

China Coal Industry Development Trend and Investment Strategic Decision Report, 2013–2020

目 录

CONTENTS

Chapter 1: Life Cycle and Development Trend of China Coal Industry

1.1 Definition of the Industry

- 1.1.1 Definition
- 1.1.2 Classification
- 1.1.3 Analysis of the Industry Chain

1.2 Life Cycle of the Industry

- 1.2.1 Life Cycle Theory
- 1.2.2 Economic Characteristics of China Coal Industry
 - (1) Growth of Coal Industry
 - 1) Corporation Scale and Growing Trend of the Industry
 - 2) Production and Marketing Scale and Growing Trend of the Industry
 - (2) Technology Characteristics of the Industry
 - (3) Competition Characteristics of the Industry
 - 1) Market Competition of the Industry
 - 1. Internal Competition of the Industry
 - 2. Competition among Different Industries
 - 2) Analysis of the Industrial Barriers
 - (4) Profitability of the Industry
- 1.2.3 Life Cycle Measure to China Coal Industry

1.3 Development Trend Forecast of Coal Industry in the Future

- 1.3.1 Development Trend Forecast in Macro Level
 - (1) Economic Cycle in the Future
 - (2) Proportion Ratio of Coal to Energy during 2013–2035
- 1.3.2 Development Trend Forecast in Middle Level
 - (1) Life Cycle of Coal Industry in the Future
 - (2) Trend Forecast of Coal Supply-Demand Gap during 2013–2035
 - (3) Trend Forecast of Coal Price during 2013–2020
- 1.3.3 Development Trend Forecast in Micro Level
 - (1) Trend Forecast of the Market Share in the Future
 - (2) Trend Forecast of Market Typical Cases

Chapter 2: Market Prospects Forecast of China Coal Industry during 2013–2020

2.1 Supply Prospects Forecast of Coal Industry during 2013–2020

- 2.1.1 Influencing Factors to the Supply of Coal Industry
 - (1) Major External Factors—Impacts from Low Price of Import Coal
 - 1) Advantages of International Import Coal
 - 2) Impacts of International Import Coal to China Coal
 - 1. Productivity Will Be Further Surplus
 - 2. Coal Price Will Be Decreased
 - (2) Major Internal Factors
- 2.1.2 Data Reasoning and Mathematical Model of the Supply Scale of Coal Industry
 - (1) Data Reasoning of the Supply Scale of Coal Industry
 - (2) Mathematical Model of the Supply Scale of Coal Industry
- 2.1.3 Mathematical Model Forecast of the Supply Scale of Coal Industry during 2013–2020

2.2 Demand Prospects Forecast of Coal Industry during 2013–2020

- 2.2.1 Influencing Factors to the Demand of Coal Industry in the Future
 - (1) Major External Factors—Macro-Economic Environment
 - 1) Forecast of China Energy Consumption Elasticity Coefficient during 2013–2020
 - 2) Influence of the Development of China Macro Economic to Coal Consumption in next 8 Years
 - (2) Major Internal Factors

2.2.2 Data Reasoning and Mathematical Model of the Demand Scale of Coal Industry

- (1) Data Reasoning Progress of the Demand Scale of Coal Industry
- (2) Mathematical Model Construction of the Supply Scale of Coal Industry
 - 1) Coal Demand and BP Breakpoint Testing of GDP
 - 2) VAR Model Basing on Structural Mutation

2.2.3 Mathematical Model of the Demand Scale of Coal Market during 2013–2020

2.3 Imports and Exports Prospect Forecast of Coal Industry during 2013–2020

2.3.1 Forecast of the Imports and Exports Scale of China Coal Industry during 2013–2020

- (1) Reasoning Progress of Imports and Exports Data of Coal Industry
- (2) Comparison of Imports and Exports Scale of Coal Industry
 - 1) Proportion of the Production and Marketing Scale to the Imports and Exports of Coal

Industry

- 2) Comparison Prediction Method to the Imports and Exports Scale of Coal Industry

2.3.2 Development Trend Forecast of the Imports and Exports of Coal Industry

- (1) Forward's Forecast on the Imports Trend of Coal Industry
 - 1) Forward's Forecast on the Importing Price of Coal Industry
 - 2) Forward's Forecast on Coal Origin Countries
 - 3) Forward's Forecast on Major Importing Coals
- (2) Forward's Forecast on the Exports Trend of Coal Industry
 - 1) Forward's Forecast on Exporting Price of Coal Industry
 - 2) Forward's Forecast on Exporting Coal Flow Direction
 - 3) Forward's Forecast on Major Exporting Coals

2.4 Profit Prospect Forecast of Coal Industry during 2013–2020

2.4.1 Influencing Factors to the Profit of Coal Industry

- (1) Trend of the Balance between Supply and Demand
- (2) Analysis of Production Cost Trend
- (3) Analysis of Price Trend
- (4) Analysis of Policy Trend

2.4.2 Profit Scale Forecast of China Coal Industry during 2013–2020

Chapter 3: Market Share Forecast of China Coal Industry in next 5 Years

3.1 Forecast of the Regional Market Share of Coal Industry in next 5 Years

3.1.1 Regional Market Research of Coal Industry

- (1) Regional Market Share in next 5 Years
- (2) Trend of Coal Consumption Group in next 5 Years

3.1.2 Markov Model of the Regional Market Share of Coal Industry in next 5 Years

3.1.3 Forecast of the Regional Market Share in next 5 Years

3.2 Forecast of Provincial and Municipal Market Share of Coal Industry in next 5 Years

3.2.1 Provincial and Municipal Market Research of Coal Industry

- (1) Provincial and Municipal Market Share in next 5 Years
- (2) Trend of Coal Consumption Group in next 5 Years

3.2.2 Markov Model of the Provincial and Municipal Market Share of Coal Industry in next 5 Years

3.2.3 Forecast of Provincial and Municipal Market Share in next 5 Years

3.3 Market Share of Coal Corporations in next 5 Years

3.3.1 Production Concentration Degree of Coal Corporations in next 5 Years

- (1) Analysis of the Production Concentration Degree of Coal Corporations in next 5 Years
- (2) Bounded Rationality Model Construction of the Production Concentration Degree of Coal

Corporations in next 5 Years

- 1) Data Reasoning of the Production Concentration Degree of Coal Corporations in next 5 Years

- 2) Bounded Rationality Model of the Production Concentration Degree of Coal Corporations in

next 5 Years

- (3) Forecast of the Production Concentration Degree of Coal Corporations in next 5 Years

3.3.2 Sales Concentration Degree of Coal Corporations in next 5 Years

- (1) Status of the Sales Concentration Degree of Coal Corporations in next 5 Years

- (2) Prediction Model Construction of the Sales Concentration Degree of Coal Corporations in next

5 Years

- 1) Data Reasoning of the Sales Concentration Degree of Coal Corporations in next 5 Years

- 2) Bounded Rationality Model Construction to the Sales Concentration Degree of Coal

Corporations in next 5 Years

- (3) Forecast of the Sales Concentration Degree of Coal Corporations in next 5 Years

3.3.3 Forward's Suggestion to Increase the Market Share

- (1) Selection of the Optical Market Share
- (2) Innovation Strategy of the Industry Chain
- (3) Innovation Strategy of the Products
- (4) Brand Strategy
- (5) Service Strategy

Chapter 4: Development Bottlenecks and the Solutions to China Coal Corporations in next 5 Years

4.1 Development Bottlenecks to China Coal Corporations in next 5 Years

4.1.1 Development Bottlenecks to Large Leading Corporations

- (1) Analysis of Information Construction Bottleneck
- (2) Analysis of the Talent Bottleneck

4.1.2 Development Bottlenecks to Small Coal Corporations

- (1) Transportation Bottleneck
- (2) Merger and Reconstruction Bottleneck

4.1.3 Transformation Bottlenecks to the Old Coal Corporations

- (1) Root Cause to the Loss of Resource-Exhaustion-Oriented Coal Corporations in next 5 Years
- (2) Transformation Ways to the Old Coal Corporations from Forward

4.2 Information Construction Bottlenecks and the Solutions to China Coal Corporations in next 5 Years

4.2.1 Information Construction Issue of China Coal Corporation in next 5 Years

- (1) External Information Issue to China Coal Corporation in next 5 Years
- (2) Internal Information Issue to China Coal Corporation in next 5 Years

4.2.2 Information Development Trend of China Coal Corporations in next 5 Years

- (1) Information Will Be the Major Force for the "Blooming Decade" to Coal Corporations
- (2) Selection of Coal Corporations' Information Construction Model Turn to be A Problem

4.2.3 Recommended Solutions to the Information of China Coal Corporations in next 5 Years

- (1) Group Control
