

# China Independent Clinical Laboratory Industry Report (2016–2021), Prospect and Investment Strategy Planning

## 目 录

### CONTENTS

#### Chapter 1: Investment background of Chinese independent clinical laboratory industry

- 1.1 overview of independent clinical laboratory
  - 1.1.1 definition of independent clinical laboratory
  - 1.1.2 origin of independent clinical laboratory
  - 1.1.3 positioning of independent clinical laboratory
  - 1.1.4 advantages independent clinical laboratory
- 1.2 values of independent clinical laboratory
  - 1.2.1 for clinical hospital
  - 1.2.2 for patients
  - 1.2.3 for clinicians
  - 1.2.4 for social health
  - 1.2.5 for popularization and promotion of the project
- 1.3 characteristics of independent clinical laboratory
  - 1.3.1 large initial investment, long payback period
  - 1.3.2 professional, high technical requirements
  - 1.3.3 many business partners
  - 1.3.4 high logistics costs
  - 1.3.5 complex approval procedures
  - 1.3.6 big influence of national policy
  - 1.3.7 multiple factors
  - 1.3.8 high cost of information systems
- 1.4 characteristics of independent clinical laboratory industry
  - 1.4.1 regional characteristics of the industry
  - 1.4.2 seasonal characteristics of the industry
- 1.5 analysis of independent clinical laboratory industry chain
  - 1.5.1 analysis of industry chain structure
  - 1.5.2 the impact of upstream industries on the industry
  - 1.5.3 the impact of downstream industries on the industry

#### Chapter 2: Analysis of environments of Chinese independent clinical laboratory industry

- 2.1 analysis of policy environment of the industry
  - 2.1.1 analysis of regulatory system of the industry
  - 2.1.2 related policies and regulations of the industry
  - 2.1.3 the impact of the new health care reform on the industry
  - 2.1.4 analysis of major standards of the industry
- 2.2 analysis of economic environment of the industry
  - 2.2.1 domestic economic performance
  - 2.2.2 analysis of residents' income level
  - 2.2.3 analysis of the impact of economic environment on the industry
- 2.3 analysis of social environment of the industry
  - 2.3.1 changes in disease spectrum
  - 2.3.2 the trend of population aging
  - 2.3.3 analysis of urbanization
  - 2.3.4 the number of insured residents in Medicare
  - 2.3.5 improvement of traffic conditions
- 2.4 analysis of technical environment of the industry
  - 2.4.1 technical standards and features
  - 2.4.2 advances in new technology of medical testing
  - 2.4.3 development of medical testing equipment

#### Chapter 3: Experience of operation of foreign independent clinical laboratories

- 3.1 analysis of development status quo of the American clinical laboratory**
  - 3.1.1 analysis of composition of the American clinical laboratory
  - 3.1.2 analysis of development of the American medical test market
    - (1) analysis of market structure
    - (2) analysis of market scale
  - 3.1.3 development stage of the American independent clinical laboratory
  - 3.1.4 market scale of the American clinical laboratory
  - 3.1.5 market pattern of the American clinical laboratory
  - 3.1.6 development direction of the American clinical laboratory
- 3.2 analysis of development of independent clinical laboratory in other countries**
- 3.3 analysis of operation of foreign leading independent medical laboratories**
  - 3.3.1 Quest
    - (1) introduction of company development
    - (2) analysis of the company's test capability
    - (3) network construction layout of the company
    - (4) analysis of operation of the company
    - (5) latest development of the company
  - 3.3.2 LabCorp
    - (1) introduction of company development
    - (2) analysis of the company's service scope
    - (3) analysis of the company's test capability
    - (4) analysis of operation benefit of the company
    - (5) analysis of quality management of the company
    - (6) analysis of investment M & A of the company
    - (7) latest development of the company
- 3.4 analysis of critical keys for success of leading independent clinical laboratories**
  - 3.4.1 diversification of detection project reserves
  - 3.4.2 classification of nationwide chain layout
  - 3.4.3 a full range of management capabilities
    - (1) efficient logistics network construction
    - (2) modern information services
    - (3) strict quality management
    - (4) refinement of cost management

## **Chapter 4: Development status quo and competition of Chinese independent clinical laboratories**

- 4.1 analysis of development status quo of independent clinical laboratory**
  - 4.1.1 analysis of stage of development
  - 4.1.2 analysis of market scale
  - 4.1.3 the share of various examinations
  - 4.1.4 analysis of development characteristics
- 4.2 analysis of development models of independent clinical laboratory**
  - 4.2.1 comprehensive independent clinical laboratory
    - (1) operational characteristics
    - (2) earning points
    - (3) representative companies
  - 4.2.2 professional independent clinical laboratory
    - (1) operational characteristics
    - (2) earning points
    - (3) representative companies
- 4.3 analysis of competition of five forces of independent clinical laboratory**
  - 4.3.1 internal competition
  - 4.3.2 the bargaining power of downstream customers
  - 4.3.3 the bargaining power of upstream suppliers
  - 4.3.4 threat of potential entrants
  - 4.3.5 threat of alternatives
  - 4.3.6 summary of competition of the industry
- 4.4 analysis of layout of foreign investment in China**
  - 4.4.1 AMCARE Labs International
  - 4.4.2 Intertek Group

#### 4.5 analysis of mergers and acquisitions of independent clinical laboratory industry

- 4.5.1 analysis of mergers and acquisitions of the international market
- 4.5.2 analysis of mergers and acquisitions of the domestic market
- 4.5.3 trends of mergers and acquisitions of the domestic market

### Chapter 5: Analysis of China demands for independent medical examination

#### 5.1 development of the medical services industry

- 5.1.1 analysis of China's medical resources
  - (1) governmental health spending
  - (2) quantity of medical institutions
  - (3) quantity of beds in medical institutions
- 5.1.2 analysis of the demand for medical services
  - (1) community health expenditure
  - (2) personal health spending
  - (3) statistics of visits
  - (4) statistics of hospital admissions
  - (5) revenue of medical services
- 5.1.3 characteristics of the medical services industry
- 5.1.4 development trends of healthcare industry

#### 5.2 development of clinical laboratory services

- 5.2.1 analysis of disease prevalence
  - (1) prevalence of residents' chronic diseases
  - (2) top ten diseases of hospital inpatients
- 5.2.2 overview of development of clinical laboratory industry
- 5.2.3 analysis of demand for clinical laboratory service
- 5.2.4 development trends of clinical laboratory

#### 5.3 analysis of the demand of independent clinical laboratory

- 5.3.1 analysis of the structure of demand of independent laboratory
- 5.3.2 analysis of the demand of second-level hospital laboratory outsourcing
  - (1) development of the quantity of second-level hospitals
  - (2) quantity of the attendants of second-level hospitals
  - (3) diagnostic equipment configuration of second-level hospitals
  - (4) outsourcing demand for second-level hospital laboratory
- 5.3.3 analysis of the demand of first-level hospital laboratory outsourcing
  - (1) development of the quantity of first-level hospitals
  - (2) quantity of the attendants of first-level hospitals
  - (3) outsourcing demand for first-level hospital laboratory
- 5.3.4 analysis of the demand of third-level hospital laboratory outsourcing
  - (1) development of the quantity of third-level hospital laboratories
  - (2) quantity of the attendants of third-level hospital laboratories
  - (3) diagnostic equipment configuration of third-level hospital laboratories
  - (4) outsourcing demand for third-level hospital laboratory
