

China International Exhibition Transport Industry Analysis Report (2016-2021), Market Forward & Investment Forecast

目 录

CONTENTS

Chapter 1: Summary of the development of Chinese international freight forwarding industry

1.1 overview of the international freight forwarding industry

- 1.1.1 definition of international freight forwarding industry
- 1.1.2 international freight forwarding business
- 1.1.3 International freight forwarding service object
- 1.1.4 the role of the industry in the national economy

1.2 summary of development of international freight forwarding industry

- 1.2.1 analysis of the development process
- 1.2.2 scale of development
- 1.2.3 analysis of current situation
- 1.2.4 analysis of customer structure
- 1.2.5 analysis of personnel structure
- 1.2.6 comparison of enterprise resource conditions
 - (1) state-owned or state-controlled freight
 - (2) foreign freight forwarding
 - (3) private freight
- 1.2.7 problem analysis
- 1.2.8 analysis of international freight logistics transformation
 - (1) analysis of the difference between the freight forwarding and logistics
 - (2) the implementation of restructuring measures in the international freight forwarding

logistics

1.3 international freight forwarding industry competition

- 1.3.1 the ownership structure of the international freight forwarding industry
 - (1) analysis of state-owned international freight forwarding business
 - (2) analysis of private international freight forwarding business
 - (3) analysis of foreign international freight forwarding business
 - (4) analysis of the stock of international freight forwarding business
- 1.3.2 international freight forwarding industry's enterprise competition
- 1.3.3 SWOT analysis of the international freight forwarding industry
- 1.3.4 analysis of 5 forces model of the international freight forwarding industry
- 1.3.5 analysis of international freight forwarding industry competition trends

Chapter 2: Development environment of Chinese international freight forwarding industry

2.1 analysis of international freight forwarding industry policy environment

- 2.1.1 management system of the international freight forwarding industry
- 2.1.2 relevant policy of international freight forwarding industry
 - (1) summary of international freight forwarding industry regulations and policies
 - (2) interpretation of international freight forwarding industry policy
- 2.1.3 national standard of international freight forwarding industry
- 2.1.4 legislative and judicial practice problems
- 2.1.5 legislative and judicial practice recommendations

2.2 Analysis of international freight forwarding industry economic environment

- 2.2.1 analysis of international macroeconomic environment
 - (1) analysis of the overall health of the global economy in 2nd quarter of.....2013
 - (2) analysis of the economy in Europe and America in 2nd quarter of.....2013
 - (3) analysis of Asia-Pacific economy in 2nd quarter of.....2013
- 2.2.2 analysis of domestic macroeconomic environment
 - (1) the first three quarters of 2013 GDP growth
 - (2) 2005年以来 GDP growth

2.2.3 main economic indicators

- (1) industrial added value
- (2) manufacturing PMI
- (3) service case
- (4) the import and export
- (5) the RMB exchange rate movements

2.3 analysis of International freight forwarding industry technical environment

- 2.3.1 technical and economic characteristics of international freight forwarding industry
- 2.3.2 IT role in the international freight forwarding
- 2.3.3 technology trends in the international freight forwarding industry

2.4 analysis of development of the international related freight forwarding industry

- 2.4.1 analysis of development of the logistics industry
 - (1) the overall situation of the logistics industry in the first 3 quarters of.....2013
 - (2) analysis of the social total circulation
 - (3) analysis of the social total fee in circulation
 - (4) analysis of logistics industry status
- 2.4.2 analysis of the logistics industry boom
 - (1) logistics industry sentiment index (LPI)
 - (2) the total logistics services index
 - (3) the logistics industry new order index
 - (4) the number of logistics inventory turnover index
 - (5) the logistics industry capacity utilization index
 - (6) logistics industry practitioner Index
- 2.4.3 analysis of aviation industry
 - (1) the size of the civil airport
 - (2) regional distribution of civilian airport
 - (3) aviation transport fleet
 - (4) domestic / international transport aircraft movements
 - (5) domestic / international airline cargo capacity
 - (6) airport cargo throughput and structure
- 2.4.4 analysis of port industry development
 - (1) the scale of production berths
 - (2) the size of the port transport equipment
 - (3) foreign trade port cargo throughput
 - (4) port container throughput
- 2.4.5 analysis of road freight transport development
 - (1) total length
 - (2) highway transportation equipment scale
 - (3) road freight
- 2.4.6 analysis of rail freight
 - (1) The total length of railway
 - (2) analysis of railway locomotives and rolling stock scale
 - (3) analysis of the total delivery volume of rail freight

Chapter 3: Analysis of China international exhibition transport industry development

3.1 analysis of development of the exhibition industry in the world

- 3.1.1 development of world exhibition industry
 - (1) world exhibition industry development status
 - (2) the development of European exhibition industry
 - (3) the development of American exhibition industry
 - (4) the development of the exhibition industry in Africa
 - (5) the development of the exhibition industry in Asia
- 3.1.2 development trend of the world exhibition industry
- 3.1.3 development of exhibition industry in major nations
 - (1) analysis of German exhibition industry
 - (2) analysis of the U.S. exhibition industry
 - (3) analysis of the France exhibition industry
 - (4) analysis of the Canada exhibition industry

3.2 Development of China International Exhibition Transport Industry Analysis

- 3.2.1 development of international conventions

- (1) analysis of the number of exhibition venues
 - (2) analysis of exhibition area
 - (3) analysis of exhibition organized by quantitative
 - (4) analysis of exhibition area
 - (5) analysis of direct fair value
 - (6) effect of community driven
 - (7) the regional distribution
 - (8) analysis of the structure
- 3.2.2 development overview of international exhibition transport industry
- (1) concept and characteristics of the exhibition transport industry
 - (2) development of the exhibition transport industry
 - (3) exhibition transportation services
 - (4) exhibition transportation service process
- 3.2.3 international exhibition transport industry' s operating conditions
- (1) China' s exhibition business entities transportation market
 - (2) exhibition transport market concentration
 - (3) ATA document market
 - (4) problems in the exhibition transportation industry
 - (5) exhibition transport enterprise' s development initiatives
- 3.2.4 analysis of international exhibition transportation mode
- (1) analysis of organizational model
 - (2) analysis of Logistics pattern
- 3.3 trends of international exhibition transport industry**
- 3.3.1 the rapid growth of Chinese exhibition space transportation market
 - 3.3.2 take the professional and brand development route
 - 3.3.3 professional training is the basis of development of the industry
 - 3.3.4 standardized market will be the development direction
