

China IT Operation and Maintenance Management Industry Operational Mode Research and Investment Forecast Report

目 录

CONTENTS

Chapter 1: Development Overview of IT Operation and Maintenance Management Industry

1.1 Definition and Classification of Operation and Maintenance Management (O&M)

1.1.1 Industry Concept

1.1.2 Segmented Fields in the Industry

1.2 Position of IT O&M Management Industry

1.2.1 Project Life Cycle

1.2.2 Position of O&M

1.3 Industrial Chain of Industry

1.3.1 Profile of Industrial Chain

1.3.2 Upstream Parts of Industry

1.3.3 Downstream Parts of Industry

1.4 Research Departments and Methods of Report

1.4.1 Introduction to Report Research

1.4.2 Overview of Research Methods

Chapter 2: Analysis of Development Environment for IT O&M Management Industry

2.1 Policy Environment for Industry

2.1.1 Policies Related to Industry

2.1.2 Competent Departments and Supervision Mechanism

2.1.3 Development Planning for Industry

2.1.4 Standard System for Industry

2.2 Economic Environment for Industry

2.2.1 International Macro-economic Situation

2.2.2 Domestic Macro-economic Situation

2.2.3 Industry Macro-economic Situation

2.3 Technology Environment for Industry

2.3.1 Development History of Industry

2.3.2 Technology Status of Industry

2.3.3 Development Features of Technology

2.3.4 Domestic Technology and Gap Compared with Foreign Technology

2.3.5 Technology Development Trend

2.4 Social Environment for Industry

2.4.1 China Informationization Construction

(1) Informationization Construction Trend

1) Informationization Plays An Important Role in Public Welfare Social Service

2) Breakthrough Will Be Achieved in Core Technology

3) National Informationization Will Develop into A High-end Position

4) National Information Safety Guarantee Capability Will Be Kept Improving

2.4.2 Informationization Concept Strengthens

Chapter 3: Analysis of IT O&M Models and Innovation

3.1 Traditional O&M Model

3.1.1 Concept of Traditional O&M Model

3.1.2 Problems in Traditional O&M Model

3.2 Key Factors of Model Transformation

3.2.1 High Visibility

3.2.2 Detectability

3.2.3 Easy to Analyze

3.2.4 Real Time Monitoring

3.3 Virtual IT O&M Model

3.4 Cloud Computing-Based IT O&M Model

Chapter 4: Development Status and Prospect Forecast for IT O&M Management Industry

4.1 Development History of Industry

4.2 Market Overview

4.2.1 International IT O&M Market

4.2.2 Domestic IT O&M Market

(1) Domestic Business Service Management (BSM) Market

(2) Domestic Operation Support System (OSS) Market

4.3 Competitive Landscape for Industry

4.3.1 Competitive Landscape for BSM Market

4.3.2 Competitive Landscape OSS Market

4.4 Development of Segmented Fields

4.4.1 Analysis of Network Equipment Management

4.5 Analysis of Server Management

4.5.1 Analysis of Application System Management

4.5.2 Analysis of Business System Management

4.6 Development Trend and Prospects for Industry

4.6.1 Development Trend for Industry

4.6.2 Prospect Forecast for Industry Development

Chapter 5: Analysis of Operation Models and Strategies for IT O&M Management Industry

5.1 Major Growth Paths for Enterprises in the Industry

5.1.1 Basic Software Provider Model

5.1.2 Application Software Provider Model

5.1.3 System Integrator Model

5.1.4 Professional Processor Model

5.2 Models for Corporate Growth Stages of Industry

5.2.1 Technical Features of Product in the Industry

5.2.2 Productization of Software

5.2.3 SaaS

5.3 Capability Requirements for A Corporation

5.4 Key Successful Factors of A Corporation in the Industry

5.4.1 Product and Technical Innovation

5.4.2 Commercial Model Innovation

5.4.3 Rapid Growth Model

Chapter 6: Analysis of IT Operation and Management Outsourcing Service Market Status and Trend

6.1 Development History of O&M Outsourcing Service

6.2 Contents in O&M Outsourcing Service

6.2.1 Outsourcing of Desktop Support

6.2.2 Outsourcing of IT Infrastructure

6.2.3 Outsourcing of Application System

6.3 Overview of IT O&M Outsourcing Service Market

6.3.1 Market Size of IT O&M Outsourcing Service

6.3.2 Competitive Landscape for IT O&M Outsourcing Service

6.4 Driving Factors of IT O&M Outsourcing Service

6.4.1 More Mature Corporate Management
