

China Transmission & Distribution and Control Equipment Industry Report of Competitive Landscape & Leading Enterprises Analysis, 2012-2013

目 录

CONTENTS

Chapter 1: Analysis of degree of competition \ concentration of the transmission & distribution and control equipment industry

- 1.1 the transmission & distribution and control equipment industry has entered a stage of the competition
 - 1.1.1 barriers to enter the transmission & distribution and control equipment industry
 - 1.1.2 life cycle of the transmission & distribution and control equipment industry
 - 1.1.3 competition in full swing of the transmission & distribution and control equipment industry
- 1.2 analysis of concentration of the transmission & distribution and control equipment industry
 - 1.2.1 industry concentration is low
 - 1.2.2 sub- industry concentration is low
 - 1.2.3 analysis of regional concentration
 - (1) the general characteristics of the structure of the regional industry
 - (2) analysis of regional concentration
 - 1.2.4 Analysis of factors of industry concentration
- 1.3 measures for enterprises to enhance their competitiveness and remain fully competitive

Chapter 2: Competition level and ranking of the transmission & distribution and control equipment industry

- 2.1 analysis of market competition level of the transmission & distribution and control equipment industry
 - 2.1.1 analysis of price competition
 - (1) type of enterprise
 - (2) analysis of major enterprises who use price competition
 - (3) companies' coping strategies
 - 2.1.2 analysis of quality competition
 - (1) type of enterprise
 - (2) analysis of major enterprises who use quality competition
 - (3) companies' coping strategies
 - 2.1.3 analysis of channel competition
 - (1) type of enterprise
 - (2) analysis of major enterprises who use channel competition
 - (3) companies' coping strategies
 - 2.1.4 Analysis of brand competition
 - (1) type of enterprise
 - (2) analysis of major enterprises who use brand competition
 - (3) companies' coping strategies
 - 2.1.5 analysis of strategy competition
 - (1) type of enterprise
 - (2) analysis of major enterprises who use strategy competition
 - (3) companies' coping strategies
- 2.2 analysis of rankings of the transmission & distribution and control equipment industry in 2011-2012
 - 2.2.1 analysis of rankings of various economic indicators of enterprises in 2011-2012
 - (1) analysis of rankings of total corporate assets
 - (2) analysis of rankings of corporate sales
 - (3) analysis of rankings of total corporate profits
 - (4) analysis of rankings of the enterprise cost margin
 - (5) analysis of rankings of corporate sales margin

- (6) analysis of rankings of corporate sales growth
- (7) analysis of rankings of total asset turnover rate
- 2.2.2 analysis of rankings of overall competitiveness in 2011-2012
 - (1) description of analysis method
 - (2) evaluation index of integrated enterprise competitiveness
 - (3) the overall competitiveness ranking

2.3 analysis of rankings of the transmission & distribution and control equipment industry sub-sectors in 2011-2012

- 2.3.1 analysis of comprehensive competitiveness of transformer, rectifier and inductor industry in 2011-2012
- 2.3.2 analysis of comprehensive competitiveness of capacitor and power distribution equipment industry in 2011-2012
- 2.3.3 overall competitiveness rankings of switch control equipment industry in 2011-2012
- 2.3.4 analysis of comprehensive competitiveness of power electronics components industry in 2011-2012
- 2.3.5 analysis of comprehensive competitiveness of photovoltaic equipment and components industry in 2011-2012
- 2.3.6 analysis of comprehensive competitiveness of other transmission and distribution and control equipment industry in 2011-2012

Chapter 3: Analysis of main competitive models of transmission and distribution and control equipment industry

3.1 analysis method of five forces

- 3.1.1 description and purposes of analysis method
- 3.1.2 procedures of analysis method

3.2 analysis of five forces of transmission and distribution and control equipment industry

- 3.2.1 the competition degree of existing competitors - level.....5
 - (1) fast market growth
 - (2) high proportion of fixed costs
 - (3) the large alienation of products
 - (4) the large number of enterprises
- 3.2.2 the threat of new entrants - level.....3
 - (1) strong retaliatory of existing enterprises
 - (2) high barriers to enter
 - (3) the operating effect of existing leading enterprises is obvious
 - (4) relatively stable sales channels
 - (5) strong attraction
- 3.2.3 the threat of substitute products or services - level.....1
- 3.2.4 the bargaining power of suppliers - level.....2
 - (1) steel supplier' s bargaining power is weak
 - (2) non-ferrous metals supplier' s bargaining power is ordinary
 - (3) the basic components supplier' s bargaining power is weak
- 3.2.5 the bargaining power of buyers - level.....3
 - (1) the bargaining power of power buyers is strong
 - (2) the bargaining power of metallurgy buyers is weak
 - (3) bargaining power of railway , urban construction and other industries is weak
- 3.2.6 conclusion

3.3 Measures and suggestions for enterprises to build the core competitiveness

Chapter 4: Analysis of merger integration trend of transmission and distribution and control equipment industry

4.1 M & A integration motivation

- 4.1.1 external motivation
 - (1) the impact of macroeconomic policies
 - (2) the impact of industry transformation and upgrading
- 4.1.2 internal motivation
 - (1) low-cost expansion
 - (2) optimize the product structure
 - (3) implementation of brand strategy

4.2 overview of industry merger integration

- 4.2.1 analysis of domestic M & A

- 4.2.2 analysis of foreign M & A
- 4.2.3 analysis of overseas M & A integration

4.3 analysis of M & A integration model

- 4.3.1 analysis of types of industry merger integration mode
 - (1) analysis of merger integration pattern of enhancement
 - (2) analysis of merger integration pattern of entrance
 - (3) analysis of merger integration pattern of upgrading
 - (4) analysis of merger integration pattern of development
- 4.3.2 selection of merger integration model based on the three-dimensional M & A environment

analysis

- (1) decision model of three-dimensional M & A environment analysis
- (2) how to choose merger integration mode

4.4 analysis of typical M & A integration cases

- 4.4.1 strong domestic M & A joint
 - (1) M & A situation
 - 1) introduction of merger company
 - 2) introduction of mergee company
 - 3) merger situation
 - (2) analysis of the mode selection
 - 1) market background and development strategy
 - 2) analysis of internal competitive factors
 - 3) mode selection
- 4.4.2 foreign acquisitions---some are happy and some are sorrow
 - (1) M & A situation
 - 1) introduction of merger company
 - 2) introduction of mergee company
 - 3) merger situation
 - (2) analysis of the mode selection
 - 1) market background and development strategy
 - 2) analysis of internal competitive factors
 - 3) mode selection
- 4.4.3 overseas acquisitions----use others' resources
 - (1) M & A situation
 - 1) introduction of merger company
 - 2) introduction of mergee company
 - 3) merger situation
 - (2) analysis of the mode selection
 - 1) market background and development strategy
 - 2) analysis of internal competitive factors
 - 3) mode selection

Chapter 5: analysis of foreign leading enterprises of the transmission & distribution and control equipment industry

5.1 overall analysis of foreign leading enterprises

5.2 ABB Group

- 5.2.1 company introduction
 - (1) company profile
 - (2) investment history in China
