects of ETC industry

## Chapter 5: Analysis of product markets of China's ETC industry

### 5.1 structure of product markets of ETC industry

- 5.1.1 status quo of structure of ETC product market
- 5.1.2 prediction of structure of ETC product market
- 5.1.3 analysis of development direction of ETC products
  - (1) analysis of ETC equipment market
- 5.1.4 analysis of development of OBU market
  - (1) classification of automotive OBU
  - (2) analysis of scale of OBU market
  - (3) analysis of competition of OBU market
  - (4) analysis of price of OBU products
  - (5) development trends of OBU market
  - (6) forecast of demand for OBU products
- 5.1.5 development of matched IC card market
  - (1) scale of matched IC card market
  - (2) competition of matched IC card market
  - (3) analysis of price of matched IC card
  - (4) development trends of of IC card market
  - (5) forecast of demand for matched IC card
- 5.1.6 analysis of development of RSU market
  - (1) classification of RSU
  - (2) analysis of scale of RSU market
  - (3) analysis of competition of RSU market
  - (4) analysis of price of RSU products
  - (5) development trends of RSU market
  - (6) forecast of demand for RSU products
- 5.1.7 analysis of lane auxiliary equipment markets
  - (1) analysis of electric fence market
  - (2) analysis of camera market
  - (3) analysis of vehicle detector market
  - (4) analysis of vehicle classification device market
  - (5) analysis of induction coil market
  - (6) analysis of other auxiliary equipment markets

- 1) analysis of localization of ETC chip
- 5.1.8 status quo of development of ETC special chip
- 5.1.9 problems of using foreign chip
- 5.1.10 technical realization of localization of ETC chip
- 5.1.11 benefits of localization of ETC chip
  - (1) economic benefits of localization of ETC chip
  - (2) social benefits of localization of ETC chip

## **Chapter 6: Analysis of highway ETC technology and lane layout**

### **6.1 analysis of technology of ETC industry**

- 6.1.1 analysis of development phase of ETC technology
- 6.1.2 analysis of ETC key technologies
  - (1) analysis of key technologies of ETC system
  - (2) security technology of ETC system
  - (3) analysis of electronic toll collection technology program
- 6.1.3 ETC key equipment testing technology
- 6.1.4 development of new technologies of ETC system
  - (1) independent dual antenna ETC system
  - (2) adjacent two-lane ETC system
  - (3) military lane ETC system
  - (4) handset application ETC system
- 6.1.5 analysis of marketization of ETC technology
- 6.1.6 analysis of development direction of ETC technology
- 6.1.7 related developments of ETC technology

### **6.2 layout of electronic toll lane**

- 6.2.1 analysis of ETC system lane layout
  - (1) analysis of type of ETC lane
  - (2) principles for ETC lane layout
  - (3) layout of ETC lane equipment
  - (4) layout of ETC lane plaza
- 6.2.2 analysis of layout pattern of ETC lane
  - (1) ETC / MTC hybrid lane mode
  - (2) electric fence before ETC lane
  - (3) electric fence behind ETC lane
  - (4) comparison of layout plan of ETC lane
- 6.2.3 influencing factors of efficiency of lane traffic
- 6.2.4 analysis of traffic capacity of ETC lane
  - (1) analysis of characterization of ETC lane traffic
  - (2) analysis of methods of ETC lane traffic
  - (3) calculation of traffic capacity of ETC lane
  - (4) classification of service level of ETC system

## **Chapter 7: Analysis of regional markets of China's ETC industry**

### **7.1 analysis of ETC market in East China**

- 7.1.1 analysis of development of ETC in Shanghai
  - (1) highway operation and planning
  - (2) analysis of scale of ETC construction
  - (3) analysis of operation mode of ETC
  - (4) analysis of operator of ETC
  - (5) ETC technical specifications and standards
  - (6) analysis of government policy support
  - (7) planning of ETC system construction
- 7.1.2 analysis of development of ETC in Zhejiang
  - (1) highway operation and planning
  - (2) analysis of scale of ETC construction
  - (3) analysis of operation mode of ETC
  - (4) analysis of operator of ETC
  - (5) ETC technical specifications and standards
  - (6) analysis of government policy support
  - (7) planning of ETC system construction
- 7.1.3 analysis of development of ETC in Jiangsu

- (1) highway operation and planning
  - (2) analysis of scale of ETC construction
  - (3) analysis of operation mode of ETC
  - (4) analysis of operator of ETC
  - (5) ETC technical specifications and standards
  - (6) analysis of government policy support
  - (7) planning of ETC system construction
- 7.1.4 analysis of development of ETC in Anhui
- (1) highway operation and planning
  - (2) analysis of scale of ETC construction
  - (3) analysis of operation mode of ETC
  - (4) analysis of operator of ETC
  - (5) ETC technical specifications and standards
  - (6) analysis of government policy support
  - (7) planning of ETC system construction
- 7.1.5 analysis of development of ETC in Fujian
- (1) highway operation and planning
  - (2) analysis of scale of ETC construction
  - (3) analysis of operation mode of ETC
  - (4) analysis of operator of ETC
  - (5) ETC technical specifications and standards
  - (6) analysis of government policy support
  - (7) planning of ETC system construction
- 7.1.6 analysis of development of ETC in Jiangxi
- (1) highway operation and planning
  - (2) analysis of scale of ETC construction
  - (3) analysis of operation mode of ETC
  - (4) analysis of operator of ETC
  - (5) ETC technical specifications and standards
  - (6) analysis of government policy support
  - (7) planning of ETC system construction
- 7.1.7 analysis of development of ETC in Shandong
- (1) highway operation and planning
  - (2) analysis of scale of ETC construction
  - (3) analysis of operation mode of ETC
  - (4) analysis of operator of ETC
  - (5) ETC technical specifications and standards
  - (6) analysis of government policy support
  - (7) planning of ETC system construction
- 7.2 analysis of ETC market in North China**
- 7.2.1 analysis of development of ETC in Beijing
- (1) highway operation and planning
  - (2) analysis of scale of ETC construction
  - (3) analysis of operation mode of ETC
  - (4) analysis of operator of ETC
  - (5) ETC technical specifications and standards
  - (6) analysis of government policy support
  - (7) forecast of ETC Sutong market
  - (8) planning of ETC system construction
- 7.2.2 analysis of development of ETC in Tianjin
- (1) highway operation and planning
  - (2) analysis of scale of ETC construction
  - (3) analysis of operation mode of ETC
  - (4) analysis of operator of ETC
  - (5) ETC technical specifications and standards
  - (6) analysis of government policy support
  - (7) planning of ETC system construction
- 7.2.3 analysis of development of ETC in Hebei
- (1) highway operation and planning

- (2) analysis of scale of ETC construction
  - (3) analysis of operation mode of ETC
  - (4) analysis of operator of ETC
  - (5) ETC technical specifications and standards
  - (6) analysis of government policy support
  - (7) planning of ETC system construction
- 7.2.4 analysis of development of ETC in Shanxi
- (1) highway operation and planning
  - (2) analysis of scale of ETC construction
  - (3) analysis of operation mode of ETC
  - (4) analysis of operator of ETC
  - (5) ETC technical specifications and standards
  - (6) analysis of government policy support
  - (7) planning of ETC system construction
- 7.3 analysis of ETC market in Central China**
- 7.3.1 analysis of development of ETC in Henan
- (1) highway operation and planning
  - (2) analysis of scale of ETC construction
  - (3) analysis of operation mode of ETC
  - (4) analysis of operator of ETC
  - (5) ETC technical specifications and standards
  - (6) analysis of government policy support
  - (7) planning of ETC system construction
- 7.3.2 analysis of development of ETC in Hubei
- (1) highway operation and planning
  - (2) analysis of scale of ETC construction
  - (3) analysis of operation mode of ETC
  - (4) analysis of operator of ETC
  - (5) ETC technical specifications and standards
  - (6) analysis of government policy support
  - (7) planning of ETC system construction
- 7.3.3 analysis of development of ETC in Hunan
- (1) highway operation and planning
  - (2) analysis of scale of ETC construction
  - (3) analysis of operation mode of ETC
  - (4) analysis of operator of ETC
  - (5) ETC technical specifications and standards
  - (6) analysis of government policy support
  - (7) planning of ETC system construction
- 7.4 analysis of ETC market in Northwest China**
- 7.4.1 analysis of development of ETC in Shaanxi
- (1) highway operation and planning
  - (2) analysis of scale of ETC construction
  - (3) analysis of operation mode of ETC
  - (4) analysis of operator of ETC
  - (5) ETC technical specifications and standards
  - (6) analysis of government policy support
  - (7) planning of ETC system construction
- 7.4.2 analysis of development of ETC in Gansu
- (1) highway operation and planning
  - (2) analysis of scale of ETC construction
  - (3) analysis of operation mode of ETC
  - (4) analysis of operator of ETC
  - (5) ETC technical specifications and standards
  - (6) analysis of government policy support
  - (7) planning of ETC system construction
- 7.5 analysis of ETC market in Southwest China**
- 7.5.1 analysis of development of ETC in Chongqing
- (1) highway operation and planning

- (2) analysis of scale of ETC construction
  - (3) analysis of operation mode of ETC
  - (4) analysis of operator of ETC
  - (5) ETC technical specifications and standards
  - (6) analysis of government policy support
  - (7) planning of ETC system construction
- 7.5.2 analysis of development of ETC in Sichuan
- (1) highway operation and planning
  - (2) analysis of scale of ETC construction
  - (3) analysis of operation mode of ETC
  - (4) analysis of operator of ETC
  - (5) ETC technical specifications and standards
  - (6) analysis of government policy support
  - (7) planning of ETC system construction

## 7.6 analysis of ETC market in South China

- 7.6.1 analysis of development of ETC in Guangdong
- (1) highway operation and planning
  - (2) analysis of scale of ETC construction
  - (3) analysis of operation mode of ETC
  - (4) analysis of ETC project construction
  - (5) analysis of operator of ETC
  - (6) ETC technical specifications and standards
  - (7) analysis of government policy support
  - (8) planning of ETC system construction
- 7.6.2 analysis of development of ETC in Yunnan
- (1) highway operation and planning
  - (2) analysis of scale of ETC construction
  - (3) analysis of operation mode of ETC
  - (4) analysis of operator of ETC
  - (5) ETC technical specifications and standards
  - (6) analysis of government policy support
  - (7) planning of ETC system construction
- 7.6.3 analysis of development of ETC in Guangxi
- (1) highway operation and planning
  - (2) analysis of scale of ETC construction
  - (3) analysis of operation mode of ETC
  - (4) analysis of operator of ETC
  - (5) ETC technical specifications and standards
  - (6) analysis of government policy support
  - (7) planning of ETC system construction

## Chapter 8: Analysis of competitors of China's ETC industry

### 8.1 analysis of operation of foreign major ETC enterprises

- 8.1.1 Q-FreeASA
- (1) brief introduction of the company's development
  - (2) the company's products and technology
  - (3) analysis of the company's service fields
  - (4) analysis of the company's operation
  - (5) analysis of the company's marketing strategy
- 8.1.2 TransCore
- (1) brief introduction of the company's development
  - (2) the company's products and technology
  - (3) analysis of the company's service fields
  - (4) analysis of the company's operation
  - (5) analysis of the company's marketing strategy
- 8.1.3 Kapsch
- (1) brief introduction of the company's development
  - (2) the company's products and technology
  - (3) analysis of the company's service fields
  - (4) analysis of the company's operation

- (5) analysis of the company's marketing strategy
- 8.1.4 TI
  - (1) brief introduction of the company's development
  - (2) the company's products and technology
  - (3) analysis of the company's service fields
  - (4) analysis of the company's operation
  - (5) analysis of the company's marketing strategy
- 8.1.5 Austria Karps Company
  - (1) brief introduction of the company's development
  - (2) the company's products and technology
  - (3) analysis of the company's service fields
  - (4) analysis of the company's operation
  - (5) analysis of the company's marketing strategy
- 8.2 analysis of operation of China's leading ETC enterprises**
- 8.2.1 Beijing Watchdata System Co., Ltd.
  - (1) brief introduction of the company's development
  - (2) analysis of the company's main business
  - (3) analysis of the company's operation
  - (4) analysis of the company's operation case
  - (5) analysis of the company's R&D capability
  - (6) analysis of the company's solutions
  - (7) the company's business outlets and network
  - (8) analysis of advantages and disadvantages of the company's operation
  - (9) analysis of the company's latest development trend
  - (10) analysis of investment, merger and restructuring of the company
- 8.2.2 Shenzhen Genvict Technology Co., Ltd.
  - (1) brief introduction of the company's development
  - (2) analysis of the company's main business
  - (3) analysis of the company's operation
  - (4) analysis of the company's operation case
  - (5) analysis of the company's R&D capability
  - (6) analysis of the company's solutions
  - (7) the company's business outlets and network
  - (8) analysis of advantages and disadvantages of the company's operation
  - (9) analysis of the company's latest development trend
  - (10) analysis of investment, merger and restructuring of the company
- 8.2.3 Guangzhou Art-c Communications Equipment Co., Ltd.
  - (1) brief introduction of the company's development
  - (2) analysis of the company's operation
  - (3) analysis of the company's main business
  - (4) analysis of the company's operation case
  - (5) analysis of the company's R&D capability
  - (6) analysis of the company's products and service
  - (7) the company's business outlets and network
  - (8) analysis of advantages and disadvantages of the company's operation
  - (9) analysis of the company's latest development trend
  - (10) analysis of investment, merger and restructuring of the company
- 8.2.4 Shenzhen Wuda Digital Traffic Technology Co., Ltd.
  - (1) brief introduction of the company's development
  - (2) analysis of the company's main business
  - (3) analysis of the company's operation
  - (4) analysis of the company's project performance
  - (5) analysis of the company's products and service
  - (6) the company's business outlets and network
  - (7) analysis of advantages and disadvantages of the company's operation
  - (8) analysis of the company's latest development trend
  - (9) analysis of investment, merger and restructuring of the company
- 8.2.5 Guangdong Lulutong Ltd.
  - (1) brief introduction of the company's development

- (2) analysis of the company's main business
  - (3) analysis of the company's operation
  - (4) analysis of the company's project performance
  - (5) analysis of the company's products and service
  - (6) the company's business outlets and network
  - (7) analysis of advantages and disadvantages of the company's operation
  - (8) analysis of the company's latest development trend
  - (9) analysis of investment, merger and restructuring of the company
- 8.2.6 Beijing SutongTechnology Co., Ltd.
- (1) brief introduction of the company's development
  - (2) analysis of the company's main business
  - (3) analysis of the company's operation
  - (4) analysis of the company's project performance
  - (5) analysis of the company's products and service
  - (6) the company's business outlets and network
  - (7) analysis of advantages and disadvantages of the company's operation
  - (8) analysis of the company's latest development trend
  - (9) analysis of investment, merger and restructuring of the company
- 8.2.7 Beijing Zhiguang Technology Co., Ltd.
- (1) brief introduction of the company's development
  - (2) analysis of the company's main business
  - (3) analysis of the company's operation
  - (4) analysis of the company's project performance
  - (5) analysis of the company's products and service
  - (6) the company's business outlets and network
  - (7) analysis of advantages and disadvantages of the company's operation
  - (8) analysis of the company's latest development trend
  - (9) analysis of investment, merger and restructuring of the company
- 8.2.8 Shanghai Changjiang Computer ( Group ) Company
- (1) brief introduction of the company's development
  - (2) analysis of the company's main business
  - (3) analysis of the company's operation
  - (4) analysis of the company's project performance
  - (5) analysis of the company's R&D capability
  - (6) the company's products and solutions
  - (7) the company's business outlets and network
  - (8) analysis of advantages and disadvantages of the company's operation
  - (9) analysis of the company's latest development trend
  - (10) analysis of investment, merger and restructuring of the company
- 8.2.9 Beijing Wanji Technology Co., Ltd.
- (1) brief introduction of the company's development
  - (2) analysis of the company's main business
  - (3) analysis of the company's operation
  - (4) analysis of the company's project performance
  - (5) analysis of the company's products and service
  - (6) the company's business outlets and network
  - (7) analysis of advantages and disadvantages of the company's operation
  - (8) analysis of the company's latest development trend
  - (9) analysis of investment, merger and restructuring of the company
- 8.2.10 Beijing CTFO Technology Co., Ltd.
- (1) brief introduction of the company's development
  - (2) analysis of the company's main business
  - (3) analysis of the company's operation
  - (4) analysis of the company's project performance
  - (5) the company's products and solutions
  - (6) the company's business outlets and network
  - (7) analysis of advantages and disadvantages of the company's operation
  - (8) analysis of the company's latest development trend
  - (9) analysis of investment, merger and restructuring of the company

- 8.2.11 Beijing EZCOMM Technology Co., Ltd.
- (1) brief introduction of the company's development
  - (2) analysis of the company's main business
  - (3) analysis of the company's operation
  - (4) analysis of the company's project performance
  - (5) the company's products and solutions
  - (6) the company's business outlets and network
  - (7) analysis of advantages and disadvantages of the company's operation
  - (8) analysis of the company's latest development trend
  - (9) analysis of investment, merger and restructuring of the company
- 8.2.12 Shandong Zhongchuang Software Engineering Co., Ltd.
- (1) brief introduction of the company's development
  - (2) analysis of the company's main business
  - (3) analysis of the company's operation
  - (4) analysis of the company's project performance
  - (5) analysis of the company's products and service
  - (6) the company's business outlets and network
  - (7) analysis of advantages and disadvantages of the company's operation
  - (8) analysis of the company's latest development trend
  - (9) analysis of investment, merger and restructuring of the company
- 8.2.13 Shanghai Shoulinx Information Technology Co., Ltd.
- (1) brief introduction of the company's development
  - (2) analysis of the company's main business
  - (3) analysis of the company's operation
  - (4) analysis of the company's project performance
  - (5) analysis of the company's products and service
  - (6) the company's business outlets and network
  - (7) analysis of advantages and disadvantages of the company's operation
  - (8) analysis of the company's latest development trend
  - (9) analysis of investment, merger and restructuring of the company
- 8.2.14 Shanghai Donghai Computer Co., Ltd.
- (1) brief introduction of the company's development
  - (2) analysis of the company's main business
  - (3) analysis of the company's operation
  - (4) analysis of the company's project performance
  - (5) analysis of the company's products and service
  - (6) the company's business outlets and network
  - (7) analysis of advantages and disadvantages of the company's operation
  - (8) analysis of the company's latest development trend
  - (9) analysis of investment, merger and restructuring of the company
- 8.2.15 Jiangsu Dongda Intelligent Systems Co., Ltd.
- (1) brief introduction of the company's development
  - (2) analysis of the company's main business
  - (3) analysis of the company's operation
  - (4) analysis of the company's project performance
  - (5) analysis of the company's products and service
  - (6) the company's business outlets and network
  - (7) analysis of advantages and disadvantages of the company's operation
  - (8) analysis of the company's latest development trend
  - (9) analysis of investment, merger and restructuring of the company
- 8.2.16 Guangzhou Newsoft Computer Technology Co., Ltd.
- (1) brief introduction of the company's development
  - (2) analysis of the company's main business
  - (3) analysis of the company's operation
  - (4) analysis of the company's project performance
  - (5) analysis of the company's products and service
  - (6) the company's business outlets and network
  - (7) analysis of advantages and disadvantages of the company's operation
