China Electric Vehicle Industry Report (2016-2021), Market Demand Forecast and Investment Strategic Planning

目 录

CONTENTS

Chapter 1: Overview of development of electric vehicle industry
1.1 definition and classification of electric vehicle industry
1.1.1 concept and definition of the industry
1.1.2 the industry and social development
1.1.3 the industry and traffic safety
1.2 electric vehicle product and structure
1.2.1 category of main products
1.2.2 structure of product market
1.3 analysis of development environment of electric vehicle industry
1.3.1 analysis of policy environment of electric vehicle industry
(1) interpretation of policy planning of the industry
(2) interpretation of laws and regulations of the industry
(3) impact of policy environment on the industry
1.3.2 analysis of technical environment of electric vehicle industry
(1) development of core technology of electric vehicle industry
(2) analysis of technical patents of electric vehicle industry
(3) development trends of technology of electric vehicle industry
1.3.3 analysis of economic environment of electric vehicle industry
(1) analysis of domestic GDP growth
(2) analysis of domestic industrial development
(3) analysis of residents' income
1.3.4 analysis of related industries of electric vehicle industry
(1) analysis of development of automobile industry
(2) analysis of development of motorcycle industry
(3) analysis of development of bicycle industry
Chapter 2: Analysis of industry chain of electric vehicle industry
2.1 analysis of raw materials market of electric vehicle
2.1.1 analysis of steel market
2.1.2 analysis of rubber market
2.1.3 analysis of copper market
2.1.4 analysis of plastics market
2.1.5 analysis of raw materials market of battery
2.2 analysis of parts market of electric vehicle
2.2.1 analysis of battery market
2.2.2 analysis of motor market
2.2.3 analysis of software market
2.2.4 other electronic appliances market
2.3 analysis of downstream market of industry chain
2.3.1 analysis of supporting infrastructure market
(1) power supply market
(2) charging station construction market
(3) power solutions market
2.3.2 analysis of after-sales service market
2.3.3 analysis of banking and insurance market
Chapter 3: Analysis of development of electric vehicle industry
3.1 analysis of development of electric bicycle market
3.1.1 analysis of the global electric bicycle market
(1) life cycle of electric bicycle market
(2) policy environment of electric bicycle market

(3) scale of production of electric bicycle market
(4) scale of sales of electric bicycle market
(5) holdings of electric bicycle market
(6) proportion of electric bicycle in bicycles
(7) development trends of electric bicycle market
(8) structure of the global electric bicycle market
3.1.2 analysis of China's electric bicycle market
(1) development stage of electric bicycle market
(2) status quo of development of electric bicycle market
(3) problems of electric bicycle market
(4) scale of output of electric bicycle market
(5) scale of sales of electric bicycle market
(6) holdings of electric bicycle market
(7) proportion of electric bicycle in bicycles
3.1.3 comparative analysis of domestic and foreign electric bicycle market
(1) comparison of standard of domestic and foreign electric bicycle
(2) comparison of yield of domestic and foreign electric bicycle
(3) comparison of sales of domestic and foreign electric bicycle
(4) comparison of ownership of domestic and foreign electric bicycle
(5) proportion of China's electric bicycle in the globe
3.2 analysis of electric automobile market
3.2.1 analysis of the global electric automobile market
(1) scale of holdings of electric automobile
(2) scale of production of electric automobile
(3) scale of sales of electric automobile
(4) structure of electric automobile market
(5) survey of electric automobile market
(6) forecast of electric automobile market
(7) American electric automobile market
(8) German electric automobile market
(9) Japanese electric automobile market
3.2.2 analysis of China's electric automobile market
(1) analysis of layout of electric automobile market
(2) scale of production of electric automobile market
(3) scale of sales of electric automobile market
(4) holdings of electric automobile market
(5) product structure of electric automobile market
(6) proportion of electric automobile in the global
(7) comparison of domestic and foreign electric automobile market
3.2.3 analysis of subdivided market of electric vehicle
(1) development of hybrid power vehicle
(2) development of pure electric vehicle
(3) development of fuel cell vehicle
3.2.4 promotion and application of electric vehicle
(1) analysis of business model of promotion of electric vehicle
(2) comparison of business model of promotion of electric vehicle
(3) promotion strategy for electric vehicle
3.3 analysis of other electric vehicle market
3.3.1 analysis of electric motorcycle market
(1) status quo of development of electric motorcycle
(2) analysis of yield of electric motorcycle
(3) analysis of sales of electric motorcycle
(4) regional market of electric motorcycle
(5) development trends of electric motorcycle
3.3.2 analysis of electric tricycle market
(1) status quo of development of electric tricycle
(2) analysis of yield of electric tricycle
(3) analysis of sales of electric tricycle
(4) regional market of electric tricycle

(5) development trends of electric tricycle
3.3.3 analysis of special electric vehicle market
(1) electric forklift market
(2) electric sightseeing vehicle market
(3) electric sanitation vehicle market
(4) electric patrol vehicle market
(5) electric golf vehicle market
Chapter 4: Analysis of competition of electric vehicle industry
4.1 analysis of competition of the international market
4.1.1 regional competitive landscape of electric vehicle industry
(1) regional competitive landscape of electric vehicle
(2) regional competitive landscape of electric bicycle
(3) regional competitive landscape of other electric vehicles
4.1.2 competitive landscape of enterprises of electric vehicle industry
(1) competitive landscape of electric vehicle enterprises
(2) competitive landscape of electric bicycle enterprises
(3) competitive landscape of other electric vehicle enterprises
4.1.3 competitive landscape of products of electric vehicle industry
4.2 analysis of competition of China's electric vehicle industry
4.2.1 regional competitive landscape of electric vehicle industry
4.2.2 competitive landscape of enterprises of electric vehicle industry
4.2.3 competitive landscape of products of electric vehicle industry
4.2.4 market concentration of electric vehicle industry
4.3 analysis of competitive structure of electric vehicle industry
4.3.1 analysis of bargaining power of suppliers
4.3.2 analysis of bargaining power of purchasers
4.3.3 analysis of threat of substitutes of the industry
4.3.4 analysis of threat of new entrants
4.3.5 analysis of status quo of competition of the industry
Chapter 5: Analysis of import and export markets of electric vehicle industry
5.1 analysis of import of electric vehicle industry
5.1.1 analysis of import of electric vehicle industry
5.1.2 structure of import electric vehicle products
5.1.3 analysis of import region of electric vehicle
5.2 analysis of export of electric vehicle industry
5.2.1 analysis of export of electric bicycle
(1) overall situation of export of the industry
(2) distribution of export region of the industry
5.2.2 analysis of export of electric vehicle industry
(1) overall situation of export of the industry
(2) structure of export product of the industry
5.2.3 analysis of export region of electric vehicle
5.3 forecast of import and export of electric vehicle industry and advice
5.3.1 forecast of export of electric vehicle industry and advice
5.3.2 forecast of import of electric vehicle industry and advice
Chapter 6: Analysis of marketing of China's electric bicycle industry
6.1 analysis of electric bicycle marketing model
6.1.1 analysis of electric bicycle marketing model
(1) supermarket
(2) store shop
(3) large shopping mall
(4) multi-product shop
(5) franchised store
6.1.2 analysis of franchised store marketing model
6.1.3 analysis of feasibility of supermarket channel
6.2 overview of key marketing of electric bicycle market
6.2.1 brand marketing
6.2.2 terminal marketing
6.2.3 sports marketing

6.2.4 differentiated marketing
6.3 marketing strategy of electric bicycle market
6.3.1 marketing strategy of electric bicycle market
6.3.2 brand marketing strategy of electric bicycle
6.3.3 channel marketing strategy of electric bicycle
(1) strategy of maintenance channel
(2) strategy of channel development
(3) special channel strategy
6.3.4 marketing proposal of electric bicycle industry
(1) how to protect own profits
(2) how to occupy the multi-brand market
(3) how to achieve long-term profit
Chapter 7: Analysis of key regional markets of electric vehicle industry
7.1 analysis of development of electric vehicle industry in Zhejiang
7.1.1 development of electric vehicle industry in Zhejiang
(1) overview of the market
(2) analysis of residents' structure
(3) analysis of residents' income
(4) analysis of operation of the industry
(5) development planning of the industry
7.1.2 overview of electric vehicle market in major cities of Zhejiang
(1) analysis of development of electric vehicle market in Hangzhou
(2) analysis of development of electric vehicle market in Ningbo
(3) analysis of development of electric vehicle market in Taizhou
(4) analysis of development of electric vehicle market in Wenzhou
(5) analysis of development of electric vehicle market in Jinhua
7.2 analysis of development of electric vehicle industry in Jiangsu
7.2.1 development of electric vehicle industry in Jiangsu
(1) overview of the market
(2) analysis of residents' structure
(3) analysis of residents' income
(4) analysis of operation of the industry
(5) development planning of the industry
7.2.2 overview of electric vehicle market in major cities of Jiangsu
(1) analysis of development of electric vehicle market in Nanjing
(2) analysis of development of electric vehicle market in Wuxi
(3) analysis of development of electric vehicle market in Yancheng
(4) analysis of development of electric vehicle market in Suzhou
(5) analysis of development of electric vehicle market in Changzhou
7.3 analysis of development of electric vehicle industry in Tianjin
7.3.1 development of electric vehicle industry in Tianjin
(1) overview of the market
(2) analysis of residents' structure
(3) analysis of residents' income
(4) analysis of operation of the industry
(5) development planning of the industry
7.3.2 forecast of development trends of electric vehicle industry in Tianjin
7.4 analysis of development of electric vehicle industry in Shandong
7.4.1 development of electric vehicle industry in Shandong
(1) overview of the market
(2) analysis of residents' structure
(3) analysis of residents' income
(4) analysis of operation of the industry
(5) development planning of the industry
7.4.2 overview of electric vehicle market in major cities of Shandong
(1) analysis of development of electric vehicle market in Jinan
(2) analysis of development of electric vehicle market in Linyi
(3) analysis of development of electric vehicle market in Weifang
(4) analysis of development of electric vehicle market in Qingdao

(5) analysis of development of electric vehicle market in Heze
7.5 analysis of development of electric vehicle industry in Guangdong
7.5.1 development of electric vehicle industry in Guangdong
(1) overview of the market
(2) analysis of residents' structure
(3) analysis of residents' income
(4) analysis of operation of the industry
(5) development planning of the industry
7.5.2 overview of electric vehicle market in major cities of Guangdong
(1) analysis of development of electric vehicle market in Guangzhou
(2) analysis of development of electric vehicle market in Shenzhen
(3) analysis of development of electric vehicle market in Dongguan
(4) analysis of development of electric vehicle market in Foshan
(5) analysis of development of electric vehicle market in Zhongshan
7.6 analysis of development of electric vehicle industry in Henan
7.6.1 development of electric vehicle industry in Henan
(1) overview of the market
(2) analysis of residents' structure
(3) analysis of residents' income
(4) analysis of operation of the industry
(5) development planning of the industry
7.6.2 overview of electric vehicle market in major cities of Henan
(1) analysis of development of electric vehicle market in Zhengzhou
(2) analysis of development of electric vehicle market in Xinxiang
(3) analysis of development of electric vehicle market in Xuchang
(4) analysis of development of electric vehicle market in Nanyang
(5) analysis of development of electric vehicle market in Anyang
Chapter 8: Analysis of production and operation of major enterprises of China's electric vehicle industry
8.1 analysis of operation of multinational electric bicycle enterprises
8.1.1 ZAP
(1) brief introduction of development
(2) status quo of operation
(3) investment company in China
(4) latest development trend in China
(5) development of electric vehicle business
8.1.2 Raleigh
(1) brief introduction of development
(2) status quo of operation
(3) investment company in China
(4) development of electric vehicle business
8.1.3 Yamaha
(1) brief introduction of development
(2) investment company in China
(3) latest development trend in China
(4) development of electric vehicle business
8.1.4 Giant
(1) brief introduction of development
(2) status quo of operation
(3) investment company in China
(4) latest development trend in China
(5) development of electric vehicle business
8.1.5 Honda Corporation
(1) brief introduction of development
(2) status quo of operation
(3) investment company in China
(4) latest development trend in China
(5) development of electric vehicle business
8.2 analysis of operation of domestic key electric vehicle enterprises

8.2.1 Shanghai General Motors Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's operation
(3) structure and trends of the company's electric vehicle products
(4) R&D level of the company's electric vehicle technology
(5) analysis of advantages and disadvantages of the company's electric vehicle
(6) analysis of the company's latest development trend
(7) development strategy and planning of the company's electric vehicle
8.2.2 China First Automobile Group Corporation
(1) brief introduction of the company's development
(2) analysis of the company's operation
(3) analysis of the company's organizational structure
(4) structure and trends of the company's electric vehicle products
(5) R&D level of the company's electric vehicle technology
(6) sales and application of the company's electric vehicle
(7) analysis of advantages and disadvantages of the company to develop electric vehicle
(8) analysis of the company's latest development trend
8.2.3 Shanghai Volkswagen Automotive Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's operation
(3) structure and trends of the company's electric vehicle products
(4) R&D level of the company's electric vehicle technology
(5) sales and application of the company's electric vehicle
(6) analysis of advantages and disadvantages of the company to develop electric vehicle
(7) analysis of the company's latest development trend
8.2.4 BYD Company Limited
(1) brief introduction of the company's development
(2) analysis of the company's operation
(3) structure and trends of the company's electric vehicle products
(4) R&D level of the company's electric vehicle technology
(5) sales and application of the company's electric vehicle
(6) analysis of advantages and disadvantages of the company to develop electric vehicle
(7) analysis of the company's latest development trend
8.2.5 Chery Automobile Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's operation
(3) structure and trends of the company's electric vehicle products
(4) R&D level of the company's electric vehicle technology
(5) sales and application of the company's electric vehicle
(6) analysis of advantages and disadvantages of the company to develop electric vehicle
(7) analysis of the company's latest development trend
8.3 analysis of operation of domestic key electric bicycle enterprises
8.3.1 Jiangsu Sunra Electric Vehicle Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's capabilities of production and marketing
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure and new product developments
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation
(10) analysis of the company's latest development trend
8.3.2 Tianjin Aima Technology Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's product structure and new product developments
(3) analysis of the company's sales channels and network
(4) analysis of advantages and disadvantages of the company's operation
(5) analysis of the company's latest development trend

8.3.3 Jiangsu Yadea Technology Development Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's profit-creating capability
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure and new product developments
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation
(10) analysis of the company's latest development trend
8.3.4 Zhejiang Luyuan Electric Vehicle Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's capabilities of production and marketing
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure and new product developments
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation
(10) analysis of the company's latest development trend
8.3.5 Shandong INCALCU Group Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's capabilities of production and marketing
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's organizational structure
(8) analysis of the company's product structure and new product developments
(9) analysis of the company's sales channels and network
(10) analysis of advantages and disadvantages of the company's operation
(11) analysis of the company's latest development trend
there are another 20 enterprises
Chapter 9: Analysis of development trends and forecast of electric vehicle industry
9.1 analysis of risks of investment of China's electric vehicle industry
9.1.1 policy risk
9.1.2 technical risk
9.1.3 risk of supply and demand
9.1.4 risk of macro economic fluctuation
9.1.5 risk of related industries
9.1.6 risk of substitution
9.2 analysis of characteristics of investment of electric vehicle industry
9.2.1 analysis of entry barriers of electric vehicle industry
9.2.2 analysis of profit model of electric vehicle industry
9.2.3 analysis of profit factor of electric vehicle industry
9.3 development trends of China's electric vehicle industry and forecast
9.3.1 analysis of development trends of China's electric vehicle industry
9.3.2 prediction of development prospects of China's electric vehicle industry
(1) forecast of electric bicycle market
(2) forecast of electric automobile market
9.4 investment advice for China's electric vehicle industry
9.4.1 analysis of status quo of investment of electric vehicle industry
9.4.2 major investment advice for electric vehicle industry
