

China Macromolecular Foaming Materials Industry Report (2016–2021), Development Model Transformation and Forecast of Production & Demand

目 录

CONTENTS

Chapter 1: Overview of macromolecular foaming materials industry

1.1 definition of macromolecular foaming materials industry

- 1.1.1 basic concepts of the industry
- 1.1.2 classification of products of the industry

1.2 characteristics of macromolecular foaming materials industry

- 1.2.1 entry barriers of the industry
- 1.2.2 cyclical characteristics of the industry
- 1.2.3 regional characteristics of the industry
- 1.2.4 seasonal characteristics of the industry

1.3 impact of upstream and downstream industries on the industry

- 1.3.1 introduction of industry chain of the industry
- 1.3.2 impact of the upstream industry
- 1.3.3 impact of the downstream industry

Chapter 2: Analysis of development environment of macromolecular foaming materials industry

2.1 policy environment of macromolecular foaming materials industry

- 2.1.1 management system of the industry
- 2.1.2 policies and regulations of the industry
 - (1) summary of policies of the industry
 - (2) related policies of the industry
- 2.1.3 development planning of the industry

2.2 economic environment of macromolecular foaming materials industry

- 2.2.1 analysis of the international economic trend
 - (1) status quo of the international economy
 - (2) trend of the international economy
- 2.2.2 analysis of the domestic economic trend
 - (1) status quo of the domestic economy
 - (2) trend of the domestic economy
- 2.2.3 analysis of development of new materials industry

2.3 marketing environment of macromolecular foaming materials industry

- 2.3.1 marketing mode of the industry
 - (1) analysis of distribution mode
 - 1) overview of distribution mode
 - 2) advantages and disadvantages of distribution mode
 - (2) analysis of direct sales mode
 - 1) overview of direct sales mode
 - 2) advantages and disadvantages of direct sales mode
- 2.3.2 marketing trend of the industry

2.4 technical environment of macromolecular foaming materials industry

- 2.4.1 production process and innovation of the industry
 - (1) process of soft foam products
 - (2) process of structural foam materials
 - (3) innovation in production processes
- 2.4.2 analysis of status quo of development of industry technology
- 2.4.3 research results and new products of the industry
- 2.4.4 analysis of development trends of industry technology
 - (1) high performance and low cost

- (2) functional trend
- (3) environment-friendly
- (4) development of a forming method suitable for materials properties
- (5) research of processing method of combining multiple techniques
- (6) research and development and further improvement of new molding techniques
- (7) surface-modified on products

Chapter 3: Analysis of development environment of macromolecular foaming materials industry

3.1 analysis of constitutes of raw materials of the industry

3.2 analysis of operation of rubber market

3.2.1 NBR market

- (1) supply and demand of products
- (2) price trend of products
- (3) development trends of the market

3.2.2 SBR market

- (1) supply and demand of products
- (2) price trend of products
- (3) development trends of the market

3.2.3 CR market

- (1) supply and demand of products
- (2) price trend of products
- (3) development trends of the market

3.2.4 EPDM market

- (1) supply and demand of products
- (2) price trend of products
- (3) development trends of the market

3.3 analysis of operation of plastics market

3.3.1 PUR market

- (1) supply and demand of products
- (2) price trend of products
- (3) development trends of the market

3.3.2 PS market

- (1) supply and demand of products
- (2) price trend of products
- (3) development trends of the market

3.3.3 PP market

- (1) supply and demand of products
- (2) price trend of products
- (3) development trends of the market

3.3.4 PVC market

- (1) supply and demand of products
- (2) price trend of products
- (3) development trends of the market

3.3.5 PE market

- (1) supply and demand of products
- (2) price trend of products
- (3) development trends of the market

3.3.6 EVA market

- (1) supply and demand of products
- (2) price trend of products
- (3) development trends of the market

3.4 analysis of operation of other plastics markets

3.4.1 PET market

3.4.2 PMI market

3.4.3 SAN market

3.4.4 PEI market

3.4.5 PI market

3.5 analysis of operation of additives market

3.5.1 analysis of foam stabilizer market

- (1) development of the market
- (2) major producers
- (3) development trends of the market
- 3.5.2 analysis of catalyst market
 - (1) development of the market
 - (2) major producers
 - (3) development trends of the market
- 3.5.3 analysis of foaming agent market
 - (1) development of the market
 - (2) major producers
 - (3) development trends of the market
- 3.5.4 analysis of crosslinking agent market
 - (1) development of the market
 - (2) major producers
 - (3) development trends of the market

Chapter 4: Analysis of status quo of development and trends of macromolecular foaming materials industry

4.1 analysis of development of the international macromolecular foaming materials industry

- 4.1.1 overview of development of the international market
- 4.1.2 competitive landscape of the international market
- 4.1.3 analysis of the international leading enterprises
 - (1) BASF
 - (2) Bayer
 - (3) Huntsman
 - (4) AIREX
 - (5) DIAB
- 4.1.4 development trends of the international market

4.2 overview of development of China's macromolecular foaming materials industry

- 4.2.1 overall development of the industry
- 4.2.2 analysis of market scale of the industry
- 4.2.3 analysis of characteristics of development of the industry
- 4.2.4 major influencing factors of the industry
 - (1) analysis of favorable factors
 - (2) analysis of unfavorable factors

4.3 analysis of competitive landscape of macromolecular foaming materials industry

- 4.3.1 analysis of five-force model of the industry
 - (1) competition among existing enterprises
 - (2) analysis of bargaining power of suppliers
 - (3) analysis of bargaining power of downstream customers
 - (4) threat of potential entrants to the industry
 - (5) threat of alternatives of the industry
- 4.3.2 analysis of merger and integration of the industry
 - (1) trend of merger and integration of the industry
 - (2) characteristics of merger and integration of the industry
 - (3) trends of merger and integration of the industry

4.4 forecast of development trends of macromolecular foaming materials industry

Chapter 5: Analysis of development of market of soft foam products

5.1 summary of market of soft foam products

- 5.1.1 definition and classification of products
- 5.1.2 analysis of application demands of products
- 5.1.3 analysis of market scale of products
- 5.1.4 competitive landscape of product market

5.2 analysis of market of soft plastic foam materials

- 5.2.1 development process of soft plastic foam materials
- 5.2.2 market scale of soft plastic foam materials
- 5.2.3 market pattern of soft plastic foam materials
 - (1) competition among existing enterprises
 - (2) bargaining power of upstream suppliers
 - (3) bargaining power of downstream customers

- (4) threat of potential entrants to the industry
- (5) threat of alternatives of the industry
- 5.2.4 subdivided markets of soft plastic foam materials
 - (1) PP foam material
 - 1) major characteristics of products
 - 2) analysis of application demands of products
 - 3) development trends of of the market
 - (2) PVC foam material
 - 1) major characteristics of products
 - 2) analysis of application demands of products
 - 3) development trends of of the market
 - (3) PE foam material
 - 1) major characteristics of products
 - 2) analysis of application demands of products
 - 3) development trends of of the market
 - (4) EVA foam material
 - 1) analysis of application demands of products
 - 2) scale of product market
 - 3) price trend of products
 - 4) competition of product market
 - 5) trends of product market
 - (5) other soft plastic foam materials
 - 1) Polyurethane (PU) foam material
 - 2) polystyrene (PS) foam material
- 5.2.5 analysis of demand for soft plastic foam materials
 - (1) analysis of application fields of products
 - (2) analysis of main downstream demands
 - 1) analysis of demand in sporting goods industry
 - 2) analysis of demand in appliance industry
 - 3) analysis of demand in electronics industry
 - 4) analysis of demand in automotive industry
 - 5) analysis of demand in thermal insulation materials industry
- 5.2.6 market pattern of soft plastic foam materials
- 5.3 analysis of market of soft rubber foam materials**
 - 5.3.1 overview of market of soft rubber foam materials
 - 5.3.2 market scale of soft rubber foam materials
 - 5.3.3 market pattern of soft rubber foam materials
 - (1) competition among existing enterprises
 - (2) bargaining power of upstream suppliers
 - (3) bargaining power of downstream customers
 - (4) threat of potential entrants to the industry
 - (5) threat of alternatives of the industry
 - 5.3.4 subdivided markets of soft rubber foam materials
 - (1) nitrile rubber foam material
 - (2) SBR foam material
 - (3) neoprene foam material
 - (4) EPDM foam material
 - 5.3.5 analysis of demand for soft rubber foam products
 - (1) analysis of application fields of products
 - (2) analysis of main downstream demands
 - 1) analysis of demand in automotive industry
 - 2) analysis of demand in motorcycle industry
 - 3) analysis of demand in machinery and equipment industry
 - 4) analysis of demand in sporting goods industry
 - 5) analysis of demand in sports toy industry
 - 6) analysis of demand in freezer industry
 - 7) analysis of demand in other industries
 - 5.3.6 forecast of market of soft rubber foam materials

Chapter 6: Analysis of development of market of structural foam materials products

6.1 overview of market of structural foam materials

- 6.1.1 type of structural foam materials
- 6.1.2 performance of structural foam material
 - (1) sandwich structure
 - (2) comparison of performance
- 6.1.3 usage of structural foam materials

6.2 analysis of the international market of structural foam materials

- 6.2.1 scale of the international market of structural foam materials
- 6.2.2 pattern of the international market of structural foam materials
- 6.2.3 forecast of the international demand for structural foam materials
- 6.2.4 development trends of the international structural foam materials
 - (1) the situation of short supply will remain
 - (2) analysis of capacity expansion and capacity gap of the industry

6.3 status quo of China's market of structural foam materials

- 6.3.1 overview of China's market of structural foam materials
- 6.3.2 major vendors of China's structural foam materials
- 6.3.3 market scale of China's structural foam materials
- 6.3.4 subdivided markets of China's structural foam materials
 - (1) PVC structural foam material
 - (2) PET structural foam material
 - (3) PMI structural foam material
 - (4) SAN structural foam material
 - (5) other structural foam materials

6.4 forecast of China's demand for structural foam materials

- 6.4.1 forecast of scale of demand in wind power industry
 - (1) status quo of development of wind power industry
 - (2) application of structural foam materials
 - (3) scale of demand for structural foam materials
 - (4) customers of structural foam materials
- 6.4.2 forecast of scale of demand in rail transport industry
 - (1) status quo of development of railway industry
 - (2) application of structural foam materials
 - (3) scale of demand for structural foam materials
 - (4) customers of structural foam materials
- 6.4.3 forecast of scale of demand in ship yacht industry
 - (1) status quo of development of ship yacht industry
 - (2) status quo of development of structural foam materials
 - (3) scale of demand for structural foam materials
 - (4) customers of structural foam materials
- 6.4.4 forecast of scale of demand in aviation industry
 - (1) analysis of status quo of development of aviation industry
 - (2) application of structural foam materials
 - (3) scale of demand for structural foam materials
 - (4) customers of structural foam materials
- 6.4.5 forecast of scale of demand in construction industry
 - (1) analysis of status quo of development of construction industry
 - (2) application of structural foam materials
 - (3) scale of demand for structural foam materials
 - (4) customers of structural foam materials
- 6.4.6 forecast of demand for structural foam materials

Chapter 7: Investment opportunities of macromolecular foaming materials industry and recommendations**7.1 SWOT analysis of macromolecular foaming materials industry**

- 7.1.1 analysis of advantages of the industry (S)
- 7.1.2 analysis of disadvantages of the industry (W)
- 7.1.3 analysis of opportunities of industry (O)
- 7.1.4 analysis of treats of the industry (T)

7.2 analysis of investment potential of macromolecular foaming materials industry

- 7.2.1 forecast of development prospects of the industry

- 7.2.2 analysis of investment opportunities of the industry
 - (1) review of investment environment of the industry
 - (2) analysis of investment opportunities of the industry
- 7.2.3 analysis of investment value of the industry
 - (1) forecast of profitability capability of the industry
 - (2) analysis of investment value of the industry

7.3 warning of risks of investment of macromolecular foaming materials industry

- 7.3.1 risk of price fluctuations in raw materials
- 7.3.2 risk of macro economic fluctuations
- 7.3.3 risk of stability of product quality
- 7.3.4 risk of increase of resource and environmental costs
- 7.3.5 risk of development of new products
- 7.3.6 other risks facing the industry

7.4 principal investment strategies of macromolecular foaming materials industry

- 7.4.1 analysis of investment type of the industry
- 7.4.2 analysis of investment region of the industry
- 7.4.3 analysis of investment method of the industry
- 7.4.4 ways to avoid risks of the industry

Chapter 8: Restructuring and strategy of development model of macromolecular foaming materials industry

8.1 analysis of transformation of development mode of macromolecular foaming materials industry

- 8.1.1 analysis of traditional materials supply mode
 - (1) overview of traditional materials supply mode
 - (2) classification of traditional materials supply mode
 - (3) shortcomings of traditional materials supply mode
- 8.1.2 transformation of model of providing solutions
 - (1) overview of model of providing solutions
 - (2) advantages of model of providing solutions
 - (3) cases of model of providing solutions
- 8.1.3 transformation of model of industry chain integration
 - (1) overview of model of industry chain integration
 - (2) advantages of model of industry chain integration
 - (3) cases of model of industry chain integration

8.2 experience of leading enterprises - development mode and strategy

- 8.2.1 basic information of the company
- 8.2.2 analysis of the company's operation mode
 - (1) analysis of the company's procurement mode
 - (2) analysis of the company's production mode
 - (3) analysis of the company's marketing mode
- 8.2.3 the company's development strategy and experience
 - (1) the company's development strategy
 - (2) the company's technological innovation mechanism
 - 1) innovation of institutional settings of technology center
 - 2) innovation of technical personnel
 - 3) innovation of R & D direction
 - 4) innovation of R & D management
 - 5) innovation of operation mode
 - 6) innovation of complete solutions
 - (3) the company's marketing strategies in different periods
 - 1) in preparation stage
 - 2) in start-up stage
 - 3) in development stage
 - 4) in stability stage
 - 5) in leading stage
 - (4) inspiration of the company's development mode

8.3 recommendations for development strategy of macromolecular foaming materials enterprises

- 8.3.1 key factors for success of an enterprise
 - (1) technology and R & D capabilities
 - (2) have scale effect

- (3) strict control of product quality
- (4) advanced business model
- (5) efficient management level

8.4 recommendations for development strategy of enterprises

Chapter 9: Analysis of operation of leading enterprises of macromolecular foaming materials industry

9.1 analysis of the overall development of enterprises

9.1.1 ranking of scale of macromolecular foaming materials enterprises

- (1) ranking of scale of production
- (2) ranking of sales volume
- (3) ranking of total profit

9.1.2 innovation capability of macromolecular foaming materials enterprises

9.1.3 ranking of comprehensive competitiveness of macromolecular foaming materials enterprises

- (1) description of principal component analysis
- (2) evaluation index of comprehensive competitiveness of enterprises
- (3) overall competitiveness ranking of enterprises

9.2 case study of operation of leading enterprises

9.2.1 Changzhou Tiansheng New Materials Co., Ltd.

- (1) brief introduction of the company's development
- (2) analysis of the company's products and R&D strength
- (3) analysis of the company's sales channels and network
- (4) analysis of the company's operation
 - 1) major economic indicators
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
- (5) analysis of advantages and disadvantages of the company's operation
- (6) the company's investment, mergers and acquisitions
- (7) analysis of the company's latest development trend

9.2.2 Changzhou Sanhe Plastic Co., Ltd.

- (1) brief introduction of the company's development
 - 1) analysis of the company's products and R&D strength
- (2) analysis of the company's sales channels and network
- (3) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
- (4) analysis of advantages and disadvantages of the company's operation
- (5) the company's investment, mergers and acquisitions
- (6) analysis of the company's latest development trend

9.2.3 Quanzhou Sansheng Co., Ltd.

- (1) brief introduction of the company's development
- (2) analysis of the company's products and R&D strength
- (3) analysis of the company's sales channels and network
- (4) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
- (5) analysis of advantages and disadvantages of the company's operation
- (6) the company's investment, mergers and acquisitions
- (7) analysis of the company's latest development trend

9.2.4 Zhihe (Fujian) Technology Co., Ltd.

- (1) brief introduction of the company's development
- (2) analysis of the company's products and R&D strength

- (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
 - (5) analysis of advantages and disadvantages of the company's operation
 - (6) the company's investment, mergers and acquisitions
 - (7) analysis of the company's latest development trend
- 9.2.5 DIAB New Material (Kunshan) Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's products and R&D strength
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
 - (5) analysis of advantages and disadvantages of the company's operation
 - (6) the company's investment, mergers and acquisitions
 - (7) analysis of the company's latest development trend
- 9.2.6 Sansd (Fujian) Plastic Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's products and R&D strength
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
 - (5) analysis of advantages and disadvantages of the company's operation
 - (6) the company's investment, mergers and acquisitions
 - (7) analysis of the company's latest development trend
- 9.2.7 Fuzhou Sanwei Rubber Chemical Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's products and R&D strength
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
 - (5) analysis of advantages and disadvantages of the company's operation
 - (6) the company's investment, mergers and acquisitions
 - (7) analysis of the company's latest development trend
- 9.2.8 Jinjiang Chengzhang Foam Rubber Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's products and R&D strength
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability

- (5) analysis of advantages and disadvantages of the company's operation
- (6) the company's investment, mergers and acquisitions
- (7) analysis of the company's latest development trend
- 9.2.9 Foshan Nanfang Rubber Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's products and R&D strength
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
 - (5) analysis of advantages and disadvantages of the company's operation
 - (6) the company's investment, mergers and acquisitions
 - (7) analysis of the company's latest development trend
- 9.2.10 Dongguan Chengxing Rubber Products Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's products and R&D strength
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
 - (5) analysis of advantages and disadvantages of the company's operation
 - (6) the company's investment, mergers and acquisitions
 - (7) analysis of the company's latest development trend
- 9.2.11 Shantou SEZ Jianxin Plastic Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's products and R&D strength
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
 - (5) analysis of advantages and disadvantages of the company's operation
 - (6) the company's investment, mergers and acquisitions
 - (7) analysis of the company's latest development trend
- 9.2.12 Wuxi Xingda Foam New Materials Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's products and R&D strength
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
 - (5) analysis of advantages and disadvantages of the company's operation
 - (6) the company's investment, mergers and acquisitions
 - (7) analysis of the company's latest development trend
- 9.2.13 Changzhou Adia Plastic Materials Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's products and R&D strength
 - (3) analysis of the company's sales channels and network

- (4) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
- (5) analysis of advantages and disadvantages of the company's operation
- (6) the company's investment, mergers and acquisitions
- (7) analysis of the company's latest development trend
- 9.2.14 Wuzhi Lihong Foam Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's products and R&D strength
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
 - (5) analysis of advantages and disadvantages of the company's operation
 - (6) the company's investment, mergers and acquisitions
 - (7) analysis of the company's latest development trend
- 9.2.15 Tianjin Daqiu Zhuang Foam Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's products and R&D strength
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
 - (5) analysis of advantages and disadvantages of the company's operation
 - (6) the company's investment, mergers and acquisitions
 - (7) analysis of the company's latest development trend
- 9.2.16 Tianjin Zhongtian Plastic Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's products and R&D strength
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
 - (5) analysis of advantages and disadvantages of the company's operation
 - (6) the company's investment, mergers and acquisitions
 - (7) analysis of the company's latest development trend
- 9.2.17 Armacell Insulation Materials (Suzhou) Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's products and R&D strength
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
 - (5) analysis of advantages and disadvantages of the company's operation

- (6) the company's investment, mergers and acquisitions
- (7) analysis of the company's latest development trend
- 9.2.18 Changzhou Qinglong Plastics Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's products and R&D strength
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
 - (5) analysis of advantages and disadvantages of the company's operation
 - (6) the company's investment, mergers and acquisitions
 - (7) analysis of the company's latest development trend
- 9.2.19 Xinxiang Zhongyuan Foam Products Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's products and R&D strength
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
 - (5) analysis of advantages and disadvantages of the company's operation
 - (6) the company's investment, mergers and acquisitions
 - (7) analysis of the company's latest development trend
- 9.2.20 Jinan Haifu Plastic Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's products and R&D strength
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
