

China Coatings Industry Production & Marketing Demand and Investment Forecast Report, 2013–2017

目 录

CONTENTS

Chapter 1: Development Overview of Coatings Industry

1.1 Definition and Connotation of Coating

1.2 Goal and Function for Coating

- 1.2.1 Protection of Materials to Be Coated
- 1.2.2 Decoration of Materials to Be Coated
- 1.2.3 Regarded As Color Logo
- 1.2.4 Meet Special Demand

1.3 PEST Analysis of Coatings Industry

- 1.3.1 Political
- 1.3.2 Economic
- 1.3.3 Social
- 1.3.4 Technological
- 1.3.5 Environmental Impact on Industry Development

Chapter 2: Development Status and Competitive Landscape of Coatings Industry

2.1 Overall Information of Coatings Industry

- 2.1.1 Development History of Coatings Industry
- 2.1.2 Development Features of Coatings Industry
- 2.1.3 Factors of Impacting Development of Industry
 - (1) Advantages
 - (2) Disadvantages

2.2 Development of Coating Production Line

- 2.2.1 Development History of Coating Production Line
- 2.2.2 Development Scale of Coating Production Line
- 2.2.3 Problems in Coating Production Line
- 2.2.4 Development Prospects for Coating Production Line

2.3 Development of Coating Project Market

- 2.3.1 Overview of Coating Project Market
- 2.3.2 Bidding Means of Coating Project
- 2.3.3 Bidding Direction to Coating Project
- 2.3.4 Condition of Contract with Coating Project

2.4 Multinationals' Competition in China

- 2.4.1 Durr AG
- 2.4.2 Eisenmann AG
- 2.4.3 Wagner Group GmbH
- 2.4.4 Hong Kong Liande Machinery Limited Company
- 2.4.5 SATA AG
- 2.4.6 Exel Industries
- 2.4.7 The ABB Group
- 2.4.8 ITW Group
- 2.4.9 Nordson Corporation
- 2.4.10 Yasumoto Co., Ltd.
- 2.4.11 ANEST Co., Ltd.
- 2.4.12 Hawking International Far East Group
- 2.4.13 Maypletex Group Limited
- 2.4.14 Yu Tung International Group Holdings Limited

2.5 Analysis of Competition for Coatings Industry

- 2.5.1 Five-force Model for Industry
 - (1) Rivalry among Existing Firms
 - (2) Bargaining Power of Suppliers

- (3) Bargaining Power of Buyers
- (4) Threat of New Entrants
- (5) Threat of Substitute Products or Services
- 2.5.2 M&A Analysis of Industry
 - (1) Tendency for M&A
 - (2) Features of M&A
 - (3) Trend for M&A

Chapter 3: Analysis of Market Status and Trend of Coating Materials Market

3.1 Analysis of Development Situation of China Coatings Industry

- 3.1.1 Development Overview of Coating Materials Industry
- 3.1.2 Development Features of Coating Materials Industry
- 3.1.3 Growth Output of Coating Materials
- 3.1.4 Operation Information of Coating Materials Industry

3.2 Development Situation of Product Segmentation Market in China Coating Materials Industry

- 3.2.1 Product Structural Features of Coating Materials Industry
- 3.2.2 Product Market Classification by Product Form
 - (1) Powder Coating
 - (2) Solvent-based Coating
 - (3) Water-based Coating
- 3.2.3 Product Market Classification by Product Function
 - (1) Decoration Coating
 - (2) Anti-corrosion Coating
 - (3) Electricity Conduction Coating
 - (4) Rust-proof Coating
 - (5) High Temperature Resistance Coating
 - (6) Temperature Indicating Coating
 - (7) Thermal Insulation Coating
- 3.2.4 Product Market Classification by Purpose of Use
 - (1) Architecture Coating
 - (2) Automobile Coating
 - (3) Ship Coating
 - (4) Aircraft Coating
 - (5) Plastic Coating
 - (6) Other Coatings

3.3 Development of Other Coating Materials Market

- 3.3.1 Coating Pretreatment Products Market
 - (1) Cleaner Degreaser
 - (2) Surface Contaminant
 - (3) Acid-washing Rust Remover
 - (4) Phosphating Treatment Agent
 - (5) Passivant
- 3.3.2 Post-coating Treatment Materials Market
 - (1) Antirust Wax
 - (2) Protective Wax Coating
 - (3) Paint Protection Film
 - (4) Polishing Material

3.4 Development Trend and Prospects Forecast for Coating Materials Industry

- 3.4.1 Development Trend and Prospects Forecast for Coating Materials Industry
 - (1) Development in Direction of Environmental Protection
 - (2) Development Prospects Forecast for Industry
- 3.4.2 Development Trend and Prospects Forecast for Other Coatings Industry

Chapter 4: Analysis of Development Status and Trend of Coating Device Industry

4.1 General View on Coating Device Market

- 4.1.1 Classification of Coating Device
- 4.1.2 Overview of Coating Device Market

4.2 Analysis of Pre-coating Treatment Device Market

- 4.2.1 Treatment Overview before Coating
 - (1) Purpose for Treatment before Coating
 - (2) Classification of Treatment before Coating

- (3) Function of Treatment before Coating
- 4.2.2 Status of Pre-coating Treatment Device Market
 - (1) Major Kinds of Devices
 - (2) Development Status of Market
 - (3) Major Manufacturers
- 4.2.3 Development Trend for Treatment Device before Coating

4.3 Analysis of Coating Device Market

- 4.3.1 Status of Coating Device Market
 - (1) Major Kinds of Devices
 - (2) Development Status of Market
 - (3) Major Manufacturers
- 4.3.2 Development Trend for Coating Device

4.4 Analysis of Coating Drying and Curing Machinery Market

- 4.4.1 Coating Drying and Curing Method
 - (1) Natural Drying
 - (2) Heat Drying
 - (3) Radiation Curing
 - (4) Vapor Curing
- 4.4.2 Status of Coating Drying and Curing Machinery Market
 - (1) Major Kinds of Devices
 - (2) Development Status of Market
 - (3) Major Manufacturers
- 4.4.3 Development Trend for Coating Drying and Curing Machinery

4.5 Analysis of Mechanical Conveyor Market

- 4.5.1 Status of Mechanical Conveyor Market
 - (1) Major Kinds of Devices
 - (2) Development Status of Market
 - (3) Major Manufacturers
- 4.5.2 Development Trend for Mechanical Conveyor

4.6 Other Coating Devices Market

Chapter 5: Analysis of Development of Coating Processing Technology

5.1 Overview of Coating Processing Technology

- 5.1.1 Progress of Coating Processing Technology
- 5.1.2 Major New Coating Process
 - (1) Electrostatic Coating
 - (2) Static-coating
- 5.1.3 Development Trend for Coating Process

5.2 Analysis of Auto Coating Processing Technology

- 5.2.1 Features of Auto Coating Process
- 5.2.2 Major Methods of Auto Coating
- 5.2.3 Different Types of Coating Process
 - (1) Coating Process for Auto Parts

Automobile

- (2) Coating Process for High Anti-corrosion Coating Layer
- (3) Coating Process for Aluminum Alloy Wheel
- (4) Coating Process for General Anti-corrosion Layer
- (5) Put Product to Be Coated onto Hanging Conveyor Chain As Required
- (6) Blow-dry with Hot Wind of 140-110°C, and Blow out Water Accumulated on Surface of Product
- (7) Dry off under 80-100°C within 10-15 min
- (8) Put Product to Be Coated onto Hanging Conveyor Chain As Required (Water Tank Shall Be

Coated After Water Pressure Being Tested Qualified)

- (9) Dry off under 100-110°C with 10-15 min
- (2) Coating Process for Auto-body
- (3) Automotive Refinish Coating Process
- (4) Automotive Special Purpose Coating Process

5.2.4 Application of Rotary Cup in Automotive Coating

- (1) Principle of Rotary Cup Spray
- (2) Automotive Rotary Cup Coating Status

- (3) Electrostatic Rotary Cup Coating Process
- (4) Problems in Rotary Cup Spray
- 5.2.5 Latest Technological Trend for Automotive Coating Industry
- 5.2.6 Application and Prospects for Energy-Saving and Emission-reduction of Automotive Coating
- 5.3 Analysis of Engineer Mechanical Coating Process Technology**
 - 5.3.1 Flow of Engineer Mechanical Coating Process
 - 5.3.2 Major Means of Engineer Mechanical Spray
 - 5.3.3 Engineer Mechanical Coating Status
 - (1) Coating Process Design
 - (2) Pretreatment Process
 - (3) Spray Process
 - 5.3.4 Application of Powder Spray in Engineering Machinery
 - (1) Brief Introduction to Powder Coating Process
 - (2) Economic Benefit of Powder Coating
 - (3) Application of Powder Coating in Engineering Machinery
 - 5.3.5 Problems in Coating of Engineering Machinery
 - (1) Coating Quality
 - (2) Problems
 - (3) Solutions
 - 5.3.6 New Technology Trend for Coating of Engineering Machinery
- 5.4 Analysis of Marine Coating Process**
 - 5.4.1 Flow of Marine Coating Process
 - 5.4.2 Requirements for Marine Coating Process
 - 5.4.3 Coating's Requirements for Production Design
 - 5.4.4 Progress of Advanced Marine Coating Technology
 - 5.4.5 Problems in Marine Coating Process

Chapter 6: Analysis of Development of Key Application Fields in Coatings Industry

6.1 Distribution of Major Application Fields of Coatings Industry

6.2 Analysis of Automotive Coating Industry Status and Trend

- 6.2.1 Development Status of Auto Industry
 - (1) Auto Production Volume
 - (2) Auto Ownership
 - (3) Competition Status of Auto Industry
- 6.2.2 Research on Consciousness for Automotive Coating
 - (1) Willingness to Make Use of Coating to Protect Car
 - (2) How Much Will to Pay for Coating Protection Processing
 - (3) Demand for Automotive Coating
 - (4) Preference for Color of Automotive Coating
- 6.2.3 Development Status of Automotive Coating Industry
 - (1) Overview of Automotive Coating
 - 1) Significance of Automotive Coating
 - 2) Features of Automotive Coating
 - (2) Development History of Automotive Coating
 - (3) Achievements of Automotive Coating Industry
 - (4) Gap between Foreign and Domestic Automotive Coating
- 6.2.4 Analysis of Automotive Coating Materials Market
 - (1) Varieties of Automotive Coating Materials
 - (2) Features of Automotive Coating Materials
 - (3) Demand for Automotive Coating Materials
 - 1) Common Coating Materials for Automotive Coating
 - 2) Demand Volume of Automotive Coating
 - 3) Demand for Environmental Protection-based Coating Materials
 - (4) Market Pattern of Automotive Coating Materials
- 6.2.5 Analysis of Automotive Coating Device Market
 - (1) Common Automotive Coating Device
 - (2) Market Demand Situation
 - (3) Market Competitive Landscape
- 6.2.6 Development trend for Automotive Coating Industry
 - (1) Demand Trend for Automotive Coating

(2) Development Direction for Automotive Coating

6.3 Analysis of Engineering Mechanical Coating Industry Status and Trend

6.3.1 Development Status of Engineering Mechanical Industry

- (1) Production and Sales Volume of Engineering Machinery
- (2) Ownership of Engineering Machinery
- (3) Operation of Engineering Machinery Industry

6.3.2 Development Status of Engineering Mechanical Coating Industry

- (1) Significance of Engineering Mechanical Coating
- (2) Development History of Engineering Mechanical Coating
- (3) Problems in Engineering Mechanical Coating

6.3.3 Engineering Mechanical Coating Materials Status

- (1) Engineering Machinery's Requirement for Coating Materials
- (2) Application Situation of Engineering Mechanical Coating Materials

6.3.4 Analysis of Engineering Mechanical Coating Device Market

- (1) Conveyor
- (2) Spray Shot Blasting
- (3) Spray Booth
- (4) Drying Chamber
- (5) Complete Machine Cleaning Room
