

China Nanomaterial Industry Development Prospect and Investment Forecast Report, 2013–2017

目 录

CONTENTS

Chapter 1: Development Overview of China Nanomaterial Industry

1.1 Overview of Nanomaterial

- 1.1.1 Definition of Nanomaterial
- 1.1.2 Classification of Nanomaterial
- 1.1.3 Characteristics of Nanomaterial
 - (1) Surface and Boundary Effect
 - (2) Small Size Effect
 - (3) Quantum Size Effect
 - (4) Macro Quantum Tunnel Effect
- 1.1.4 Development Progress of Nanomaterial

1.2 Development Environment of Nanomaterial Industry

- 1.2.1 Policy Environment of Nanomaterial Industry
 - (1) Standardization of the Industry
 - 1) International Nanomaterial Standardization
 - 2) China Nanomaterial Standardization
 - 3) Major Standards of China Nanomaterial
 - (2) Relevant Policies of the Industry
 - (3) Development Planning of the Industry
- 1.2.2 Technology Environment of Nanomaterial Industry
 - (1) Patent Application Amount of the Industry
 - (2) Patent Publishing Amount of the Industry
 - (3) Patent Applicant of the Industry
 - (4) Popular Technologies of the Industry
 - (5) Analysis of Nanomaterial Equipment Technology
 - 1) Physical Equipment Technology
 - 2) Chemical Equipment Technology
- 1.2.3 Economic Environment of Nanomaterial Industry
 - (1) Analysis of International Macro-Economic Environment
 - 1) Status of International Macro-Economic
 - 2) Forecast of International Macro-Economic
 - (2) Analysis of China Domestic Macro-Economic Environment
 - 1) Status of China Domestic Macro-Economic
 - 2) Forecast of China Domestic Macro-Economic

1.3 Development Opportunities and Threats of China Nanomaterial Industry

Chapter 2: Development of Global Nanomaterial Industry

2.1 Development Status of Global Nanomaterial Industry

- 2.1.1 Development of Global Nanotechnology
 - (1) R&D Investment of Nanotechnology
 - (2) Development Status of Nanotechnology
 - (3) Development Trend of Nanotechnology
 - (4) Latest Progress of Nanotechnology
- 2.1.2 R&D of Global Nanomaterial
 - (1) R&D Status of Nanomaterial
 - (2) R&D Progress of Nanomaterial
 - (3) R&D Trend of Nanomaterial
- 2.1.3 Market Size of Global Nanomaterial Industry
- 2.1.4 Competitive Structure of Global Nanomaterial Industry

2.2 Analysis of Nanomaterial Industry in Major Countries

- 2.2.1 Analysis of Nanomaterial Industry in America

- (1) Policy and Development Plan of Nanomaterial Industry in America
- (2) R&D Investment of Nanotechnology in America
- (3) Latest R&D Progress of Nanomaterial Industry in America
- (4) Industrialization Application of Nanomaterial in America
 - 1) Electron Field
 - 2) Biology Field
 - 3) Micro-machinery Field
- (5) Development Experience of Nanomaterial Industry in America
- 2.2.2 Analysis of Nanomaterial Industry in Japan
 - (1) Policy and Development Plan of Nanomaterial Industry in Japan
 - (2) R&D Investment of Nanotechnology in Japan
 - (3) Latest R&D Progress of Nanomaterial Industry in Japan
 - (4) Industrialization Application of Nanomaterial in Japan
 - (5) Development Experience of Nanomaterial Industry in Japan
- 2.2.3 Analysis of Nanomaterial Industry in Germany
 - (1) Policy and Development Plan of Nanomaterial Industry in Germany
 - (2) R&D System of Nanotechnology in Germany
 - (3) R&D Investment of Nanotechnology in Germany
 - (4) Latest R&D Progress of Nanomaterial in Germany
 - (5) Analysis of Nanomaterial Corporations in Germany
 - (6) Industrialization Application of Nanomaterial in Germany
 - 1) Chemical Field
 - 2) Automobile Manufacturing Field
 - 3) Electronic Industry Field
 - 4) Optical Industry Field
 - 5) Bio-chemical Field
 - 6) Energy Source and Environment Field
 - 7) Machinery Field
 - 8) Textile Field
 - 9) Building Material Field
 - (7) Development Experience of Nanomaterial Industry in Germany
- 2.2.4 Analysis of Nanomaterial Industry in Korea
 - (1) Policy and Development Plan of Nanomaterial Industry in Korea
 - (2) R&D Investment of Nanotechnology in Korea
 - (3) Latest R&D Progress of Nanomaterial Industry in Korea
 - (4) Industrialization Application of Nanomaterial in Korea
- 2.2.5 Analysis of Nanomaterial Industry in France
 - (1) Policy and Development Plan of Nanomaterial Industry in France
 - (2) R&D Investment of Nanotechnology in France
 - (3) Latest R&D Progress of Nanomaterial Industry in France
 - (4) Industrialization Application of Nanomaterial in France
- 2.2.6 Analysis of Nanomaterial Industry in Russia
 - (1) Policy and Development Plan of Nanomaterial Industry in Russia
 - (2) R&D Investment of Nanotechnology in Russia
 - (3) Latest R&D Progress of Nanomaterial Industry in Russia
- 2.3 Development Prospects of Global Nanomaterial Industry**
 - 2.3.1 Development Trend of Global Nanomaterial Industry
 - 2.3.2 Development Prospect Forecast of Global Nanomaterial Industry

Chapter 3: Development of China Nanomaterial Industry

3.1 Development Status of China Nanomaterial Industry

- 3.1.1 Development of China Nanotechnology
 - (1) R&D Investment of Nanotechnology
 - (2) Development Status of Nanotechnology
 - (3) Latest Progress of Nanotechnology
- 3.1.2 R&D of China Nanomaterial
 - (1) R&D Status of Nanomaterial
 - (2) R&D Progress of Nanomaterial
 - (3) R&D Trend of Nanomaterial
- 3.1.3 Market Size of China Nanomaterial Industry

3.1.4 Influencing Factors to China Nanomaterial Industry

- (1) Favorable Factors to Develop the Industry
- (2) Unfavorable Factors to Develop the Industry

3.1.5 Existing Problems of Nanomaterial Industry

3.1.6 Development Strategy of Nanomaterial Industry

3.2 Competition of China Nanomaterial Industry

3.2.1 Competitive Structure of the Industry

3.2.2 International Competitiveness of the Industry

3.3 Development Prospects of China Nanomaterial Industry

3.3.1 Development Trend of Nanomaterial Industry

3.3.2 Development Prospect Forecast of Nanomaterial Industry

Chapter 4: Development of Nanomaterial Segment Products

4.1 Development of Carbon Nanotube

4.1.1 R&D Progress of Carbon Nanotube

4.1.2 Manufacturing Method of Carbon Nanotube

4.1.3 Application Fields of Carbon Nanotube

4.1.4 Market Size of Carbon Nanotube

4.1.5 Major Manufacturers of Carbon Nanotube

4.1.6 Prospect Forecast of Carbon Nanotube Market

4.2 Development of Nano Composite Materials

4.2.1 Overview of Nano Composite Materials

4.2.2 Manufacturing Methods of Nano Composite Materials

4.2.3 Application Fields of Nano Composite Materials

4.2.4 Market Size of Nano Composite Materials

4.2.5 Analysis of Nano Composite Material Segment Products

(1) Nano Plastics

(2) Nano Rubber

(3) Clay Nano Composite Material

4.2.6 Major Manufacturers of Nano Composite Materials

4.2.7 Prospect Forecast of Nano Composite Materials Market

4.3 Development of Magnetism Nano Material

4.3.1 Classification of Magnetism Nano Material

4.3.2 Characteristics of Magnetism Nano Material

4.3.3 Manufacturing Methods of Magnetism Nano Material

(1) Produce by Magnetic Fluid

(2) Produce by Nano Magnetism Particle

(3) Produce by Nano Magnetism Microcrystal

(4) Produce by Nano Magnetism Composite Material

4.3.4 Application Fields of Magnetism Nano Material

4.3.5 Major Manufacturers of Magnetism Nano Material

4.3.6 Prospect Forecast of Magnetism Nano Material Market

4.4 Development of Nano Calcium Carbonate

4.4.1 Development Overview of Nano Calcium Carbonate

4.4.2 Manufacturing Method of Nano Calcium Carbonate

4.4.3 Progress of Nano Calcium Carbonate Project

4.4.4 Production Capacity of Nano Calcium Carbonate

4.4.5 Application Fields of Nano Calcium Carbonate

4.4.6 Major Manufacturers of Nano Calcium Carbonate

4.4.7 Prospect Forecast of Nano Calcium Carbonate Market

4.5 Development of Nano Silica
