China Communications Industry Report (2016-2021), Development Forecast and Investment Strategic Planning

目 录

CONTENTS

Chapter 1: Definition of China communication industry and analysis of its development environment in
1.1 definition of the communications industry
1.1.1 definition
1.1.2 classification
1.1.3 industry chain
(1) overview of the industry chain
(2) analysis of the industry chain
1.2 analysis of policy environment of communications industry
1.2.1 departments in charge of the industry
1.2.2 regulatory system of the industry
1.2.3 policies and regulations of the industry
1.2.4 standard system of the industry
1.2.5 development planning of the industry
1.3 analysis of economic environment of communications industry
1.3.1 domestic economic performance
(1) status quo of global economic development
1) domestic economic growth
1.3.2 forecast of economic trends at home and abroad
(1) forecast of global economic trends
1) forecast of domestic economic trends
1.3.3 the impact of the economic environment on the industry
1.4 analysis of social environment of communications industry
1.4.1 frequent occurrence of public safety incidents
1.4.2 networking and integration of informatization and industrialization
1.4.3 analysis of the impact of the social environment on the industry
1.5 analysis of technology environment of communications industry
1.5.1 the quantity of patent applications of the industry
1.5.2 the quantity of patent disclosures of the industry
1.5.3 leading companies in industry technology
1.5.4 analysis of hot technologies of the industry
Chapter 2: Development status quo and trends of the global communications industry
2.1 analysis of the global communications industry
2.1.1 the quantity of mobile subscribers worldwide
2.1.2 the quantity of mobile broadband subscribers worldwide
2.1.3 the development of global telecommunications operators
2.1.4 analysis of development trends of global communications industry
2.2 analysis of development in major countries and regions
2.2.1 Hong Kong
(1) analysis of telecom penetration in Hong Kong
(2) external telecommunications facilities capacity in Hong Kong
(3) external communication volume in Hong Kong
(4) Internet service in Hong Kong
1) connection via the public telephone networks
2) connection via broadband networks
(5) development of communication operators in Hong Kong
1) telecommunications service operators
2) FTNS operators
3) FTNS operators

2.2.2 the United States
(1) analysis of telecom penetration in the United States
(2) development of communication operators in America
1) Verizon
2) AT & T
3) Sprint
4) T-Mobile
(3) American mobile communications development
1) OEM smartphone market
2) smartphone operating system market
3) mobile website market
4) mobile application market
2.2.3 Japan
(1) analysis of telecom penetration in Japan
(2) development of communication operators in Japan
(3) development status quo of Japanese communications equipment manufacturing industry
2.2.4 Netherlands
(1) analysis of telecom penetration in Netherlands
(2) development of communication operators in Netherlands
2.2.5 Germany
(1) German mobile phone market
(2)) overall mobile phone market
(3)) smart phone market
(4) German mobile data services
(5) mobile voice services in Germany
(6) development of communication operators in Germany
2.2.6 South Korea
(1) analysis of telecom penetration in South Korea
(2)) South Korean smartphone penetration
(3)) South Korean wireless broadband penetration
(4) development of communication operators in South Korea
2.2.7 Singapore
(1) analysis of telecom penetration in Singapore
(2) development of communication operators in Singapore
2.2.8 Taiwan
(1) analysis of telecom penetration in Taiwan
1) 3G subscribers in Taiwan
(2)) the number of broadband users in Taiwan
(3) development of communication operators in Taiwan
(4) development status quo of Taiwanese communications equipment manufacturing industry
2.2.9 the UK
(1) analysis of telecom penetration in the UK
(2) development of communication operators in the UK
2.2.10 India
(1) analysis of telecom penetration in India
(2) development of communication operators in India

Chapter 3: Analysis of development status quo and trends of Chinese communications industry

3.1 analysis of development status quo of Chinese communication industry

3.1.1 overview of the overall development of the communications industry
3.1.2 analysis of characteristics of the communication industry development
(1) the scale of the industry continues to grow, the communications infrastructure continues to improve
(2) the capability of independent innovation significantly enhances, international influence steadily grows
(3) business structure continues to optimize , emerging network economy is booming
(4) the leading role of strategic base of communications is increasingly prominent
3.1.3 analysis of communication operators
(1) telecom business income

(2) development of telecommunications users
(3)) number of telephone users
(4)) Internet users
(5) economic situation of telecommunications
(6) telecom investment in fixed assets
(7) telecommunications capacity construction
(8) Rural informatization construction
3.2 summary of China's telecommunications industry development in key provinces and cities
3.2.1 overall regional development of communications industry
(1) differences of telecom business income
(2) differences of IPTV business development
(3) differences of Things business development
3.2.2 the development of the communications industry in key provinces and cities
(1) Beijing
1)) total volume of telecom business
2)) the development of fixed communication
3)) the development of mobile communications
(2) Shanghai
1)) total volume of telecom business
2)) the development of fixed communication
3)) the development of mobile communications
(3) Guangzhou
1)) total volume of telecom business
2)) the development of fixed communication
3)) the development of mobile communications
(4) Shenzhen
1)) the development of fixed communication
2)) the development of mobile communications
3.3 analysis of China's development trends of the telecommunications industry
3.3.1 development trends of industrial environment
3.3.2 development trends of business
3.3.3 development trends of technology
3.3.4 development trends of enterprise
