

China New Energy Vehicle Market Research and Investment Forecast Report

目 录

CONTENTS

Chapter 1: Development Overview of China New Energy Vehicle Industry

1.1 Concepts Related to New Energy Vehicle

- 1.1.1 Concept of New Energy Vehicle
- 1.1.2 Types of New Energy Vehicle
 - (1) Hybrid Motive Vehicle
 - (2) Battery Electric Vehicle
 - (3) Fuel Cell Electric Vehicle
 - (4) Gaseous Fuel Vehicle
 - (5) Biofuel Vehicle
 - (6) Hydrogen Vehicle
 - (7) Solar-powered Vehicle
- 1.1.3 Necessity for Developing New Energy Vehicle
 - (1) Oil Shortage
 - (2) Environmental Pollution
 - (3) Climate Change

1.2 Analysis of Economic Environment for New Energy Vehicle

- 1.2.1 Analysis of International Macro-economic Environment
 - (1) Analysis of US Economic Environment
 - (2) Analysis of Japan Economic Environment
 - (3) Analysis of EU Zone Economic Environment
- 1.2.2 Analysis of Domestic Economic Environment
 - (1) GDP Growth
 - (2) Analysis of Growth of Industry-based Economy
 - (3) Analysis of Growth of Agriculture-based Economy
 - (4) Household Consumption
 - (5) Fixed Asset Investment
 - (6) Total Retail Sales of Consumer Goods
 - (7) Total Import & Export and Growth
 - (8) Supply of Money and Loans
 - (9) PMI
- 1.2.3 Analysis of Industry Macro-economic Environment

1.3 Analysis of Policy Environment for New Energy Vehicle

- 1.3.1 Major Policies Related to New Energy Vehicle Industry
- 1.3.2 National Standards for New Energy Vehicle Industry
- 1.3.3 Development Planning of New Energy Vehicle Industry

1.4 Analysis of Technology Environment for New Energy Vehicle Industry

- 1.4.1 Development of Technology for New Energy Vehicle
- 1.4.2 Analysis of Technical Layout of “Three Vertical and Three Horizontal”
- 1.4.3 Analysis of Key Technology for New Energy Vehicle
- 1.4.4 Analysis of Technology Route Selection for New Energy Vehicle
 - (1) Technology Route for Vehicle Power Battery Technology
 - (2) Technology Route for Motor Control System Technology
 - (3) Technology Route for Hybrid Electric Vehicle Technology
 - (4) Technology Route for Battery Electric Vehicle Technology
 - (5) Technology Route for Fuel Cell Electric Vehicle Technology
 - (6) Technology Route for Other New Energy Vehicles

Chapter 2: Analysis of China New Energy Vehicle Industrial Chain

2.1 Profile of New Energy Vehicle Industrial Chain

2.2 Analysis of New Energy Vehicle Battery System

- 2.2.1 Analysis of Major Performance of Powered Battery
- 2.2.2 Analysis of Cathode Material of Lithium Battery
- 2.2.3 Analysis of Lithium Battery Diaphragm Market
- 2.2.4 Analysis of Lithium Battery Electrolyte Market

2.3 Analysis of New Energy Vehicle Motor System

- 2.3.1 Performance Comparison among Various Motors
- 2.3.2 Analysis of DC Motor Market
- 2.3.3 Analysis of PMSM Market
- 2.3.4 Analysis of Induction Motor Market
- 2.3.5 Analysis of SRM Market

2.4 Analysis of EV Charging Station Market

- 2.4.1 Analysis of Cost Structure of Charging Station
- 2.4.2 Construction of EV Charging Station
- 2.4.3 Analysis of Major Charging Equipment Enterprises
- 2.4.4 Development Trend for EV Charging Station
- 2.4.5 Size Forecast for EV Charging Station

Chapter 3: Analysis of Development of International New Energy Vehicle Industry

3.1 Governmental Supporting Measures for International New Energy Vehicle Industry

- 3.1.1 Japan's Measures for Development of New Energy Vehicle Industry
 - (1) Development Overview of Japan New Energy Vehicle Industry
 - (2) Analysis of Measures for Japan Promoting Application of New Energy
 - (3) Japan's Measures for Boosting Technology R&D and Promotion
 - (4) Japan's Supporting Measures for Other New Energy Vehicles
- 3.1.2 US Measures for Development of New Energy Vehicle Industry
 - (1) Development Overview of US New Energy Vehicle Industry
 - (2) US Laws and Regulations to Propel New Energy Vehicle
 - (3) US Measures for Boosting Technology R&D and Promotion
 - (4) US Supporting Measures for Other New Energy Vehicles
- 3.1.3 EU Measures for Development of New Energy Vehicle Industry
 - (1) Development Overview of EU New Energy Vehicle Industry
 - (2) EU Led New Energy Vehicle Policies in Some Countries
 - (3) EU Measures for Boosting Technology R&D and Promotion
 - (4) Germany's Encouraging Policies for Boosting New Energy Vehicle
 - (5) France's Encouraging Policies for Boosting New Energy Vehicle
 - (6) UK Encouraging Policies for Boosting New Energy Vehicle
- 3.1.4 Measures for Development of New Energy Vehicle Industry in Other Countries
 - (1) South Korea's Encouraging Policies for Boosting New Energy Vehicle
 - (2) Thailand's Encouraging Policies for Boosting New Energy Vehicle
 - (3) Canada's Encouraging Policies for Boosting New Energy Vehicle
 - (4) Singapore's Encouraging Policies for Boosting New Energy Vehicle
 - (5) Ireland's Encouraging Policies for Boosting New Energy Vehicle
- 3.1.5 Lessons and Enlightenment Learned from Development Experience of Foreign New Energy Vehicle
 - (1) Conclusion of Experience in Japan, US and EU
 - (2) Analysis of Comparison among Policies in Foreign New Energy Vehicle Industries
 - (3) Experience and Enlightenment of Foreign Development Experience on China

3.2 Development Overview of International New Energy Vehicle Industry

- 3.2.1 Analysis of Solutions to
- 3.2.2 Mainstream Technology Route for International New Energy Vehicle
 - (1) HEV
 - (2) EV
 - (3) FCEV
 - (4) Review on 3 Mainstream Technology Routes
- 3.2.3 Analysis of Development Dynamics for International New Energy Vehicle
 - (1) Analysis of Development Dynamics for HEV
 - (2) Analysis of Development Dynamics for EV
 - (3) Analysis of Development Dynamics for FCEV

3.3 Comparison between China and US New Energy Vehicle Industry

- 3.3.1 Analysis of Comparison between China and US Factors of Production
- 3.3.2 Analysis of Comparison between China and US Demand Conditions

- 3.3.3 Analysis of Comparison among Industries Related to China and US New Energy Vehicle Industry
- 3.3.4 China and US Corporate Strategic Structure and Horizontal Competition
- 3.3.5 Analysis of China and US Government and Opportunity Comparison
- 3.3.6 Analysis of Opportunities for China Improving Industry's Competitiveness

Chapter 4: Analysis of Development of China New Energy Vehicle Industry

4.1 Development Overview of China New Energy Vehicle Industry

- 4.1.1 Development Background of China New Energy Vehicle Industry
- 4.1.2 Significance of Developing New Energy Vehicle Industry
- 4.1.3 Analysis of Advantages for Developing New Energy Vehicle Industry
- 4.1.4 Analysis of Major Problems in New Energy Vehicle
- 4.1.5 Major Development Directions for New Energy Vehicle Industry

4.2 Analysis of Operation Trend for China New Energy Vehicle

- 4.2.1 Analysis of Cost Structure of New Energy Vehicle Industry
- 4.2.2 Analysis of Production and Marketing of New Energy Vehicle Industry
- 4.2.3 Analysis of Operation Trend for New Energy Vehicle Industry
- 4.2.4 Analysis of Application of New Energy Vehicle Market
- 4.2.5 Analysis of Gap between China and Foreign New Energy Vehicle Industry

4.3 Analysis of Operation of New Energy Vehicle Demonstration Project

- 4.3.1 Operation of "Ten Cities Thousand Vehicles" Program
 - (1) Analysis of Operation of Demonstration Project in Beijing
 - (2) Analysis of Operation of Demonstration Project in Shanghai
 - (3) Analysis of Operation of Demonstration Project in Chongqing
 - (4) Analysis of Operation of Demonstration Project in Changchun
 - (5) Analysis of Operation of Demonstration Project in Dalian
 - (6) Analysis of Operation of Demonstration Project in Hangzhou
 - (7) Analysis of Operation of Demonstration Project in Jinan
 - (8) Analysis of Operation of Demonstration Project in Wuhan
 - (9) Analysis of Operation of Demonstration Project in Shenzhen
 - (10) Analysis of Operation of Demonstration Project in Hefei
 - (11) Analysis of Operation of Demonstration Project in Changsha, Zhuzhou and Xiangtan
 - (12) Analysis of Operation of Demonstration Project in Kunming
 - (13) Analysis of Operation of Demonstration Project in Nanchang
- 4.3.2 Analysis of Demonstration Project for Spreading LPGV
 - (1) Demonstration and Spread of LPGV in Sichuan
 - (2) Demonstration and Spread of LPGV in Chongqing
 - (3) Demonstration and Spread of LPGV in Xi'an
 - (4) Demonstration and Spread of LPGV in Harbin
 - (5) Demonstration and Spread of LPGV in Urumqi

4.4 Analysis of Development China New Energy Bus

- 4.4.1 Analysis of Development Overview of New Energy Bus
 - (1) Analysis of Major Types of New Energy Bus
 - (2) Major Products for China New Energy Bus
 - (3) Analysis of Development Technology Routes to New Energy Bus
- 4.4.2 Analysis of Market Application of New Energy Bus
 - (1) Development and Application of Foreign New Energy Bus
 - (2) Development and Application of Domestic New Energy Bus
 - (3) Analysis of Features of China New Energy Bus Market
 - (4) Plan for Possessing Electric Bus in Cities around China
- 4.4.3 Analysis of Development of New Energy Bus Manufacturing Enterprises
 - (1) Research on New Energy Bus Manufacturing Enterprises
 - (2) Analysis of Leading New Energy Bus Manufacturing Enterprises in the Future
 - (3) Case Study of Beiqi Foton New Energy Bus
- 4.4.4 Problems in Developing New Energy Bus
 - (1) Reliability for New Energy Bus
 - (2) Cost for New Energy Bus
 - (3) Developing Key Technology for New Energy Bus
 - (4) Limitation of Application and Development Model for New Energy Bus
 - (5) Bottlenecks of Spreading and Using New Energy Vehicle
- 4.4.5 Prospects Forecast for Developing New Energy Bus

4.5 Development of New Energy Vehicle Industry Unions

- 4.5.1 Analysis of Development of Beijing New Energy Vehicle Industry Union
- 4.5.2 Analysis of Development of Jilin New Energy Vehicle Industry Union
- 4.5.3 Analysis of Development of Chongqing New Energy Vehicle Industry Union
- 4.5.4 Analysis of Development of Industry, Study and Research of Guangdong Vehicle Innovation Union

Union

4.5.5 Analysis of Development of Kunming Industry, Study and Research of Guangdong Vehicle Innovation Union

4.5.6 Analysis of Development of Nanchang Technology and Innovation Union of Energy Saving and New Energy Vehicle Industry

Chapter 5: Analysis of Business Model for China New Energy Vehicle

5.1 Analysis of Market Research on New Energy Vehicle

- 5.1.1 Research Degree of New Energy Vehicle
- 5.1.2 Research of Concentration on Policies of New Energy Vehicle
- 5.1.3 Anticipation Survey on New Energy Vehicle Market
- 5.1.4 Research on Preference to Buy Different Types of New Energy Vehicle
- 5.1.5 Research on Preference to Buy Different Brands of New Energy Vehicle
- 5.1.6 Research on Preference to Buy Different Prices of New Energy Vehicle
- 5.1.7 Research on Ways to Buy New Energy Vehicle
- 5.1.8 Research on Subsidy Policy's Impact on New Energy Vehicle
- 5.1.9 Analysis of Reasons to Deny Buying New Energy Vehicle

5.2 Analysis of Business Models for New Energy Vehicle

- 5.2.1 Analysis of Business Model for New Energy Vehicle
 - (1) Bundle Sales of Vehicle and Battery
 - (2) Analysis of Vehicle Leasing Model
 - (3) Bare Vehicle Sales and Battery Leasing
- 5.2.2 Analysis of Marketing Model for New Energy Vehicle
 - (1) Analysis of Group Purchase Model for New Energy Vehicle
 - (2) Analysis of "Buy 1 Get N" for New Energy Vehicle
 - (3) Analysis of Energy Saving for New Energy Vehicle
- 5.2.3 Case Study of Business Models for New Energy Vehicle
 - (1) Analysis of BYD Business Model
 - (2) Analysis of Chery Auto Business Model
 - (3) Analysis of Dongfeng Motor Business Model

Chapter 6: Analysis of Market Segments of China New Energy Vehicle

6.1 Analysis of China Hybrid Motive Vehicle Market

- 6.1.1 Analysis of Global Hybrid Motive Vehicle Market
- 6.1.2 Analysis of China Hybrid Motive Vehicle Market
 - (1) Analysis of Production and Marketing Volume of
 - (2) Analysis of Market Features of Hybrid Motive Vehicle
 - (3) Analysis of Market Structure of Hybrid Motive Vehicle
 - (4) Analysis of Application Structure of Hybrid Motive Vehicle
 - (5) Analysis of Market Competition of Hybrid Motive Vehicle
 - (6) Analysis of Subsidy of Hybrid Motive Vehicle
- 6.1.3 Prospects Forecast for China Hybrid Motive Vehicle Market
 - (1) Latest Market Trend for Hybrid Motive Vehicle
 - (2) Market Size Forecast for Hybrid Motive Vehicle
 - (3) Market Structure Forecast for Hybrid Motive Vehicle
 - (4) Application Structure Forecast for Hybrid Motive Vehicle

6.2 Analysis of China Battery Electric Vehicle Market

- 6.2.1 Analysis of Development Bottlenecks for Battery Electric Vehicle
 - (1) Technical Standard Shortage of Battery Electric Vehicle
 - (2) Imperfect Supporting Policies for Battery Electric Vehicle
 - (3) Imperfect Supporting Facility for Battery Electric Vehicle
- 6.2.2 Analysis of Operation of Battery Electric Vehicle
 - (1) R&D and Production of Battery Electric Vehicle
 - (2) Goods in the Market and Operation of Battery Electric Vehicle
 - (3) Subsidy of Battery Electric Vehicle
- 6.2.3 Latest Market Direction for Battery Electric Vehicle

6.2.4 Prospects Forecast for Developing Battery Electric Vehicle

6.3 Analysis of China Fuel Cell Electric Vehicle Market

6.3.1 R&D Production of Fuel Cell Electric Vehicle

6.3.2 Goods in the Market and Operation of Fuel Cell Electric Vehicle

6.3.3 Latest Market Direction for Fuel Cell Electric Vehicle

6.3.4 Prospects Forecast for Developing Fuel Cell Electric Vehicle

6.4 Analysis of Gaseous Fuel Vehicle Market

6.4.1 R&D Production of Gaseous Fuel Vehicle

6.4.2 Goods in the Market and Operation of Gaseous Fuel Vehicle

6.4.3 Latest Market Direction for Gaseous Fuel Vehicle

6.4.4 Prospects Forecast for Developing Gaseous Fuel Vehicle

6.5 Analysis of Biofuel Vehicle Market

6.5.1 R&D Production of Biofuel Vehicle

6.5.2 Goods in the Market and Operation of Biofuel Vehicle

6.5.3 Latest Market Direction for Biofuel Vehicle

6.5.4 Prospects Forecast for Developing Biofuel Vehicle

6.6 Analysis of Hydrogen Vehicle Market

6.6.1 R&D Production of Hydrogen Vehicle

6.6.2 Goods in the Market and Operation of Hydrogen Vehicle

6.6.3 Latest Market Direction for Hydrogen Vehicle

6.6.4 Prospects Forecast for Developing Hydrogen Vehicle

6.7 Analysis of Solar-powered Vehicle Market

6.7.1 R&D Production of Solar-powered Vehicle

6.7.2 Goods in the Market and Operation of Solar-powered Vehicle

6.7.3 Latest Market Direction for Solar-powered Vehicle

6.7.4 Prospects Forecast for Developing Solar-powered Vehicle

Chapter 7: Analysis of Key Regions in China New Energy Vehicle

7.1 Regional Distribution Features of New Energy Vehicle

7.2 Analysis of Beijing New Energy Vehicle Market

7.2.1 Analysis of Development Policy for Beijing New Energy Vehicle

7.2.2 Analysis of Development Planning for Beijing New Energy Vehicle

7.2.3 Analysis of Development Status of Beijing New Energy Vehicle

7.2.4 Impact of Olympics on Beijing Automobile

7.2.5 Analysis of Demand Forecast for Beijing New Energy Vehicle

7.2.6 Prospect Forecast for Developing Beijing New Energy Vehicle

7.3 Analysis of Shanghai New Energy Vehicle Market

7.3.1 Analysis of Development Policy for Shanghai New Energy Vehicle

7.3.2 Analysis of Development Planning for Shanghai New Energy Vehicle

7.3.3 Analysis of Development Status of Shanghai New Energy Vehicle

7.3.4 Impact of World Expo on Shanghai Automobile

7.3.5 Analysis of Demand Forecast for Shanghai New Energy Vehicle

7.3.6 Prospect Forecast for Developing Shanghai New Energy Vehicle

7.4 Analysis of Guangzhou New Energy Vehicle Market

7.4.1 Analysis of Development Policy for Guangzhou New Energy Vehicle

7.4.2 Analysis of Development Planning for Guangzhou New Energy Vehicle

7.4.3 Analysis of Development Status of Guangzhou New Energy Vehicle

7.4.4 Impact of the Asian Games on Guangzhou Automobile

7.4.5 Analysis of Demand Forecast for Guangzhou New Energy Vehicle

7.4.6 Prospect Forecast for Developing Guangzhou New Energy Vehicle

7.5 Analysis of Shenzhen New Energy Vehicle Market

7.5.1 Analysis of Development Policy for Shenzhen New Energy Vehicle

7.5.2 Analysis of Development Planning for Shenzhen New Energy Vehicle

7.5.3 Analysis of Development Status of Shenzhen New Energy Vehicle

7.5.4 Impact of Universiade on Shenzhen Automobile

7.5.5 Analysis of Demand Forecast for Shenzhen New Energy Vehicle

7.5.6 Prospect Forecast for Developing Shenzhen New Energy Vehicle

7.6 Analysis of Chongqing New Energy Vehicle Market

7.6.1 Analysis of Development Status of Chongqing New Energy Vehicle

7.6.2 Analysis of Development Policy for Chongqing New Energy Vehicle

- 7.6.3 Analysis of Development Conditions for Chongqing New Energy Vehicle
- 7.6.4 Latest Development Trend for Chongqing New Energy Vehicle
- 7.6.5 Prospect Forecast for Developing Chongqing New Energy Vehicle
 - (1) Analysis of Henan New Energy Vehicle Market
- 7.6.6 Analysis of Development Status of Henan New Energy Vehicle
- 7.6.7 Analysis of Development Policy for Henan New Energy Vehicle
- 7.6.8 Analysis of Development Conditions for Henan New Energy Vehicle
- 7.6.9 Latest Development Trend for Henan New Energy Vehicle
- 7.6.10 Prospect Forecast for Developing Henan New Energy Vehicle

7.7 Analysis of Hunan New Energy Vehicle Market

- 7.7.1 Analysis of Development Status of Hunan New Energy Vehicle
- 7.7.2 Analysis of Development Policy for Hunan New Energy Vehicle
- 7.7.3 Analysis of Development Conditions for Hunan New Energy Vehicle
- 7.7.4 Latest Development Trend for Hunan New Energy Vehicle
- 7.7.5 Prospect Forecast for Developing Hunan New Energy Vehicle

7.8 Analysis of Hubei New Energy Vehicle Market

- 7.8.1 Analysis of Development Status of Hubei New Energy Vehicle
- 7.8.2 Analysis of Development Policy for Hubei New Energy Vehicle
- 7.8.3 Analysis of Development Conditions for Hubei New Energy Vehicle
- 7.8.4 Latest Development Trend for Hubei New Energy Vehicle
- 7.8.5 Prospect Forecast for Developing Hubei New Energy Vehicle

7.9 Analysis of Anhui New Energy Vehicle Market

- 7.9.1 Analysis of Development Status of Anhui New Energy Vehicle
- 7.9.2 Analysis of Development Policy for Anhui New Energy Vehicle
- 7.9.3 SWOT Analysis of Anhui New Energy Vehicle
- 7.9.4 Latest Development Trend for Anhui New Energy Vehicle
- 7.9.5 Prospect Forecast for Developing Anhui New Energy Vehicle

7.10 Analysis of New Energy Vehicle Market in Other Regions

- 7.10.1 Analysis of Zhejiang New Energy Vehicle Market
- 7.10.2 Analysis of Jiangsu New Energy Vehicle Market
- 7.10.3 Analysis of Jilin New Energy Vehicle Market
- 7.10.4 Analysis of Shandong New Energy Vehicle Market
- 7.10.5 Analysis of Sichuan New Energy Vehicle Market
- 7.10.6 Analysis of Jiangxi New Energy Vehicle Market
- 7.10.7 Analysis of Fujian New Energy Vehicle Market

Chapter 8: Analysis of Major Enterprises in China New Energy Vehicle

8.1 Analysis of SAIC Motor Group

- 8.1.1 Analysis of Development Profile
- 8.1.2 Analysis of Types of New Energy Vehicle
- 8.1.3 Technology Route to New Energy Vehicle
- 8.1.4 Analysis of Production and Sales Volume of New Energy Vehicle
- 8.1.5 Analysis of Revenue Capability
- 8.1.6 Analysis of Debt-paying Ability
- 8.1.7 Analysis of Operation Capability
- 8.1.8 Analysis of Profitability
- 8.1.9 Analysis of Development Capability
- 8.1.10 Analysis of Operational Advantages and Disadvantages
- 8.1.11 Development Planning for New Energy Vehicle
- 8.1.12 Analysis of Latest Development Trend for Enterprise
- 8.1.13 Analysis of Investment, M&A and Restructuring

8.2 Analysis of Zhengzhou Yutong Bus Co., Ltd.

- 8.2.1 Analysis of Development Profile
- 8.2.2 Analysis of Types of New Energy Vehicle
- 8.2.3 Technology Route to New Energy Vehicle
- 8.2.4 Analysis of Production and Sales Volume of New Energy Vehicle
- 8.2.5 Analysis of Revenue Capability
- 8.2.6 Analysis of Debt-paying Ability
- 8.2.7 Analysis of Operation Capability
- 8.2.8 Analysis of Profitability

- 8.2.9 Analysis of Development Capability
- 8.2.10 Analysis of Operational Advantages and Disadvantages
- 8.2.11 Development Planning for New Energy Vehicle
- 8.2.12 Analysis of Latest Development Trend for Enterprise
- 8.2.13 Analysis of Investment, M&A and Restructuring

8.3 Analysis of Beiqi Foton Motor Co., Ltd.

- 8.3.1 Analysis of Development Profile
- 8.3.2 Analysis of Types of New Energy Vehicle
- 8.3.3 Technology Route to New Energy Vehicle
- 8.3.4 Analysis of Production and Sales Volume of New Energy Vehicle
