

China Wind Power Industry Development Prospects and Investment Risks Report, 2013–2017

目 录

CONTENTS

Chapter 1: Development Background of China Wind Power Industry

1.1 Definition and Life Cycle of Wind Power Industry

- 1.1.1 Definition of Wind Power Industry
- 1.1.2 Major Characteristics of Wind Power Industry
- 1.1.3 Major Utilizations of Wind Power
- 1.1.4 Life Cycle of Wind Power Industry

1.2 Policy Environment of Wind Power Industry

- 1.2.1 Development Policy to Wind Power
 - (1) Policy on Share of Wind Power Price and Cost
 - (2) Financial Supporting Policy
 - (3) Tax Preference Policy
 - (4) Wind Power Grid Policy
 - (5) Preference Policy for Foreign Investment Enterprises
 - (6) Policy Changing in Current Years
- 1.2.2 Major Existing Problems and Deficiencies
 - (1) Existing Problems to Renewable Special Fund System
 - (2) Responsibilities of Power Grid Enterprises to Renewable Energy Development
 - (3) Development Goal behind Development Pace
 - (4) Influence of the Transformation of Value Added Tax
- 1.2.3 Problems should Settle Down to Support Wind Power in Current Period
 - (1) Settle Down the Relationship between Industry Development and Basic R&D
 - (2) Settle Down the Relationship among Beneficiaries
 - (3) Settle Down the Relationship between Law Clauses and Practice
 - (4) Settle Down the Relationship between Fast Development and Sound Development
 - (5) Settle Down the Relationship between Scale Development and Scattered Development
- 1.2.4 Reform Direction of Wind Power Development Policy

1.3 Economic Environment of Wind Power Industry

- 1.3.1 Analysis of International Macro Economic Environment
 - (1) Status of International Macro Economic Environment
 - (2) Forecast of International Macro Economic Environment
- 1.3.2 Analysis of Domestic Macro Economic Environment
 - (1) Status of Domestic Macro Economic Environment
 - (2) Forecast of Domestic Macro Economic Environment
- 1.3.3 Analysis of Industry Macro Economic Environment
 - (1) Investment Status of Power Industry
 - (2) Consumption Status of Power Industry
 - (3) Supply Status of Power Industry
 - (4) Construction Status of Power Industry

1.4 Technology Environment of Wind Power Industry

- 1.4.1 Status of Wind Power Technology
 - (1) Manufacturing Technology of Wind Power Equipment
 - (2) Offshore Wind Power Technology
 - (3) Wind Power Grid Technology
 - (4) Wind Power Turbine Selection
 - (5) Operational Maintenance Management of Wind Farm
- 1.4.2 Breakthrough of Future Wind Power Technology
 - (1) Design and Manufacturing Technology of Wind Turbine Blade
 - (2) Design and Manufacturing Technology of Transmission Organ
 - (3) Maglev Technology

(4) Offshore Wind Farm Technology

1.5 Social Environment of Wind Power Industry

- 1.5.1 Analysis of Wind Power, Society and Economy
- 1.5.2 Analysis of Wind Power and Environmental Protection
- 1.5.3 Environmental Negative Effect of Wind Power Production
- 1.5.4 Wind Power and Clean Development System
 - (1) Background of Clean Development System
 - (2) Status CDM Application Status of Wind Power Project
 - (3) Influence of CDM Development to Wind Power

Chapter 2: Development and Experiences of Global Wind Power Industry**2.1 Development Status of Global Wind Power Industry**

- 2.1.1 Distribution, Development and Utilization of Global Wind Resources
 - (1) Distribution of Global Wind Resources
 - (2) Development and Utilization of Global Wind Resources
- 2.1.2 Development Status of Global Wind Power Industry
 - (1) Analysis of Global Wind Power Installed Quantity
 - (2) Analysis of Global Wind Power Installed Capacity
 - 1) Total Installed Capacity of Global Wind Power
 - 2) New Installed Capacity of Global Wind Power
 - (3) Change of Average Global Single-unit Capacity
 - (4) Distribution of Global Wind Power Installed Power
- 2.1.3 Competitive Landscape of Global Wind Power Industry
 - (1) Regional Competitive Landscape of Global Wind Power Industry
 - (2) National Competitive Landscape of Global Wind Power Industry

2.2 Development and Experience of Regional Wind Power Industry

- 2.2.1 Development of European Wind Power Industry
 - (1) Overall Development of European Wind Power Industry
 - (2) Development of Wind Power Industry in Major European Countries
 - 1) Development of Wind Power Industry in Germany
 - 2) Development of Wind Power Industry in Spain
 - 3) Development of Wind Power Industry in France
 - 4) Development of Wind Power Industry in British
 - 5) Development of Wind Power Industry in Italy
 - (3) Development Experience of European Wind Power Industry
- 2.2.2 Development of Asian Wind Power Industry
 - (1) Development of Asian Wind Power Industry
 - 1) Development of Indian Wind Power Industry
 - 2) Development of Japanese Wind Power Industry
 - 3) Development of South Korean Wind Power Industry
 - (2) Development Experience of Asian Wind Power Industry
- 2.2.3 Development of North American Wind Power Industry
 - (1) Development of American Wind Power Industry
 - (2) Development of Canadian Wind Power Industry
- 2.2.4 Development of Latin American Wind Power Industry
- 2.2.5 Development of Wind Power Industry in other regions

2.3 Prospects Forecast of Global Wind Power Industry

- 2.3.1 Development Trend of Global Wind Power Industry
- 2.3.2 Construction Cost Forecast of Global Wind Power Industry
- 2.3.3 Investment Scale Forecast of Global Wind Power Industry
- 2.3.4 Installed Capacity Forecast of Global Wind Power Industry
- 2.3.5 Prospects Forecast of Regional Wind Power Industry
 - (1) Prospects Forecast of European Wind Power Industry
 - (2) Prospects Forecast of North American Wind Power Industry
 - (3) Prospects Forecast of Asian Wind Power Industry
 - (4) Prospects Forecast of Wind Power Industry in other Regions

Chapter 3: Development Status and Prospects Forecast of China Wind Power Industry**3.1 Resources and Entry of China Wind Power Industry**

- 3.1.1 Distribution, Development and Utilization of Wind Resources
 - (1) Regional Distribution of Wind Resources

- (2) Seasonable Distribution of Wind Resources
- (3) Development and Utilization of Wind Resources

3.1.2 Analysis of Industry Entry Barriers

- (1) Analysis of Profitability Modes
- (2) Analysis of Profitability Factors

3.2 Development Status of China Wind Power Industry

3.2.1 Installed Capacity of Wind Power Industry

- (1) Total Installed Capacity of Wind Power
- (2) New Installed Capacity of Wind Power
- (3) Single-unit Installed Capacity of Wind Power

3.2.2 Power Generating Condition of Wind Power Industry

3.2.3 Major Projects Construction of Wind Power Industry

3.2.4 Urgent Development Issues of Wind Power Industry

3.3 Competition of China Wind Power Industry

3.3.1 Competitiveness of Wind Power Industry

3.3.2 Five Forces Analysis of Wind Power Industry

- (1) Influence of Upstream Industry
- (2) Influence of Downstream Industry
- (3) Threat of New Entrants
- (4) Threat of Wind Power Alternatives
- (5) Industry Competitive Landscape

1) Regional Competition of Wind Power

2) Competition among Wind Power Enterprises

3.4 Investment Efficiency of China Wind Power Industry

3.4.1 Investment Scale of Wind Power Industry

3.4.2 Installed Cost of Wind Power Industry

3.4.3 Profitability Level of Wind Power Industry

3.4.4 Profit Competition of Wind Power Industry

3.5 Prospects Forecast of China Wind Power Industry

3.5.1 Development Trend of Wind Power Industry

3.5.2 Prospects Forecast of Wind Power Industry

- (1) Prospects Forecast of Wind Power Industry
- (2) Prospects Forecast of Offshore Wind Power Industry

3.5.3 Development Suggestions of Wind Power Industry from Forward

Chapter 4: Development of China Offshore Wind Power Industry

4.1 Development of Global Offshore Wind Power Industry

4.1.1 Development Process of Offshore Wind Power Industry

4.1.2 Development Status of Offshore Wind Power Industry

- (1) Installed Types of Offshore Wind Power
- (2) Installed Capacity of Offshore Wind Power
- (3) Installed Distribution of Offshore Wind Power

4.2 Development Status of European Offshore Wind Power Industry

4.2.1 Installed Capacity of European Offshore Wind Power

- (1) Total Installed Capacity of European Offshore Wind Power
- (2) New Installed Capacity of European Offshore Wind Power
- (3) Installed Capacity Distribution of European Offshore Wind Power

4.2.2 Development of Offshore Wind Power in Major Countries

- (1) Development of British Offshore Wind Power
- (2) Development of Danish Offshore Wind Power
- (3) Development of German Offshore Wind Power

4.2.3 Development Trend of European Development

4.3 Development of China Offshore Wind Power Industry

4.3.1 Distribution of Offshore Wind Power Resources

4.3.2 Development Status of Offshore Wind Power

4.3.3 Existing Problems of Offshore Wind Power

4.3.4 Construction Benefit of Offshore Wind Power

- (1) Construction Cost of Offshore Wind Power
- (2) Construction Benefit of Offshore Wind Power

4.3.5 Development Trend of Offshore Wind Power

4.3.6 Development Planning of Offshore Wind Power

4.4 Major Projects of Offshore Wind Power in China

- 4.4.1 Analysis of Shanghai Donghai Bridge Offshore Wind Power Project
- 4.4.2 Analysis of Jiangsu Rudong Intertidal Offshore Wind Power Project
- 4.4.3 Analysis of Jiangsu Dongtai Intertidal Wind Farm Project
- 4.4.4 Analysis of Jiangsu Dafeng Intertidal Wind Farm Project
- 4.4.5 Analysis of Jiangsu Sheyang Offshore Wind Farm Project
- 4.4.6 Analysis of Jiangsu Binhai Offshore Wind Farm Project

Chapter 5: Bottlenecks of Electric Grid and Price of Wind Power for China Wind Power Industry

5.1 Electric Grid Status of Wind Power Industry

- 5.1.1 Electric Grid Status of Wind Power Industry
 - (1) Total Installed Capacity of Wind Power Grid
 - (2) New Installed Capacity of Wind Power Grid
- 5.1.2 Grid Ratio of Wind Power Industry
 - (1) Total Grid Ratio of Wind Power Industry
 - (2) Comparison of New Grid and Installed Capacity for Wind Power Industry

5.2 Bottleneck and Solution to Wind Power Grid

- 5.2.1 Bottleneck Analysis of Electric Grid
 - (1) Problems in the aspects of System and Policy
 - (2) Problems in the aspect of Technology
- 5.2.2 Solutions of Wind Power Grid
 - (1) Policy Solutions for Wind Power Grid
 - (2) Technology Solutions for Wind Power Grid

5.3 Electrovalency of Wind Power Industry

- 5.3.1 History of Wind Power Electrovalency System
- 5.3.2 Composition and Influencing Factors of Wind Power Electrovalency
 - (1) Composition of Wind Power Electrovalency
 - (2) Influencing Factors of Wind Power Electrovalency
- 5.3.3 Analysis of Wind Power Electrovalency
 - (1) Calculation of Wind Power Electrovalency
 - (2) Influencing Factors to Wind Power Electrovalency
 - (3) Differences and Changing Trend of Wind Power Electrovalency
- 5.3.4 Grid Electrovalency of Wind Power

Chapter 6: Development of Wind Power Industry in Major China Regions

6.1 Development of Wind Power Industry in Inner Mongolia

- 6.1.1 Supporting Policy of Wind Power Industry in Inner Mongolia
- 6.1.2 Development Status of Wind Power Industry in Inner Mongolia
- 6.1.3 Development Status of Wind Power Enterprises in Inner Mongolia
- 6.1.4 Construction Condition of Wind Power Base in Inner Mongolia
 - (1) Construction Condition of Wind Power Base in East Inner Mongolia
 - (2) Construction Condition of Wind Power Base in West Inner Mongolia
- 6.1.5 Existing Problems of Wind Power in Inner Mongolia
- 6.1.6 Development Planning of Wind Power Industry in Inner Mongolia

6.2 Development of Wind Power Industry in Gansu

- 6.2.1 Supporting Policy of Wind Power Industry in Gansu
- 6.2.2 Development Status of Wind Power Industry in Gansu
- 6.2.3 Development Status of Wind Power Enterprises in Gansu
- 6.2.4 Construction Condition of Wind Power Base in Gansu
- 6.2.5 Existing Problems of Wind Power in Gansu
- 6.2.6 Development Planning of Wind Power Industry in Gansu

6.3 Development of Wind Power Industry in Hebei

- 6.3.1 Supporting Policy of Wind Power Industry in Hebei
- 6.3.2 Development Status of Wind Power Industry in Hebei
- 6.3.3 Development Status of Wind Power Enterprises in Hebei
- 6.3.4 Construction Condition of Wind Power Base in Hebei
- 6.3.5 Existing Problems of Wind Power in Hebei
- 6.3.6 Development Planning of Wind Power Industry in Hebei

6.4 Development of Wind Power Industry in Liaoning

- 6.4.1 Supporting Policy of Wind Power Industry in Liaoning
- 6.4.2 Development Status of Wind Power Industry in Liaoning
- 6.4.3 Development Status of Wind Power Enterprises in Liaoning
- 6.4.4 Construction Condition of Liaoning Wind Power Project
- 6.4.5 Existing Problems of Wind Power in Liaoning
- 6.4.6 Development Planning of Wind Power Industry in Liaoning

6.5 Development of Wind Power Industry in Jilin

- 6.5.1 Supporting Policy of Wind Power Industry in Jilin
- 6.5.2 Development Status of Wind Power Industry in Jilin
- 6.5.3 Development Status of Wind Power Enterprises in Jilin
- 6.5.4 Construction Condition of Wind Power Base in Jilin
- 6.5.5 Existing Problems of Wind Power in Jilin
- 6.5.6 Development Planning of Wind Power Industry in Jilin

6.6 Development of Wind Power Industry in Shandong

- 6.6.1 Supporting Policy of Wind Power Industry in Shandong
- 6.6.2 Development Status of Wind Power Industry in Shandong
- 6.6.3 Development Status of Wind Power Enterprises in Shandong
- 6.6.4 Construction Condition of Wind Power Base in Shandong
- 6.6.5 Existing Problems of Wind Power in Shandong
- 6.6.6 Development Planning of Wind Power Industry in Shandong

6.7 Development of Wind Power Industry in Jiangsu

- 6.7.1 Supporting Policy of Wind Power Industry in Jiangsu
- 6.7.2 Development Status of Wind Power Industry in Jiangsu
- 6.7.3 Development Status of Wind Power Enterprises in Jiangsu
- 6.7.4 Construction Condition of Jiangsu Coastal Wind Power Base
- 6.7.5 Existing Problems of Wind Power in Jiangsu
- 6.7.6 Development Planning of Wind Power Industry in Jiangsu

6.8 Development of Wind Power Industry in Xinjiang

- 6.8.1 Supporting Policy of Wind Power Industry in Xinjiang
- 6.8.2 Development Status of Wind Power Industry in Xinjiang
- 6.8.3 Development Status of Wind Power Enterprises in Xinjiang
- 6.8.4 Construction Condition of Hami Wind Power Base
- 6.8.5 Existing Problems of Wind Power in Xinjiang
- 6.8.6 Development Planning of Wind Power Industry in Xinjiang

Chapter 7: Major Enterprises' Management of China Wind Power Industry

7.1 Overall Development of China Wind Power Enterprises

7.2 Cases Study of Leading Enterprises of China Wind Power Industry

- 7.2.1 Management Analysis of China Longyuan Power Group Corporation Limited
 - (1) Brief Analysis of Enterprise Development
 - (2) Analysis of Enterprise Businesses
 - (3) Analysis of Enterprise Management Condition
 - 1) Analysis of Major Economic Index
 - 2) Analysis of Enterprise Debt-paying Ability
 - 3) Analysis of Enterprise Operational Capability
 - 4) Analysis of Enterprise Profitability
 - 5) Analysis of Enterprise Development Capability
 - (4) Analysis of Enterprise Wind Power Project
 - (5) Analysis of Enterprise Management Advantages and Disadvantages
 - (6) Analysis of Enterprise' s Latest Development Trend
