

China Coal Mine Safety Equipment Industry Report (2016–2021), Market Outlook and Investment Forecast

目 录

CONTENTS

Chapter 1: Background of development of China's coal mine safety equipment industry

1.1 overview of China's coal mine safety equipment industry

1.1.1 concept and definition of the industry

1.1.2 classification of major products of the industry

1.2 analysis of economic environment of China's coal mine safety equipment industry

1.2.1 analysis of the international macro economic environment

1.2.2 analysis of the domestic macro economic environment

1.2.3 analysis of macro economic environment of the industry

1.3 analysis of policy environment of China's coal mine safety equipment industry

1.3.1 regulatory regime of the industry

1.3.2 related policies of the industry

(1) "Basic requirements of construction and improvement of coal mine safe haven" six systems" and interim measures of inspection and acceptance"

(2) "Notice on strengthening the work of coal mine roof safety management"

(3) "Guidelines on strengthening of small coal mine basic safety management"

(4) "Guiding Catalog of Industrial Structure Adjustment"

(5) "Opinions of the State Council on promoting the healthy development of coal industry"

(6) "Notice of the State Council on further strengthening the work of safe production"

1.3.3 analysis of development planning of the industry

Chapter 2: Status quo of development of the global coal mine safety equipment industry and forecast

2.1 status quo of development of the global coal mine safety equipment industry

2.1.1 status quo of development of the global coal mine safety equipment industry

2.1.2 status quo of competitive landscape of the global coal mine safety equipment industry

2.2 analysis of market of coal mine safety equipment industry in major countries

2.2.1 analysis of market of coal mine safety equipment industry in South Africa

2.2.2 analysis of market of coal mine safety equipment industry in America

2.2.3 analysis of market of coal mine safety equipment industry in Australia

2.3 analysis of operation of major coal mine safety equipment manufactures in the world

2.3.1 American Strata Company

(1) brief introduction of the company's development

(2) analysis of the company's operation

(3) analysis of the company's competition in China

2.3.2 Willie Lawo International Group, Inc.

(1) brief introduction of the company's development

(2) analysis of the company's operation

(3) analysis of the company's competition in China

2.3.3 French Odum Company

(1) brief introduction of the company's development

(2) analysis of the company's operation

(3) analysis of the company's competition in China

2.4 development trends of the global coal mine safety equipment industry and forecast

Chapter 3: Status quo and trends of China's coal mine safety equipment industry

3.1 analysis of China's coal resources market

3.1.1 analysis of coal reserves

(1) analysis of the global coal reserves

(2) analysis of China's coal reserves

3.1.2 analysis of distribution of coal reserves

(1) analysis of distribution of the global coal reserves

(2) analysis of distribution of China's coal reserves

3.2 analysis of operation of China's coal industry

- 3.2.1 analysis of scale of coal industry
- 3.2.2 analysis of production of coal industry
- 3.2.3 analysis of demand of coal industry
- 3.2.4 analysis of supply and demand balance of coal industry
- 3.2.5 analysis of profitability of coal industry
- 3.2.6 analysis of financial operation of coal industry
- 3.2.7 analysis of characteristics and trends of coal industry

3.3 analysis of status quo and reasons of China's coal mine safety accidents

- 3.3.1 analysis of status quo of coal mine safety accidents
 - (1) total quantity of coal mine safety accidents
 - (2) deaths of coal mine safety accidents
 - (3) distribution of coal mine safety accidents by region
- 3.3.2 analysis of reasons for coal mine safety accidents
 - (1) backward coal mine safety management
 - (2) management system is incomplete
 - (3) not implementation of main responsibility of coal mine enterprises
 - (4) backward coal mine safety equipment

3.4 analysis of status quo and trends of China's coal mine safety equipment industry

- 3.4.1 status quo of development of China's coal mine safety equipment industry
- 3.4.2 competitive landscape of China's coal mine safety equipment industry
- 3.4.3 development trends of China's coal mine safety equipment industry

Chapter 4: Status quo of development and trends of China's coal mine safety refuge system

4.1 status quo of development and trends of coal mine monitoring and control system

- 4.1.1 analysis of status quo of coal mine monitoring and control system
- 4.1.2 analysis of construction of coal mine monitoring and control system
 - (1) analysis of structure of the system
 - (2) analysis of major subdivided structures of the system
- 4.1.3 problems of coal mine monitoring and control system
- 4.1.4 development trends of coal mine monitoring and control system

4.2 status quo of development and trends of coal mine personnel positioning system

- 4.2.1 analysis of status quo of coal mine personnel positioning system
- 4.2.2 analysis of structure of coal mine personnel positioning system
 - (1) analysis of structure of the system
 - (2) analysis of function of the system
 - (3) analysis of characteristics of the system
 - (4) analysis of working principles of the system
- 4.2.3 problems of coal mine personnel positioning system
- 4.2.4 development trends of coal mine personnel positioning system

4.3 status quo of development and trends of coal mine air compression self-help system

- 4.3.1 analysis of status quo of coal mine air compression self-help system
- 4.3.2 analysis of structure of coal mine air compression self-help system
 - (1) analysis of structure of the system
 - (2) analysis of market of air compressor
 - (3) analysis of market of fixed permanently owned equipment
- 4.3.3 analysis of development trends of coal mine air compression self-help system

4.4 status quo of development and trends of coal mine emergency system

- 4.4.1 analysis of status quo of coal mine emergency system
- 4.4.2 analysis of market of coal mine emergency system equipment
 - (1) analysis of market of self-rescuer
 - (2) analysis of market of rescue capsule
 - (3) analysis of market of refuge chamber
- 4.4.3 analysis of development trends of coal mine emergency system

4.5 status quo of development and trends of coal mine water rescue system

- 4.5.1 analysis of status quo of coal mine water rescue system
- 4.5.2 analysis of structure of coal mine water rescue system
 - (1) analysis of water storage tank
 - (2) analysis of water consumption

(3) analysis of water supply pipeline

4.5.3 forecast of application of coal mine water rescue system

4.6 status quo of development and trends of coal mine communications contact system

4.6.1 analysis of status quo of coal mine communications contact system

4.6.2 analysis of characteristics of coal mine communications contact system

4.6.3 analysis of classification of coal mine communications contact system

(1) analysis of mine scheduling communication system

(2) analysis of mine broadcast communication system

(3) analysis of mine mobile communication system

(4) analysis of mine disaster communications system

4.6.4 forecast of application of coal mine communications contact system

Chapter 5: Status quo of development and forecast of China's coal mine safety detection equipment

5.1 analysis of status quo and trends of China's coal mine safety detection technology

5.1.1 analysis of status quo of coal mine safety detection technology

5.1.2 development trends of coal mine safety detection technology

5.2 status quo of development and forecast of China's coal mine sensor

5.2.1 analysis of status quo of development of coal mine sensor

5.2.2 analysis of major subdivided product markets of coal mine sensor

(1) analysis of market of methane sensor

(2) analysis of market of wind speed sensor

(3) analysis of market of wind pressure sensor

(4) analysis of market of temperature sensor

(5) analysis of market of other mine sensors

5.2.3 analysis of status quo of demand of coal demand sensor and forecast

5.3 status quo of development and forecast of China's coal mine annunciator

5.3.1 analysis of status quo of development of coal mine annunciator

5.3.2 analysis of major subdivided product markets of coal mine annunciator

(1) analysis of market of sound and light alarm

(2) analysis of market of portable methane detection alarm

5.3.3 analysis of status quo of demand for coal mine annunciator and forecast

5.4 status quo of development and forecast of China's coal mine lightning arrester (protector)

5.4.1 analysis of status quo of development of coal mine lightning arrester (protector)

5.4.2 performance and characteristics of coal mine lightning arrester (protector)

5.4.3 analysis of principle of coal mine lightning arrester (protector)

5.4.4 analysis of status quo of demand for coal mine lightning arrester (protector) and forecast

5.5 status quo of development and forecast of China's coal mine gas detector

5.5.1 analysis of status quo of coal mine gas detector

5.5.2 analysis of major subdivided product markets of coal mine gas detector

(1) analysis of market of optical gas calibrator

(2) analysis of market of portable Methane detector

5.6 status quo of demand for coal mine gas detector and forecast

5.7 status quo of development and forecast of China's coal mine roof safety testing system

5.7.1 analysis of status quo of roof safety testing system

5.7.2 market capacity of roof safety testing system

5.7.3 analysis of technical level of roof safety testing system

5.7.4 manufacturers of roof safety testing system

5.7.5 analysis of status quo of demand for roof safety testing system and forecast

Chapter 6: Status quo of development and forecast of China's coal mine safety control equipment

6.1 status quo of development and forecast of China's coal mine dust control equipment

6.1.1 coal mine dust control technology

(1) pre-wet coal injection technology

(2) shearer dust-proof technology

6.1.2 analysis of market of portable microcomputer dust monitor

(1) analysis of functions of portable microcomputer dust monitor

(2) analysis of characteristics of portable microcomputer dust monitor

(3) analysis of major manufacturers of portable microcomputer dust monitor

(4) analysis of status quo of demand for portable microcomputer dust monitor and forecast

- 6.1.3 analysis of market of wet cyclone dust collector
 - (1) analysis of functions of wet cyclone dust collector
 - (2) analysis of cost performance of wet cyclone dust collector
 - (3) analysis of major manufacturers of wet cyclone dust collector
 - (4) analysis of status quo of demand for wet cyclone dust collector and forecast

- 6.1.4 analysis of market of mine ventilator
 - (1) analysis of performance of mine ventilator
 - (2) analysis of major manufacturers of mine ventilator
 - (3) analysis of status quo of demand for mine ventilator and forecast

- 6.1.5 analysis of market of mine sprayer
 - (1) analysis of performance of mine sprayer
 - (2) analysis of major manufacturers of mine sprayer
 - (3) analysis of status quo of demand for mine sprayer and forecast

6.2 status quo of development and forecast of China's coal mine fire control equipment

- 6.2.1 analysis of coal mine fire prevention technology
 - (1) analysis of conventional fire prevention technology
 - (2) fly cured foam fire extinguishing technology
 - (3) three-phase foam fire extinguishing technology
 - (4) thickening agent mortar fire prevention technology
- 6.2.2 analysis of market of anti-temper device
 - (1) analysis of performance of anti-temper device
 - (2) analysis of major manufacturers of anti-temper device
 - (3) analysis of status quo of demand for anti-temper device and forecast
- 6.2.3 analysis of market of flame arrester
 - (1) analysis of performance of flame arrester
 - (2) analysis of major manufacturers of flame arrester
 - (3) analysis of status quo of demand for flame arrester and forecast
- 6.2.4 analysis of market of fire pump
 - (1) analysis of performance of fire pump
 - (2) analysis of major manufacturers of fire pump
 - (3) analysis of status quo of demand for fire pump and forecast
- 6.2.5 analysis of market of pressure foam proportioning device
 - (1) analysis of performance of pressure foam proportioning device
 - (2) analysis of major manufacturers of pressure foam proportioning device
 - (3) analysis of status quo of demand for pressure foam proportioning device and forecast
- 6.2.6 analysis of market of fire-proof and antifreeze breathing valve
 - (1) analysis of performance of fire-proof and antifreeze breathing valve
 - (2) analysis of major manufacturers of fire-proof and antifreeze breathing valve
 - (3) analysis of status quo of demand for fire-proof and antifreeze breathing valve and forecast

6.3 status quo of development and forecast of China's coal mine gas control equipment

- 6.3.1 analysis of coal mine gas prevention technology
- 6.3.2 analysis of market of gas automatic discharge system
 - (1) analysis of performance of gas automatic discharge system
 - (2) analysis of structure of gas automatic discharge system
 - (3) analysis of technical indicators of gas automatic discharge system
 - (4) analysis of status quo of demand for gas automatic discharge system and forecast
- 6.3.3 analysis of market of gas sealing device
 - (1) analysis of performance of gas sealing device
 - (2) analysis of major manufacturers of gas sealing device
 - (3) analysis of status quo of demand for gas sealing device and forecast

6.4 status quo of development and forecast of China's coal mine auxiliary transportation safety control equipment

- 6.4.1 analysis of status quo of development of mine auxiliary transportation equipment
- 6.4.2 analysis of major subdivided product markets of mine auxiliary transportation equipment
 - (1) analysis of market of rail car
 - (2) analysis of market of monorail
 - (3) analysis of market of trackless rubber tire vehicle
 - (4) analysis of market of cog locomotive
 - (5) analysis of market of turbine car

(6) analysis of market of battery locomotive

6.4.3 analysis of status quo of demand for coal mine auxiliary transportation equipment and forecast

6.5 status quo of development and forecast of China's other coal mine safety control equipment

6.5.1 analysis of market of falling protector

(1) analysis of performance of falling protector

(2) analysis of working principle and structure of falling protector

(3) analysis of major manufacturers of falling protector

(4) analysis of status quo of demand for falling protector and forecast

6.5.2 analysis of market of cage

(1) analysis of performance of cage

(2) analysis of classification of cage

(3) analysis of major manufacturers of cage

(4) analysis of status quo of demand for cage and forecast

Chapter 7: Status quo of production and operation of major enterprises of China's coal mine safety equipment industry

7.1 analysis of overall development of China's coal mine safety equipment enterprises

7.1.1 scale of enterprises of coal mine safety equipment industry

7.1.2 industrial output of coal mine safety equipment industry

7.1.3 sales revenue and profit of coal mine safety equipment industry

7.2 case study of major enterprises of China's coal mine safety equipment industry

7.2.1 Rongxin Power Electronic Co., Ltd.

(1) brief introduction of the company's development

(2) analysis of the company's organizational structure

(3) analysis of the company's product structure

(4) analysis of the company's sales channels and network

(5) analysis of the company's major economic indicators

(6) analysis of the company's profitability capability

(7) analysis of the company's operation capability

(8) analysis of the company's solvency capability

(9) analysis of the company's development capability

(10) analysis of advantages and disadvantages of the company

(11) analysis of investment, merger and restructuring of the company

(12) analysis of the company's latest development trend

7.2.2 Tiandi Technology Co., Ltd.

(1) brief introduction of the company's development

(2) analysis of the company's main business

(3) analysis of the company's sales channels and network

(4) analysis of the company's major economic indicators

(5) analysis of the company's profitability capability

(6) analysis of the company's operation capability

(7) analysis of the company's solvency capability

(8) analysis of the company's development capability

(9) analysis of advantages and disadvantages of the company

(10) analysis of investment, merger and restructuring of the company

(11) analysis of the company's latest development trend

7.2.3 Shandong Luoka Automation Equipment Co., Ltd.

(1) brief introduction of the company's development

(2) analysis of the company's product structure

(3) analysis of the company's sales channels and network

(4) analysis of the company's operation

(5) analysis of advantages and disadvantages of the company

(6) analysis of investment, merger and restructuring of the company

(7) analysis of the company's latest development trend

7.2.4 Sichuan Xushi Mine Equipment Manufacturing Co., Ltd.

(1) brief introduction of the company's development

(2) analysis of the company's product structure

(3) analysis of the company's sales channels and network

(4) analysis of the company's operation

- (5) analysis of advantages and disadvantages of the company
- (6) analysis of investment, merger and restructuring of the company
- (7) analysis of the company's latest development trend
- 7.2.5 Chongqing Branch of Coal Research Institute
 - (1) brief introduction of the company's development

There are other enterprises

Chapter 8: Analysis of investment and financing of China's coal mine safety equipment industry

8.1 characteristics of investment of China's coal mine safety equipment industry

8.1.1 analysis of entry barriers of the industry

- (1) technical barrier
- (2) talent barrier
- (3) capital barrier

8.1.2 analysis of profit model of the industry

8.1.3 analysis of profit factor of the industry

8.2 risks of investment of China's coal mine safety equipment industry

8.2.1 policy risk

8.2.2 technical risk

8.2.3 competition risk

8.2.4 risk of macro economic fluctuation

8.2.5 other risks

8.3 analysis of financing of China's coal mine safety equipment industry

8.3.1 analysis of financing channel of China's coal mine safety equipment industry

- (1) owned fund
- (2) government investment
- (3) public financing
 - 1) bank loans

8.3.2 forecast of financing of coal mine safety equipment industry
