

China Specialty Gas Industry Report (2013–2017), Market Demand and Investment Forecast

目 录

CONTENTS

Chapter 1: Overview of development of China's specialty gas industry

- 1.1 research methods and statistic standards of the industry
 - 1.1.1 overview of research methods of the industry
 - 1.1.2 data sources and statistical standards of the industry
- 1.2 definition of research of specialty gas industry
 - 1.2.1 definition of specialty gas industry
 - 1.2.2 classification of products of specialty gas
- 1.3 analysis of value chain of specialty gas industry
 - 1.3.1 introduction of value chain of specialty gas industry
 - 1.3.2 characteristics of value chain of specialty gas industry

Chapter 2: Analysis of market environment of China's specialty gas industry

- 2.1 analysis of policy environment of specialty gas industry
 - 2.1.1 regulatory regime of specialty gas industry
 - 2.1.2 regulations and policies of specialty gas industry
 - (1) national industrial policy
 - (2) production license system
 - (3) national and industrial standards
 - (4) related regulations of special gas
 - 2.1.3 related planning of specialty gas industry
- 2.2 analysis of economic environment of specialty gas industry
 - 2.2.1 analysis of the domestic macro economic environment
 - (1) analysis of GDP growth
 - (2) analysis of growth of industrial added value
 - (3) correlation between domestic macro economy and the industry
 - 2.2.2 analysis of macro economic environment of the industry
 - (1) life cycle of specialty gas industry
 - (2) scale of production and sales of specialty gas industry
 - (3) supply shortage of some specialty gases
- 2.3 analysis of social environment of specialty gas industry
 - 2.3.1 analysis of environmental protection issue of specialty gas industry
 - 2.3.2 analysis of safety issue of specialty gas industry
 - 2.3.3 analysis of logistics environment of specialty gas industry
- 2.4 analysis of technical environment of specialty gas industry
 - 2.4.1 analysis of chromatographic technology of specialty gas
 - 2.4.2 analysis of production technology of products of specialty gas
 - (1) production technology of high purity oxygen
 - (2) production technology of high purity nitrogen
 - (3) production technology of high-purity hydrogen
 - (4) production technology of high purity carbon dioxide
 - (5) production technology of high purity inert gas
 - 2.4.3 analysis of technical development of specialty gas industry
 - (1) technical level of specialty gas industry
 - (2) technical trends of specialty gas industry
 - 2.4.4 latest technical trend of specialty gas industry
 - (1) technical trend of the international specialty gas
 - (2) technical trend of the domestic specialty gas

Chapter 3: Analysis of China's market of specialty gas auxiliary equipment

- 3.1 overview of the development of ASU industry
 - 3.1.1 development course of ASU industry

3.1.2 characteristics of development of ASU industry

3.1.3 economic efficiency of ASU industry

3.1.4 competitive landscape of ASU industry

3.2 analysis of production and sales of ASU industry

3.2.1 production of ASU industry

(1) output of ASU industry

(2) industrial output of ASU industry

(3) supply trends of ASU industry

3.2.2 sales of ASU industry

(1) sales scale of ASU industry

(2) demand trends of ASU industry

3.3 analysis of other auxiliary equipment markets

3.3.1 analysis of production and sales of vacuum pump industry

(1) supply of vacuum pump industry

(2) demand of vacuum pump industry

3.3.2 analysis of production and sales of air compressor industry

(1) supply of air compressor industry

(2) demand of air compressor industry

3.3.3 analysis of production and sales of metal pressure vessel industry

(1) supply of metal pressure vessel industry

(2) demand of metal pressure vessel industry

3.3.4 analysis of production and sales of experimental analytical instruments industry

(1) supply of experimental analytical instruments industry

(2) demand of experimental analytical instruments industry

Chapter 4: Analysis of development of China's specialty gas industry

4.1 overview of development of specialty gas industry

4.1.1 development course of specialty gas industry

4.1.2 main features of specialty gas industry

4.1.3 status quo of development of specialty gas industry

4.1.4 operation of specialty gas industry in.....2012

(1) analysis of profitability capability of specialty gas industry

(2) analysis of operation capability of specialty gas industry

(3) analysis of solvency capability of specialty gas industry

(4) forecast of development capability of specialty gas industry

4.2 analysis of supply and demand balance of specialty gases industry

4.2.1 analysis of gross industrial output value of specialty gas industry

4.2.2 analysis of sales revenue of specialty gas industry

4.2.3 analysis of supply and demand balance of specialty gas industry

4.3 analysis of economic indicators of specialty gas industry

4.3.1 analysis of economic indicators of specialty gas industry in.....2012

4.3.2 analysis of economic indicators of enterprises of different scale in 2012-2013

(1) medium enterprises

(2) small enterprises

(3) analysis of proportion of economic indicators of enterprises of different scale over the

years

4.3.3 analysis of economic indicators of enterprises of different nature in.....2012

(1) state-owned enterprise

(2) collective enterprise

(3) joint-stock cooperative enterprise

(4) joint-stock company

(5) private enterprise

(6) foreign and Hong Kong, Macao and Taiwan-funded enterprises

(7) enterprise of other nature

(8) analysis of proportion of economic indicators of enterprises of different nature over the

years

Chapter 5: Analysis of competitive landscape of China's specialty gas industry

5.1 analysis of competition of the international specialty gas industry

5.1.1 overview of development trends of the international specialty gas industry

5.1.2 analysis of competitive landscape of the international specialty gas industry

- 5.1.3 investment strategy of the international specialty gas enterprises in China
- 5.1.4 investment layout of the international specialty gas enterprises in China
 - (1) Air Liquide Group
 - (2) Linde Group
 - (3) American Praxair Group
 - (4) American Air Products and Chemicals Group
 - (5) Japan Taiyo Nippon Sanso Group
 - (6) German Messer Group

5.2 analysis of competition of the domestic specialty gas industry

- 5.2.1 analysis of concentration of the domestic specialty gas industry
- 5.2.2 analysis of five-force model of the domestic specialty gas industry
 - (1) bargaining power of the upstream
 - (2) bargaining power of the downstream
 - (3) threat of new entrants
 - (4) threat of substitute products
 - (5) internal competition of the industry

Chapter 6: Analysis of operation of China's key specialty gas enterprises

6.1 overall operation of specialty gas enterprises

6.2 analysis of operation of key specialty gas enterprises

6.2.1 Hangzhou Hangyang Co., Ltd.

- (1) brief introduction of the company's development
- (2) analysis of the company's operation
 - 1) analysis of the company's economic indicators
 - (3))analysis of the company's profitability capability
 - (4))analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (5) analysis of the company's business of special gas
 - (6) the company's R&D strength and new product developments
 - (7) analysis of the company's gas supply mode
 - (8) the company's sales network and major customers
 - (9) SWOT analysis of the company's operation
 - (10) analysis of the company's latest development trend

6.2.2 Yingde Gases Group Company Limited

- (1) brief introduction of the company's development
- (2) analysis of the company's operation
 - 1) analysis of the company's economic indicators
 - (3))analysis of the company's profitability capability
 - (4))analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (5) analysis of the company's business of special gas
 - (6) the company's R&D strength and new product developments
 - (7) analysis of the company's gas supply mode
 - (8) the company's sales network and major customers
 - (9) SWOT analysis of the company's operation
 - (10) analysis of the company's latest development trend

6.2.3 Longkou Huadong Gases Co., Ltd.

- (1) brief introduction of the company's development
- (2) analysis of the company's operation
 - 1) analysis of the company's economic indicators
 - (3))analysis of the company's profitability capability
 - (4))analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (5) analysis of the company's business of special gas
 - (6) the company's sales network and major customers
 - (7) analysis of advantages and disadvantages of the company's operation

6.2.4 Jinan Baode Gas Co., Ltd.

- (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - 1) analysis of the company's economic indicators
 - (3))analysis of the company's profitability capability
 - (4))analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (5) analysis of the company's business of special gas
 - (6) the company's sales network and major customers
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend
- 6.2.5 Liquefied Air Shanghai Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - 1) analysis of the company's economic indicators
 - (3))analysis of the company's profitability capability
 - (4))analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (5) analysis of the company's business of special gas
 - (6) the company's sales network and major customers
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend

there are another 25 enterprises

Chapter 7: Analysis of product markets of China's specialty gas industry

7.1 analysis of electronic gas market

- 7.1.1 overview of electronic gas market
 - (1) concept of electronic gas
 - (2) types of electronic gas
 - (3) purity of electronic gas
- 7.1.2 status quo of application of electronic gas market
- 7.1.3 analysis of market demand for electronic gas
 - (1) demand in the field of integrated circuits
 - (2) demand in the field of LED
 - (3) demand in the field of solar cells
 - (4) demand in the field of semiconductor lighting
 - (5) the field in the field of optical fiber and cable
- 7.1.4 analysis of market of electronic gas products
 - (1) high-purity silane market
 - (2) fluorinated specialty gas market
- 7.1.5 analysis of competition in electronic gas market
 - (1) producers of electronic gas
 - (2) landscape of electronic gas market
- 7.1.6 localization process of electronic gas market
- 7.1.7 analysis of problems of electronic gas market
- 7.1.8 development trends of electronic gas market

7.2 analysis of calibration gas market

- 7.2.1 overview of calibration gas market
 - (1) concept of calibration gas
 - (2) type of calibration gas
- 7.2.2 status quo of application of calibration gas market
- 7.2.3 analysis of market demand for calibration gas
- 7.2.4 corporate structure of calibration gas market
- 7.2.5 analysis of problems of calibration gas market
- 7.2.6 development trends of calibration gas market

7.3 analysis of medical gas market

- 7.3.1 overview of medical gas market
 - (1) concept of medical gas
 - (2) type of medical gas

- 7.3.2 status quo of application of medical gas market
- 7.3.3 analysis of market demand for medical gas
- 7.3.4 analysis of security of medical gas system
- 7.3.5 development trends of medical gas market

7.4 marketing strategy of specialty gas

- 7.4.1 product strategy of specialty gas
- 7.4.2 service strategy of specialty gas
- 7.4.3 value strategy of corporate staff
- 7.4.4 value strategy of brand

Chapter 8: Analysis of downstream demand of China's specialty gas industry

8.1 analysis of demand in refining industry

- 8.1.1 analysis of scale of development of refining industry
 - (1) quantity of enterprises
 - (2) scale of asset liability
- 8.1.2 analysis of scale of production and sales of refining industry
 - (1) growth of total industrial output value
 - (2) growth of sales revenue of the industry
- 8.1.3 status quo of application of specialty gas in refining industry
- 8.1.4 analysis of demand for specialty gas in refining industry

8.2 analysis of demand in chemical industry

- 8.2.1 analysis of scale of development of chemical industry
 - (1) quantity of enterprises
 - (2) scale of asset liability
- 8.2.2 analysis of scale of production and sales of chemical industry
 - (1) growth of total industrial output value
 - (2) growth of sales revenue of the industry
- 8.2.3 status quo of application of specialty gas in chemical industry
- 8.2.4 analysis of demand for specialty gas in chemical industry

8.3 analysis of demand in metallurgical industry

- 8.3.1 analysis of scale of development of metallurgical industry
 - (1) quantity of enterprises
 - (2) scale of asset liability
- 8.3.2 analysis of scale of production and sales of metallurgical industry
 - (1) growth of total industrial output value
 - (2) growth of sales revenue of the industry
- 8.3.3 status quo of application of specialty gas in metallurgical industry
- 8.3.4 analysis of demand for specialty gas in metallurgical industry

8.4 analysis of demand in electronic device industry

- 8.4.1 analysis of scale of development of electronic device industry
 - (1) quantity of enterprises
 - (2) scale of asset liability
- 8.4.2 analysis of scale of production and sales of electronic device industry
 - (1) growth of total industrial output value
 - (2) growth of sales revenue of the industry
- 8.4.3 status quo of application of specialty gas in electronic device industry
- 8.4.4 analysis of demand for specialty gas in electronic device industry

8.5 analysis of demand in medical institution industry

- 8.5.1 analysis of scale of development of medical institution industry
 - (1) quantity of institutions
 - (2) scale of asset liability
- 8.5.2 analysis of income scale of medical institution industry
- 8.5.3 analysis of operating efficiency of medical institution industry
 - (1) analysis of profitability capability of medical institution
 - (2) analysis of operation capability of medical institution
 - (3) analysis of solvency capability of medical institution
 - (4) analysis of development capability of medical institution
- 8.5.4 analysis of outpatient services of medical institution industry
 - (1) statistics of attendances of medical institution
 - (2) statistics of outpatient services of medical institution

8.5.5 analysis of in-patient service of medical institution industry

- (1) statistics of admissions of medical institution
- (2) statistics of inpatient services of medical institution

8.5.6 analysis of utilization of beds in medical institution industry

8.5.7 service quality and efficiency of medical institution industry

8.6 analysis of demand in urban environmental protection industry

8.6.1 overview of development of urban environmental protection industry

- (1) overview of development of urban environmental protection industry
- (2) characteristics of development of urban environmental protection industry

8.6.2 analysis of scale of development of urban environmental protection industry

- (1) quantity of enterprises
- (2) scale of asset liability

8.6.3 analysis of income scale of urban environmental protection industry

- (1) sales revenue of urban environmental protection
- (2) scale of environmental protection service market

8.6.4 analysis of operation of urban environmental protection industry

- (1) analysis of operation efficiency of urban environmental protection industry
- (2) analysis of profitability capability of urban environmental protection industry
- (3) analysis of operation capability of urban environmental protection industry
- (4) analysis of solvency capability of urban environmental protection industry
- (5) analysis of development capability of urban environmental protection industry

8.6.5 status quo of application of specialty gas in urban environmental protection industry

8.6.6 analysis of demand for specialty gas in urban environmental protection industry

8.7 analysis of demand in solar cell industry

8.7.1 overview of development of solar cell industry

- (1) overview of development of solar cell industry
- (2) characteristics of development of solar cell industry

8.7.2 analysis of scale of development of solar cell industry

- (1) quantity of enterprises
- (2) scale of asset liability

8.7.3 analysis of scale of production and sales of solar cell industry

- (1) growth of total industrial output value
- (2) growth of sales revenue of the industry

8.7.4 analysis of operation of solar cell industry

- (1) analysis of operation efficiency of solar cell industry
- (2) analysis of profitability capability of solar cell industry
- (3) analysis of operation capability of solar cell industry
- (4) analysis of solvency capability of solar cell industry
- (5) analysis of development capability of solar cell industry

8.7.5 status quo of application of specialty gas in solar cell industry

8.7.6 analysis of demand for specialty gas in solar cell industry

8.8 analysis of demand in quality inspection industry

8.8.1 development course of quality inspection industry

8.8.2 analysis of characteristics of development of quality inspection industry

8.8.3 analysis of scale of development of quality inspection industry

- (1) overall scale of quality inspection industry
- (2) scale of domestic quality inspection business
- (3) scale of foreign quality inspection business

8.8.4 status quo of application of specialty gas in quality inspection industry

8.8.5 analysis of demand for specialty gas in quality inspection industry

Chapter 9: Investment of China's specialty gas industry and forecast

9.1 analysis of risks of investment of specialty gas industry

- 9.1.1 macroeconomic risk of specialty gas industry
- 9.1.2 risk of policy changes of specialty gas industry
- 9.1.3 risk of R & D of specialty gas industry
- 9.1.4 risk of market competition of specialty gas industry
- 9.1.5 risk of related products of specialty gas industry
- 9.1.6 other risks of specialty gas industry

9.2 analysis of characteristics of investment of specialty gas industry

- 9.2.1 analysis of entry barriers of specialty gas industry
- 9.2.2 analysis of profit model of specialty gas industry
- 9.2.3 analysis of profit factor of specialty gas industry
- 9.3 analysis of status quo of investment of specialty gas industry**
 - 9.3.1 investment entities of specialty gas industry
 - 9.3.2 status quo of investment of specialty gas industry
 - 9.3.3 investment trend of specialty gas industry
- 9.4 forecast of development of specialty gas industry**
 - 9.4.1 development trends of specialty gas industry
 - 9.4.2 forecast of scale of specialty gas industry
 - (1) forecast of the overall scale of the industry
 - (2) forecast of profit level of the industry
