

China Intelligent Building Industry Development Prospects and Investment Strategy Report, 2013–2017

目 录

CONTENTS

Chapter 1: Background of China Intelligent Building Industry

1.1 Overview of Intelligent Building Industry

- 1.1.1 Definition of Intelligent Building
- 1.1.2 Development Progress of Intelligent Building
- 1.1.3 Functions of Intelligent Building

1.2 Economic Environment of Intelligent Building Industry

- 1.2.1 Analysis of Macro Economic Environment
 - (1) Analysis of International Macro Economic Environment
 - (2) Analysis of Domestic Macro Economic Environment
 - 1) Domestic Macro Economic Status
 - 2) Domestic Macro Economic Forecast
- 1.2.2 Analysis of Industry Macro Economic Environment
 - (1) Development of Building Installation Industry
 - (2) Development of Real Estate Industry

1.3 Policy Environment of Intelligent Building Industry

- 1.3.1 Competent Department and Supervision System of the Industry
- 1.3.2 Relevant Policy to Industry Design and Acceptance Check
 - (1) Standards of Integrated Wiring System Design
 - (2) Standards of Project Design and Construction Qualification of Intelligent Building
 - (3) Thunder-proof Technology Standards of Building Digital Information System
 - (4) Acceptance Check Standards of Project Quality of Intelligent Building
 - (5) Design Standards of Intelligent Building
 - (6) Technological Standards of Security Project
 - (7) Configuration and Technology Requirement of Intelligent System in Residential Area
 - (8) Acceptance Check Rules of Security System
 - (9) Integrated Wiring System Design Standards of Building and Building Group
 - (10) Integrated Wiring System Acceptance Check Standards of Building and Building Group
 - (11) Acceptance Check Standards on Telephone Communication Facilities of Urban Housing and

Office Building

- (12) Design Standards on Telephone Communication Facilities of Urban Housing and Office Building
- 1.3.3 Relevant Policies to Intelligent Building

Residential Intelligent System

- (1) Main Points and Technological Guidance on Benchmark Project Construction of National
- (2) Interim Measures on the Design and Management of Building Intelligent System
- (3) Interim Measures on Special Qualification of Building Intelligent System Design and

Integration

- (4) Qualification Standards of Building Intelligent System Design and Integration
- (5) Main Points and Technological Guidance on Benchmark District Construction of National

Benchmark Residential Intelligent System

1.4 Technology Environment of Intelligent Building Industry

- 1.4.1 Technology Types of the Industry
- 1.4.2 Technology Level of the Industry
- 1.4.3 Technology Trend of the Industry

1.5 Energy Saving of Intelligent Building Industry

- 1.5.1 Energy Saving Status of Intelligent Building
- 1.5.2 Energy Saving Measures of Intelligent Building
- 1.5.3 Energy Saving Trend of Intelligent Building

Chapter 2: Development Status of China Intelligent Building Industry

2.1 Development of Foreign Intelligent Building Industry

- 2.1.1 Development of Foreign Intelligent Building
 - (1) Development of Intelligent Building in America
 - (2) Development of Intelligent Building in Japan
 - (3) Development of Intelligent Building in Europe
- 2.1.2 Development of International Intelligent Building Technology
- 2.1.3 Development Trend of International Intelligent Building

2.2 Development of China Intelligent Building Industry

- 2.2.1 Enterprises' Scale of Intelligent Building Industry
- 2.2.2 Market Scale of Intelligent Building Industry
 - (1) Overall Market Scale of Intelligent Building Industry
 - (2) Market Segmentation Scale of Intelligent Building Industry
 - 1) Market Scale of Public Intelligent Building
 - 2) Market Scale of Industrial Intelligent Building
 - 3) Market Scale of Residential Intelligent Building
- 2.2.3 Proportion of Intelligent Building
- 2.2.4 Influencing Factors to Intelligent Building Industry
 - (1) Favorable Factors
 - (2) Unfavorable Factors

2.3 Competition of China Intelligent Building Industry

- 2.3.1 Competitive Landscape of Intelligent Building Industry
- 2.3.2 Threats of New Industry Entrants
- 2.3.3 Overall Trend of Intelligent Building Industry

2.4 Regional Development of China Intelligent Building

- 2.4.1 Development of Intelligent Building in Beijing
 - (1) Relevant Policies to Intelligent Building in Beijing
 - (2) Development Status of Intelligent Building in Beijing
 - (3) Prospects of Intelligent Building in Beijing
- 2.4.2 Development of Intelligent Building in Shanghai
 - (1) Relevant Policies to Intelligent Building in Shanghai
 - (2) Development Status of Intelligent Building in Shanghai
 - (3) Prospects of Intelligent Building in Shanghai
- 2.4.3 Development of Intelligent Building in Jiangsu
 - (1) Relevant Policies to Intelligent Building in Jiangsu
 - (2) Development Status of Intelligent Building in Jiangsu
 - (3) Prospects of Intelligent Building in Jiangsu
- 2.4.4 Development of Intelligent Building in Zhejiang
 - (1) Relevant Policies to Intelligent Building in Zhejiang
 - (2) Development Status of Intelligent Building in Zhejiang
 - (3) Prospects of Intelligent Building in Zhejiang
- 2.4.5 Development of Intelligent Building in Guangzhou
 - (1) Relevant Policies to Intelligent Building in Guangzhou
 - (2) Development Status of Intelligent Building in Guangzhou
 - (3) Prospects of Intelligent Building in Guangzhou
- 2.4.6 Development of Intelligent Building in Shenzhen
 - (1) Relevant Policies to Intelligent Building in Shenzhen
 - (2) Development Status of Intelligent Building in Shenzhen
 - (3) Prospects of Intelligent Building in Shenzhen

Chapter 3: Major Systems of China Intelligent Building

3.1 Analysis of Building Automatic System

- 3.1.1 Brief Introduction of Building Automatic System
- 3.1.2 Composition of Building Automatic System
- 3.1.3 Advantages of Building Automatic System
- 3.1.4 Construction Cost of Building Automatic System
- 3.1.5 Equipment Market of Building Automatic System
 - (1) Development Progress of Building Automatic System Equipment
 - (2) Competitive Landscape of the Equipment Market of Building Automatic System
 - (3) Competition of Foreign Enterprises in China
 - 1) Honeywell Company
 - 2) Johnson Controls

3) Siemens AG

3.1.6 Development Trend of Building Automatic System

3.2 Analysis of Communication Automatic System

3.2.1 Brief Introduction of Communication Automatic System

3.2.2 Composition of Communication Automatic System

3.2.3 Design Requirements of Communication Automatic System

3.2.4 Analysis of Communication Automatic System Segmentation

(1) Cable TV Network

(2) Integrated Wiring System

(3) Public Information Service System

(4) Online Property Service Sub-system

(5) Multimedia Electronic Demonstration System

(6) Call Forwarding and Voice Query System

3.2.5 Equipment Market of Communication Automatic System

(1) Scale of SPC Exchange Market

(2) Development Trend of SPC Exchange

(3) Prospects Forecast of SPC Exchange Market

3.3 Analysis of Office Automatic System

3.3.1 Brief Introduction of Office Automatic System

3.3.2 Classification of Office Automatic System

3.3.3 Development Stages of Office Automatic System

3.3.4 Development Trend of Office Automatic System

(1) Portal-oriented

(2) Business-oriented

(3) Driving by Knowledge

3.3.5 Software of Office Automatic System

(1) Development Status of Office Automatic System

(2) Development Trend of Office Automatic System

(3) Prospects of Office Automatic System

3.4 Analysis of Security Automatic System

3.4.1 Brief Introduction of Security Automatic System

3.4.2 Composition of Security Automatic System

3.4.3 Analysis of Safety Engineering

(1) Development of Safety Engineering

(2) Standards of Safety Engineering

(3) Technology of Safety Engineering

(4) Qualification of Safety Engineering Enterprises

(5) Development of Safety Engineering Enterprises

3.4.4 Analysis of Security Market

(1) Analysis of Audio Surveillance System Market

1) Technology Development Progress of Audio Surveillance System

2) Market Scale of Audio Surveillance System

3) Market Structure of Audio Surveillance System

4) Market Competition of Audio Surveillance System

5) Market Problems of Audio Surveillance System

6) Trend Forecast of Audio Surveillance System Market

(2) Analysis of Building Intercom System Market

1) Classification of Building Intercom System Products

2) Market Characteristics of Building Intercom System

3) Market Scale of Building Intercom System

4) Competitive Landscape of Building Intercom System Market

5) Strategy Selection of Building Intercom System Manufacturers

6) Trend Forecast of Building Intercom System Market

(3) Analysis of Access Control System Market

1) Technology Development of Access Control System

2) Market Scale of Access Control System

3) Market Structure of Access Control System

4) Competitive Landscape of Access Control System Market

5) Trend Forecast of Access Control System

- (4) Analysis of Burglar Alarm System Market
 - 1) Technology Development Progress of Burglar Alarm System
 - 2) Market Scale of Burglar Alarm System
 - 3) Market Structure of Burglar Alarm System
 - 4) Marketing Channels of Burglar Alarm System
 - 5) Market Problems of Burglar Alarm System
 - 6) Trend Forecast of Burglar Alarm System Market
- (5) Analysis of Transmission Product Market
 - 1) Production Scale of Transmission Industry
 - 2) Regional Distribution of Transmission Industry
 - 3) Enterprises' Nature of Transmission Industry
 - 4) Status of Transmission Product Market
 - 5) Price and Competition of Transmission Product
 - 6) Marketing Channels of Transmission Product
 - 7) Trend Forecast of Transmission Product Market

Chapter 4: Market Demand of Intelligent Building

4.1 Development of Housing Construction Industry

- 4.1.1 Area of Housing Construction
 - (1) Total Area of Housing Construction
 - (2) Annually Growing Area of Housing Construction
 - (3) Scale Forecast of Housing Construction
- 4.1.2 Investment of Construction Industry
 - (1) Proportion of Intelligent Building Investment to Total Construction Investment
 - (2) Forecast of Construction Investment
 - (3) Forecast of Intelligent Building Investment
- 4.1.3 Prospects Forecast of Intelligent Building Market

4.2 Demand of Intelligent Building Market Segmentation

- 4.2.1 Demand of Public Building Market
 - (1) Analysis of Public Building Area
 - 1) Status of Public Building Area
 - 2) Annually Growth of Public Building Area
 - 3) Forecast of Public Building Area
 - (2) Investment of Public Building
 - 1) Investment of Public Intelligent Building System
 - 2) Investment of Public Building
 - 3) Investment Forecast of Public Building
 - (3) Investment of Public Building Market Segmentation
 - 1) Investment of Hotel Building
 - 2) Investment of Office Building
 - 3) Investment of Government Building
 - 4) Investment of Cultural Facilities
 - 5) Investment of Urban Rail Transit Construction
 - 6) Investment of Airport Construction
 - 7) Investment of Exhibition Center Construction
 - 8) Investment of Station Construction
 - (4) Prospects Forecast of Public Intelligent Building Market
- 4.2.2 Demand of Residential Building Market
 - (1) Analysis of Residential Building Area
 - 1) Status of Residential Building Area
 - 2) Annually Growth of Residential Building Area
 - 3) Forecast of Residential Building Area
 - (2) Investment of Residential Building
 - 1) Investment of Public Intelligent Building System
 - 2) Investment of Residential Building
 - 3) Investment Forecast of Residential Building
 - (3) Prospects Forecast of Residential Intelligent Building Market
- 4.2.3 Demand of Industrial Construction Market
 - (1) Analysis of Industrial Construction Area
 - 1) Status of Industrial Construction Area

2) Annually Growth of Industrial Construction Area

3) Forecast of Industrial Construction Area

(2) Prospects Forecast of Public Intelligent Building Market

Chapter 5: Business Model of Intelligent Building Engineering

5.1 Major Content of Intelligent Building Engineering

5.1.1 Intelligent Integration Management System

5.1.2 Building Integrated Wiring Engineering

5.1.3 Equipment Automatic Management System

5.2 Business Model of Intelligent Building Engineering

5.2.1 Overview of Engineering Business Model

(1) Analysis of General Contractor Model

(2) Analysis of Specialist Sub-contracting

5.2.2 Analysis of Business Model

5.2.3 Trend of Business Model

5.2.4 Cases Study of Typical Enterprises

5.3 Bidding of Intelligent Building Engineering

5.3.1 Analysis of Bidding Methods

(1) Open Tender

(2) Invitation for Offer

(3) Two-stage Bidding

(4) Tender Discussion

5.3.2 Analysis of Bidding Process

(1) Bidding Preparation

(2) Form Bidding Group

(3) Bidding Inquiry

(4) Bidding Pricing

(5) Notices

5.3.3 Influencing Factors to Successful Bid

5.3.4 Suggestions to Bidding Strategy

(1) Strategy to Quote Price

(2) Supporting Strategy

Chapter 6: Major Enterprises of China Intelligent Building Industry

6.1 Overall Development of Intelligent Building Enterprises

6.2 Cases Study of Leading Industry Enterprises
