

China Water Conservancy and Port Engineering Construction Industry Indepth Research and Investment Strategy Planning Report

目 录

CONTENTS

Chapter 1: Background of Water Conservancy and Port Engineering Construction Industry

1.1 Market Environment of the Industry

- 1.1.1 Analysis of Macro Economic Environment
 - (1) Analysis of Macro Economic Trend
 - (2) Forecast of Macro Economic Trend
- 1.1.2 Influence of Macro Economic Environment to Relevant Industries
 - (1) Influence of Macro Economy to Upstream Industry
 - (2) Influence of Macro Economy to the Industry
 - (3) Influence of Macro Economy to Downstream Industry

1.2 Analysis of Industry Policy Environment

- 1.2.1 Management System of the Industry
- 1.2.2 Relevant Policies and Regulations of the Industry
- 1.2.3 Development Plan of the Industry

1.3 Analysis of Industry Operational Environment

- 1.3.1 Development Characteristics of the Industry
- 1.3.2 Periodicity of the Industry
- 1.3.3 Favorable and Unfavorable Factors to Industry Development

1.4 Analysis of Industry Technology Environment

- 1.4.1 Technological Level and Characteristics of the Industry
- 1.4.2 Analysis of Industry Technological Trend

1.5 Analysis of Up/Down-stream Industrial Chain

- 1.5.1 Structure Chart of Industrial Chain
- 1.5.2 Development Status of Upstream Industry
 - (1) Supply & Demand and Price Trend of Steel Market
 - (2) Supply & Demand and Price Trend of Cement Market
- 1.5.3 Development Status of Downstream Industry
 - (1) Development Status of Water Conservancy and Hydroelectric Industry
 - (2) Development Status of Port Industry

Chapter 2: Development Status of Water Conservancy and Port Engineering Construction Industry

2.1 Development Overview of Water Conservancy and Port Engineering Construction Industry

- 2.1.1 Development Overview of Water Conservancy and Port Engineering Construction Industry
- 2.1.2 Management of Water Conservancy and Port Engineering Construction Industry
 - (1) Analysis of Industry Operational Effectiveness
 - (2) Analysis of Industry Profitability
 - (3) Analysis of Industry Operational Capability
 - (4) Analysis of Industry Debt-paying Ability
 - (5) Analysis of Industry Development Capability

2.2 Investment Structure of Water Conservancy and Port Engineering Construction Industry

- 2.2.1 Analysis of Industry Investment Scale
- 2.2.2 Structure of Industry Investment Sources
- 2.2.3 Construction of Industry Investment Project
- 2.2.4 Capital Application of Industry Investment
 - (1) Structure of Investment Flow
 - (2) Investment Proportion of different Levels of Projects
 - (3) Investment Proportion of New Construction, Expanding and Reconstruction Projects
- 2.2.5 Structure of Industry Investors

2.3 Market Analysis of Water Conservancy and Port Engineering Construction Industry

- 2.3.1 Analysis of Engineering Contract
- 2.3.2 Contracting Completion of Engineering
- 2.3.3 Analysis of Engineering Constructing Scale
- 2.3.4 Engineering Arrears and Enterprise Loss
- 2.3.5 Mechanical Equipment of Construction Enterprises

2.4 Competition of Water Conservancy and Port Engineering Construction Industry

- 2.4.1 Structure Characteristics of Enterprises of different Natures
- 2.4.2 Competition Structure of the Industry
 - (1) Competition within the Industry
 - (2) Competitive Edges of Industry Giants
 - (3) Entry Threats of Industry Foreign-owned Enterprises
- 2.4.3 Capital Reconstruction of Industry Enterprises
 - (1) Adjustment of Industry Structure
 - (2) Merger and Reconstruction of Industry Enterprises

Chapter 3: Business Model of Water Conservancy and Port Engineering Construction Industry

3.1 Bidding Model of Water Conservancy and Port Engineering

- 3.1.1 Bidding Ways of Water Conservancy and Port Engineering
- 3.1.2 Comparison and Analysis of Bidding Ways
- 3.1.3 Characteristics of Water Conservancy and Port Engineering Contract

3.2 Profit Model of Water Conservancy and Port Engineering Construction Industry

- 3.2.1 Analysis of Industry Profit Model
- 3.2.2 Analysis of Industry Profit Factors

3.3 Project Management Model of Water Conservancy and Port Engineering Construction Industry

- 3.3.1 Management Model of Engineering Contracting Projects
 - (1) Management Model of DBB Project
 - (2) Management Model of DB Project
 - (3) Management Model of DM Project
 - (4) Management Model of NC Project
 - (5) Management Model of EPC Project
 - (6) Management Model of PMC Project
 - (7) Management Model of CM Project
 - (8) Management Model of PM Project
 - (9) Management Model of OBT Project
 - (10) Management Model of Partnering Project
- 3.3.2 Analysis of EPC Project Management Model
 - (1) Characteristics of EPC Project Management Model
 - (2) Applicable Engineering of EPC Project Management Model
 - (3) Risks Warning of EPC Project Management Model
 - (4) Application of EPC Project Management Model
- 3.3.3 Analysis of PMC Project Management Model
 - (1) Models and Characteristics of PMC Management
 - (2) Comparison of PMC Project Management Models
 - (3) Applicable Engineering of PMC Project Management Model
 - (4) Significance of PMC Project Management Model

Chapter 4: Market Segmentation of Water Conservancy and Port Engineering Construction Industry

4.1 Analysis of Reservoir Project Market

- 4.1.1 Concept and Definition of Reservoir Project
- 4.1.2 Operational Environment of Reservoir Project Industry
 - (1) Relevant Policy and Regulation, and Industry Plan
 - (2) Industry Development Stage and Market Characteristics
 - (3) Overall Technological Level and Characteristics
- 4.1.3 Overall Status of Domestic Reservoir Project Market
 - (1) Investment of Reservoir Project
 - (2) Domestic Scale of Reservoir Project
 - (3) Reservoir Project under Construction or Planned to Construct
- 4.1.4 Competition of Domestic Reservoir Project Market
- 4.1.5 Favorable and Unfavorable Factors Influence the Construction of Reservoir Projects

4.1.6 Trend and Prospects of Reservoir Project Constructing Market

4.2 Analysis of Seawall Construction Market

4.2.1 Structure Model of Seawall Construction

4.2.2 Operational Environment of Seawall Construction Industry

- (1) Relevant Policy and Regulation, and Industry Plan
- (2) Industry Development Stage and Market Characteristics
- (3) Overall Technological Level and Characteristics

4.2.3 Overall Status of Domestic Seawall Construction Market

- (1) Investment of Seawall Construction
- (2) Seawall Projects under Construction or Planned to Construct

4.2.4 Competition of Domestic Seawall Construction Market

4.2.5 Favorable and Unfavorable Factors Influence the Seawall Construction

4.2.6 Development Trend of Seawall Construction Market

4.2.7 Prospects of Seawall Construction Market

4.3 Analysis of Water Diversion Project Market

4.3.1 Development Overview of Water Diversion Projects

- (1) Overview of Domestic Water Diversion Projects
- (2) Overview of International Water Diversion Projects

4.3.2 Relevant Policy, Regulations and Plan to Water Diversion Project

4.3.3 Overall Technology Level and Characteristics

4.3.4 Domestic Water Diversion Projects under Construction or Planned to Construct

4.3.5 Factors Influence Water Diversion Projects

4.3.6 Development Trend of Water Diversion Project Market

4.4 Analysis of Soil-Water Conservation Engineering Market

4.4.1 Development Status of Soil-Water Conservation Engineering

4.4.2 Relevant Policy, Regulations and Plan to Soil-Water Conservation Engineering

4.4.3 Overall Technology Level and Characteristics

4.4.4 Domestic Soil-Water Conservation Engineering under Construction or Planned to Construct

4.4.5 Factors Influence Soil-Water Conservation Engineering

4.4.6 Development Trend of Soil-Water Conservation Engineering Market

4.5 Analysis of Port Construction Market

4.5.1 Structure Model of Port Construction

4.5.2 Operational Environment of Port Construction Industry

- (1) Relevant Policy and Regulation, and Industry Plan
- (2) Industry Development Stage and Market Characteristics
- (3) Overall Technological Level and Characteristics

4.5.3 Overall Status of Domestic Port Construction Market

- (1) Investment of Port Construction
- (2) Scale of Domestic Port Construction
- (3) Port Projects under Construction or Planned to Construct

4.5.4 Competition of Domestic Port Construction Market

4.5.5 Favorable and Unfavorable Factors Influence the Port Construction

4.5.6 Development Trend of Port Construction Market

4.5.7 Prospects of Port Construction Market

4.6 Analysis of River Construction Market

4.6.1 Development Status of River Construction

4.6.2 Relevant Policy, Regulations and Plan to River Construction

4.6.3 Overall Technology Level and Characteristics

4.6.4 Domestic River Construction Condition

4.6.5 Favorable and Unfavorable Factors Influence River Construction

4.6.6 Development and Prospects of River Construction Market

Chapter 5: Regional Market of Water Conservancy and Port Engineering Construction Industry

5.1 Regional Structure Characteristics of the Industry

5.2 Regional Markets of the Industry

5.2.1 Northeast Area

- (1) Management and Protection of Water Resources
- (2) Plan and Design of Water Conservation and Port
- (3) Fundamental Construction and Management of Water Conservation and Port

- (4) Flood and Drought and the Prevention
- (5) Water and Soil Conservation
- (6) Rural Hydroelectric and Water Supply
- 5.2.2 North Coastal Area
 - (1) Management and Protection of Water Resources
 - (2) Plan and Design of Water Conservation and Port
 - (3) Fundamental Construction and Management of Water Conservation and Port
 - (4) Flood and Drought and the Prevention
 - (5) Water and Soil Conservation
 - (6) Rural Hydroelectric and Water Supply
- 5.2.3 East Coastal Area
 - (1) Management and Protection of Water Resources
 - (2) Plan and Design of Water Conservation and Port
 - (3) Fundamental Construction and Management of Water Conservation and Port
 - (4) Flood and Drought and the Prevention
 - (5) Water and Soil Conservation
 - (6) Rural Hydroelectric and Water Supply
- 5.2.4 South Coastal Area
 - (1) Management and Protection of Water Resources
 - (2) Plan and Design of Water Conservation and Port
 - (3) Fundamental Construction and Management of Water Conservation and Port
 - (4) Flood and Drought and the Prevention
 - (5) Water and Soil Conservation
 - (6) Rural Hydroelectric and Water Supply
- 5.2.5 Yellow River Midstream Area
 - (1) Management and Protection of Water Resources
 - (2) Plan and Design of Water Conservation and Port
 - (3) Fundamental Construction and Management of Water Conservation and Port
 - (4) Flood and Drought and the Prevention
 - (5) Water and Soil Conservation
 - (6) Rural Hydroelectric and Water Supply
- 5.2.6 Yangtze River Midstream Area
 - (1) Management and Protection of Water Resources
 - (2) Plan and Design of Water Conservation and Port
 - (3) Fundamental Construction and Management of Water Conservation and Port
 - (4) Flood and Drought and the Prevention
 - (5) Water and Soil Conservation
 - (6) Rural Hydroelectric and Water Supply
- 5.2.7 Southwest Area
 - (1) Management and Protection of Water Resources
 - (2) Plan and Design of Water Conservation and Port
 - (3) Fundamental Construction and Management of Water Conservation and Port
 - (4) Flood and Drought and the Prevention
 - (5) Water and Soil Conservation
 - (6) Rural Hydroelectric and Water Supply
- 5.2.8 Northwest Area
 - (1) Management and Protection of Water Resources
 - (2) Plan and Design of Water Conservation and Port
 - (3) Fundamental Construction and Management of Water Conservation and Port
 - (4) Flood and Drought and the Prevention
 - (5) Water and Soil Conservation
 - (6) Rural Hydroelectric and Water Supply

Chapter 6: Major Enterprises of Water Conservancy and Port Engineering Construction Industry

6.1 Overall Condition of Water Conservancy and Port Engineering Construction Enterprises

6.2 Major Enterprises of Water Conservancy and Port Engineering Construction Industry

6.2.1 Management Analysis of China Communications Construction Company Limited

- (1) Brief Analysis of Enterprise Development
- (2) Analysis of Major Economic Index

- (3) Analysis of Enterprise Profitability
 - (4) Analysis of Enterprise Operational Capability
 - (5) Analysis of Enterprise Debt-paying Ability
 - (6) Analysis of Enterprise Development Capability
 - (7) Analysis of Enterprise Organization Structure
 - (8) Enterprise' s Qualification and Certification
 - (9) Enterprise' s Engineering Distribution
 - (10) Analysis of Enterprise Management Advantages and Disadvantages
 - (11) Analysis of Enterprise Investment, Merger and Reconstruction
 - (12) Analysis of Enterprise Latest Development Trend
- 6.2.2 Management Analysis of Sinohydro Harbour Co., Ltd.
- (1) Brief Analysis of Enterprise Development
 - (2) Enterprise' s Business Range
 - (3) Analysis of Enterprise' s Management
 - (4) Enterprise' s Major Projects and Projects under Construction
 - (5) Analysis of Enterprise Management Advantages and Disadvantages
 - (6) Analysis of Enterprise' s Development Strategy
 - (7) Analysis of Enterprise Investment, Merger and Reconstruction
 - (8) Analysis of Enterprise Latest Development Trend
- 6.2.3 Management Analysis of China Lugang Group Co., Ltd.
- (1) Brief Analysis of Enterprise Development
 - (2) Enterprise' s Business Range
 - (3) Enterprise' s Major Projects and Projects under Construction
 - (4) Analysis of Enterprise Management Advantages and Disadvantages
 - (5) Analysis of Enterprise' s Development Strategy
 - (6) Analysis of Enterprise Latest Development Trend
- 6.2.4 Management Analysis of Shanghai Harbor Engineering Corporation
- (1) Brief Analysis of Enterprise Development
 - (2) Enterprise' s Business Range
 - (3) Analysis of Enterprise' s Management
 - (4) Enterprise' s Major Projects and Projects under Construction
 - (5) Analysis of Enterprise Management Advantages and Disadvantages
 - (6) Analysis of Enterprise' s Development Strategy
 - (7) Analysis of Enterprise Latest Development Trend
- 6.2.5 Management Analysis of China Gezhouba Group Corporation
- (1) Brief Analysis of Enterprise Development
 - (2) Enterprise' s Business Range
 - (3) Analysis of Major Economic Index
 - (4) Analysis of Enterprise Profitability
 - (5) Analysis of Enterprise Operational Capability
 - (6) Analysis of Enterprise Debt-paying Ability
 - (7) Analysis of Enterprise Development Capability
 - (8) Enterprise' s Major Projects and Projects under Construction
 - (9) Analysis of Enterprise Management Advantages and Disadvantages
 - (10) Analysis of Enterprise' s Development Strategy
 - (11) Analysis of Enterprise Investment, Merger and Reconstruction
 - (12) Analysis of Enterprise Latest Development Trend
