

China Internet of Things(IOT) Industry Market Research and Application Field Report, 2013-2017

目 录

CONTENTS

Chapter 1: Summary of Internet of Things Industry in China

1.1 Summary of Internet of Things Industry

1.1.1 Related overview of Internet of Things Industry

- (1) Definition of Internet of Things Industry
- (2) Network Architecture of Internet of Things
- (3) Application Fields of Internet of Things
- (4) Basic Features of Internet of Things
- (5) Development of Internet of Things
- (6) Life cycle of Internet of Things Industry

1.1.2 Business Model Analysis of Internet of Things

- (1) Advertising Business Model Analysis
- (2) Content Business Model Analysis
- (3) Service Business Model Analysis
- (4) Special Business Model Analysis

1.2 Industrial Chain Analysis of Internet of Things Industry

1.2.1 Chain Composition of Internet of Things Industry

- (1) Terminal Equipment Providers
- (2) Network Equipment Providers
- (3) Software and Application Developers
- (4) System Integrators
- (5) Operators and Service Providers
- (6) Network Provider

1.2.2 Development Status of Internet of Things Industry

- (1) Development Status of Perception Layer of Industry
- (2) Development Status of Network Layer of Industry
- (3) Development Status of Application Fields of Industry

1.3 Development Environment Analysis of Internet of Things Industry

1.3.1 The policy environment analysis of IOT industry

- (1) The standard set case of IOT industry
- (2) Related policy interpretation of IOT industry
- (3) Interpretation of IOT Industry Development Plan

1.3.2 The economy environment analysis of IOT industry

- (1) Analysis of international macroeconomic environment
- (2) Analysis of domestic macroeconomic environment

1.3.3 The societal environment analysis of IOT industry

- (1) The core of IOT information industry development
- (2) Information security and privacy protection is the key issue
- (3) IOT is the strategic consensus of national development in the future

Chapter 2: Analysis of the Development Status of Global Internet of Things Industry

2.1 Analysis of the Development Status of International Industry

2.1.1 The analysis of international IOT industry development

2.1.2 International market analysis of the development of IOT

2.1.3 The Application Analysis of International IOT

2.1.4 The forecast analysis of International IOT market

2.2 Analysis of the Industry Development in Main Countries

2.2.1 The development analysis of IOT in U.S.

- (1) The development status analysis of IOT industry in U.S.
- (2) The technological superiority of IOT industry in U.S.
- (3) The application analysis of the IOT industry in U.S.

- (4) The policy plan of IOT industry in U.S.
- 2.2.2 The development analysis of IOT in Japan
 - (1) The development status analysis of IOT industry in Japan
 - (2) The R & D institutions of IOT industry in Japan
 - (3) IOT the applications of IOT in Japan
 - (4) The related policies of IOT industry in Japan
 - (5) Japan IOT industry development plan
- 2.2.3 The development analysis of IOT in Europe
 - (1) The development status analysis of IOT industry in Europe
 - (2) Application of IOT industry in Europe
 - (3) European action plan of IOT industry
 - 1) The development plan of IOT industry in European
- 2.2.4 The development analysis of IOT in Korea
 - (1) Development Status of IOT Industry In Korea
 - (2) The R & D institutions of IOT Industry in Korea
 - (3) The Application of IOT in Korea
 - (4) The Related Policies of IOT industry in Korea
 - (5) The Development Plan of IOT industry in Korea
- 2.2.5 International Experience in the Development of the IOT Industry
 - (1) The IOT Development Experiences of Major Countries
 - (2) Learn IOT Experience from International telecom operators
 - (3) Japanese IOT National Strategy Experience
 - (4) IBM implements IOT program experience

2.3 Analysis of the Industry Development Status in China

- 2.3.1 Chinese Internet of things industry development process
- 2.3.2 The Development Status of IOT in China
 - (1) The Structure Status of IOT industry in China
 - (2) Severe market competition in the upstream industry
 - (3) Basis Chip key components weak
 - (4) Applications are subject to various industry standards
- 2.3.3 Chinese IOT industry market size

2.4 China Internet of Things Industry Safety Issues Analysis

- 2.4.1 IOT Technical Safety Issues Analysis
 - (1) IOT Devices/Sensor Node Local Safety
 - (2) Sensor Network Transmitting and Information Security Issues
 - (3) Core Network Transmitting and Information Security Issues
 - (4) IOT Business Safety Issues
- 2.4.2 China Internet of Things Industry Security Issues Solutions Analysis
 - (1) Network security solutions
 - (2) Privacy Protection Measures
 - (3) Protect Measures of Secret Information

Chapter 3: China Internet of Things Industry Network Structure Market Analysis

3.1 Internet of Things Industry Sensor Layer Market Analysis

- 3.1.1 RFID Product Market Analysis
 - (1) RFID Market Scale Analysis
 - (2) RFID Product Market Analysis
 - (3) RFID Development Trends Analysis
 - (4) RFID applications analysis
- 3.1.2 Sensors Market Analysis
 - (1) Sensors market analysis
 - (2) Sensors Market Analysis
 - (3) Sensors application in IOT
- 3.1.3 Chip Market Analysis
 - (1) Safety class chip market analysis
 - (2) Communications chip market analysis
 - (3) Chips in the application of IOT.
- 3.1.4 Video Surveillance Equipment Market Analysis
 - (1) Surveillance Cameras Market Analysis
 - (2) Optical Monitoring Market Analysis

- (3) DVR market analysis
- (4) Network Video Server Market Analysis
