

China Home Appliance Circulation Industry Commercial Model and Investment Strategy Report, 2013–2017

目 录

CONTENTS

Chapter 1: Development Overview of Home Appliance Logistics Industry

- 1.1 Concept of Home Appliance Logistics Industry
 - 1.1.1 Definition of Home Appliance Logistics Industry
 - 1.1.2 Features of Home Appliance Logistics Industry
 - (1) Obvious Sales Season
 - (2) Huge Volume and Heavy Weight of Product
 - (3) Low Inventory Turnover Ratio
 - (4) Require Perfect Logistics Network
 - 1.1.3 Significance of Home Appliance Logistics
- 1.2 Analysis of Operation Procedure of Home Appliance Logistics
 - 1.2.1 Stage of Management for General Warehouse after Product Off-line
 - 1.2.2 Stage of Main Line Transportation
 - 1.2.3 Stage of Management for Distribution Center (DC)
 - 1.2.4 Stage of Regional Distribution
- 1.3 Analysis of Development Environment for Home Appliance Logistics Industry
 - 1.3.1 Analysis of Policy Environment for Industry
 - (1) Policies Related to Home Appliance Industry
 - (2) Policies Related to Logistics Industry
 - 1.3.2 Analysis of Economic Environment for Industry
 - (1) GDP Growth
 - (2) Industrial Economic Growth
 - (3) FAI
 - (4) PMI
 - (5) Non-manufacturing PMI
 - (6) Residents' Income
 - (7) Residents' Consumption Expending
 - 1.3.3 Analysis of Social Environment for Industry
 - (1) Reducing Cost for Improving Profits
 - (2) Rising of Third-Party Logistics (3PL)
 - (3) Delivery Requirement - Fast
 - 1.3.4 Analysis of Technology Environment for Industry
 - (1) Application of RFID in Home Appliance Logistics
 - (2) Informationalization Development of Warehousing Industry

Chapter 2: Analysis of Development of Industries Related to China Home Appliance Logistics

- 2.1 Analysis of Development of China Home Appliance Industry
 - 2.1.1 Development History of Home Appliance Industry
 - 2.1.2 Production and Marketing of Home Appliance Industry
 - 2.1.3 Competitive Landscape of Home Appliance Industry
 - 2.1.4 Sales Channel for Home Appliance Industry
 - 2.1.5 Current Problems in Home Appliance Industry
 - 2.1.6 Development Trend for Home Appliance Industry
- 2.2 Analysis of Development of China Logistics Industry
 - 2.2.1 Development Overview of Logistics Industry
 - (1) Stages of Logistics Industry
 - (2) Competition in Logistics Industry
 - (3) Profitability of Logistics Industry
 - 2.2.2 Construction of Logistic Infrastructure
 - (1) Construction of Road in China

- (2) Construction Railway in China
- (3) Construction of Waterway in China
- (4) Construction of Aviation in China
- 2.2.3 Analysis of Operating Index of Logistics Industry
 - (1) Growth of Total Amount of Logistics and Its Composition
 - (2) Growth of Total Logistics Expense and Its Composition
 - (3) Growth of Added Value of Logistics and Contribution
 - (4) Logistic FAI and Growth
 - (5) Logistics Statistics and Research for Key Companies in China

2.3 Analysis of Development of China Warehousing Industry

- 2.3.1 Analysis of Operation of Warehousing Enterprise
 - (1) Analysis of Main Income of Warehousing Enterprise
 - (2) Analysis of Operation Features of Warehousing Enterprise
 - (3) Analysis of Types of Warehouse for Warehousing Enterprise
- 2.3.2 Analysis of Market Competition in Warehousing Industry
 - (1) Analysis of Concentration of Warehousing Industry
 - (2) Analysis of Entry and Exit Barriers
 - (3) Analysis of Competition Structure of Warehousing Industry
- 2.3.3 Development of Logistic Park
 - (1) Construction of Logistic Park
 - (2) Problems in Logistic Park
 - (3) Profit Model for Logistic Park
- 2.3.4 Development of Warehousing Real Estate
 - (1) Development Size of Warehousing Real Estate
 - (2) Newly Increased Supply Volume of Warehousing Real Estate
 - (3) Development of Warehousing Leasing Business
- 2.3.5 Analysis of Home Appliance Warehousing Market
 - (1) Development Status of Home Appliance Warehousing
 - (2) Inventory Model for Home Appliance Warehousing
 - (3) Warehouse Layout of Home Appliance Warehousing
 - (4) Inventory Cost of Home Appliance Warehousing
 - (5) Informationization Construction of Home Appliance Warehousing

Chapter 3: Analysis of Operation Model for China Home Appliance Logistics Industry

3.1 Analysis of Development Status of Home Appliance Logistics Industry

- 3.1.1 Development Overview of Home Appliance Logistics
- 3.1.2 Analysis of Development Features of Home Appliance Logistics
 - (1) 3PL Suddenly Rise
 - (2) Improvement of Social Resource Utilization Rate
 - (3) Acceleration of Home Appliance Logistic Informationization
- 3.1.3 Analysis of Developmental Problems in Home Appliance Logistics

3.2 Analysis of Operation Model for Home Appliance Logistics Industry

- 3.2.1 3PL Model
- 3.2.2 Sub-4PL
- 3.2.3 Logistics Model for Manufacturing Enterprise
 - (1) Haier Logistics Model
 - (2) Annto Logistics Model
 - (3) TCL Logistics Model
 - (4) Attend Logistics Model
 - (5) Electrolux Logistics Model
- 3.2.4 Logistics Model for Circulation Enterprise
 - (1) Gome Logistics Model
 - (2) Suning Logistics Model

3.3 Analysis of Chain Distribution Model for Home Appliance Industry

- 3.3.1 Factor of Impacting Home Appliance Distribution Model
 - (1) Cost
 - (2) Service
 - (3) Environment
 - (4) Internal Factor
- 3.3.2 Distribution and Delivery Model for Home Appliance Chain

- 3.3.3 Centralized Distribution Model for Home Appliance Chain
- 3.3.4 Management and Distribution Model for Joint Management Inventory
- 3.4 Analysis of Home Appliance Distribution Model in Third and Fourth-tiers Markets**
 - 3.4.1 Analysis of Home Appliance Market in Third and Fourth-tiers Markets
 - 3.4.2 Home Appliance Distribution Status in Third and Fourth-tiers Markets
 - 3.4.3 Home Appliance Distribution Features of Third and Fourth-tiers Markets
 - 3.4.4 Home Appliance Distribution Model in Third and Fourth-tiers Markets
- 3.5 Distribution of Foreign Home Appliance Industry and Case Study**
 - 3.5.1 Analysis of Foreign Home Appliance Distribution Status
 - 3.5.2 Analysis of Foreign Home Appliance Distribution Trend
 - 3.5.3 Case Study of Foreign Home Appliance Distribution
 - (1) Distribution Management System for Philips
 - (2) Logistics Distribution for Samsung in S Korea

Chapter 4: Analysis of Construction of Home Appliance Distribution Center in China

- 4.1 Analysis of Development Status of Home Appliance Distribution Network**
 - 4.1.1 Regional Home Appliance Distribution Network
 - 4.1.2 Home Appliance Chain Distribution Network
- 4.2 Analysis of Operation of Home Appliance Logistics Distribution Center**
 - 4.2.1 Site Selection for Home Appliance Logistics Distribution Center
 - (1) Factors of Impact Site Selection
 - (2) Theories and Principles for Site Selection
 - 4.2.2 Functions of Home Appliance Distribution Center
 - 4.2.3 Work Flow of DC Functional Module
 - (1) Information Functional Module
 - (2) Entity Functional Module
 - 4.2.4 DC Management and Inventory Control
 - 4.2.5 DC Automated Warehouse Management
 - (1) Cooperative Work of Multi-warehouses
 - (2) Warehouse's Offer Quotation and Closing Quotation
 - (3) Product FIFO
 - (4) Keep Inventory Appropriately
 - (5) Alarm Out of Stock
 - (6) Statistics for Dead Stock
- 4.3 Analysis of Development of Home Appliance Reverse Logistics Distribution Center**
 - 4.3.1 Development Status of Reverse Distribution Center
 - (1) Imperfect Reverse Distribution Network
 - (2) Irrational Reverse Distribution Network
 - 4.3.2 Operating Function of Reverse Distribution Center
 - 4.3.3 Operating Flow of Reverse Distribution Center
 - 4.3.4 Site Selection for Reverse Distribution Center
 - (1) Steps for Site Selection
 - (2) Considering Factors of Site Selection
 - 4.3.5 Inventory Management for Reverse Distribution Center

Chapter 5: Analysis of Development of Home Appliance Reverse Logistics in China

- 5.1 Development Overview of China Reverse Logistics**
 - 5.1.1 Definition of Reverse Logistics
 - 5.1.2 Features of Reverse Logistics
 - (1) Dispersibility
 - (2) Slowness
 - (3) Hybridity
 - (4) Changeability
 - 5.1.3 Reasons for Reverse Logistics
 - (1) Return Due to Complaint
 - (2) End-of-use Return
 - (3) Commercial Return
 - (4) Maintenance Return
 - (5) Production Scrap and By-product
 - (6) Return of Packaging Product
 - 5.1.4 Disposal Process of Reverse Logistics

5.2 Analysis of Development Status of Home Appliance Reverse Logistics

- 5.2.1 Analysis of Home Appliance Life Cycle
- 5.2.2 Analysis of Composition of Home Appliance Reverse Logistics
- 5.2.3 Market Capacity for Home Appliance Reverse Logistics
- 5.2.4 Analysis of Flow of Home Appliance Reverse Logistics
- 5.2.5 Return Model for Home Appliance Reverse Logistics
 - (1) OEMT
 - (2) PROT
 - (3) TPT
- 5.2.6 Selection for Reverse Logistics Return Models

5.3 Analysis of Development of Reverse Logistics for Home Appliance Recall

- 5.3.1 Analysis of Market Status of Home Appliance Recall
- 5.3.2 Reverse Logistics Features of Home Appliance Recall
- 5.3.3 Cost Control for Recall Reverse Logistics

5.4 Analysis of Development of Reverse Logistics for Home Appliance Return

- 5.4.1 Causes for Reverse Logistics of Goods Return
- 5.4.2 Avoidance Problems in Reverse Logistics of Goods Return
- 5.4.3 Implementation Strategies for Reverse Logistics of Goods Return

5.5 Analysis of Development of Reverse Logistics of Waste Home Appliance Recycling

- 5.5.1 Necessity for Waste Home Appliance Recycling
- 5.5.2 Measures for Improving Reverse Logistics of Waste Home Appliance Recycling
- 5.5.3 Implementation Effectiveness of Reverse Logistics of Waste Home Appliance Recycling

Chapter 6: Analysis of Cost Management and Control of China Home Appliance Logistics**6.1 Analysis of Cost Composition for Home Appliance Logistics**

- 6.1.1 Cost Composition of Social Logistics
 - (1) Total Cost of Social Logistics
 - (2) Logistics Cost for Manufacturing Enterprise
 - (3) Logistics Cost for Circulation Enterprise
 - (4) Logistics Cost for Logistics Enterprise
- 6.1.2 Analysis of Composition of Logistics Cost
- 6.1.3 Home Appliance Logistics Cost Status

6.2 Analysis of Increment Factors for Home Appliance Logistics Cost

- 6.2.1 Per Capital Salary Going up
- 6.2.2 Traffic Transportation
- 6.2.3 Adding New Vehicle Requirement
- 6.2.4 Land Policy Requirement
- 6.2.5 Other Cost Factors

6.3 Analysis of Logistics Cost Control and Management for Home Appliance

- 6.3.1 Control for Human Resource Cost
- 6.3.2 Management and Control for Transportation
 - (1) Oil Price
 - (2) Traffic Line
 - (3) Packaging
- 6.3.3 Management for Inventory Cost
- 6.3.4 Management for Vehicle Cost
- 6.3.5 Management for Land Cost
- 6.3.6 Key Factors of Cost Management

6.4 Analysis of Logistics Cost Management and Control for Suning Electric Appliance

- 6.4.1 Management and Control for Procurement Cost
- 6.4.2 Management and Control for Inventory Goods
- 6.4.3 Management and Control for Distribution Cost

Chapter 7: Analysis of Operation of Competitive Enterprises in Home Appliance Logistics Industry**7.1 Annto Logistics Co., Ltd.**

- 7.1.1 Development Profile
- 7.1.2 Operation Information
- 7.1.3 Main Business
- 7.1.4 Service Customer
- 7.1.5 Logistics Equipment and Network

- 7.1.6 Operational Advantages and Disadvantages
- 7.1.7 Latest Development Trend

7.2 Attend Logistics Co., Ltd.

- 7.2.1 Development Profile
- 7.2.2 Main Business
- 7.2.3 Service Customer
- 7.2.4 Logistics Equipment and Network
- 7.2.5 Operational Advantages and Disadvantages
