

China Productive Forces Promotion Center Report (2016–2021), Development Pattern and Investment Strategy Planning

目 录

CONTENTS

Chapter 1: Analysis of the development process of productivity promotion center

1.1 analysis of the start-up phase of productivity promotion center

- 1.1.1 analysis of landmark development events
- 1.1.2 development effectiveness and experience summary
- 1.1.3 analysis of development characteristics of the start-up phase

1.2 analysis of the acceleration phase of productivity promotion center

- 1.2.1 analysis of landmark development events
- 1.2.2 development effectiveness and experience summary
- 1.2.3 analysis of development characteristics of the acceleration phase

1.3 analysis of the upgrade phase of productivity promotion center

- 1.3.1 analysis of landmark development events
- 1.3.2 development effectiveness and experience summary
- 1.3.3 analysis of development characteristics of the upgrade stage

1.4 analysis of the leaping phase of productivity promotion center

- 1.4.1 analysis of landmark development events
- 1.4.2 development effectiveness and experience summary
- 1.4.3 analysis of development characteristics of the leaping phase

1.5 analysis of development plan of productivity promotion center

- 1.5.1 analysis of major development plan of productivity promotion center
- 1.5.2 analysis of main problems of productivity promotion center
- 1.5.3 analysis of development direction of productivity promotion center

Chapter 2: Analysis of development scale of productivity promotion center

2.1 analysis of the status quo of productivity promotion center

- 2.1.1 analysis of construction scale of productivity promotion center
- 2.1.2 analysis of construction layout of productivity promotion center
 - (1) regional distribution of productivity promotion center
 - (2) regional patterns of productivity promotion center
 - (3) regional distribution of productivity center demonstrations
- 2.1.3 analysis of construction methods of productivity promotion center
 - (1) analysis of legal composition
 - (2) analysis of establishment method
 - (3) analysis of business property
 - (4) analysis of geographical attributes
- 2.1.4 analysis of employees of productivity promotion center
 - (1) analysis of practitioner scale
 - (2) analysis of age structure of employees
 - (3) analysis of educational structure of employees
 - (4) analysis of title structure of employees

2.2 analysis of asset size and investment of productivity promotion center

- 2.2.1 analysis of asset size of productivity promotion center
 - (1) analysis of asset size of China Productivity Promotion Center
 - (2) analysis of asset size of national demonstration productivity promotion centers
- 2.2.2 analysis of investment amount of productivity promotion center
 - (1) about 50 % of the total investment comes from government investment
 - (2) the increase of MOST funding
 - (3) investment into national demonstration productivity promotion centers

2.3 analysis of services and income scale of productivity promotion center

- 2.3.1 services and income scale of national productivity promotion centers
- 2.3.2 services and income scale of national demonstration productivity promotion centers

2.4 analysis of operation performance of productivity promotion center

2.4.1 the quantity of service enterprises

2.4.2 situation of national productivity promotion centers

to carry out services

(1) the quantity of service enterprises

(2) situation of contacting scientific research institutions and experts

(3) cooperation with the international and Hong Kong, Macao and Taiwan

(4) situation of increasing revenue for enterprises and increasing employment for the society

2.4.3 situation of national demonstration productivity promotion centers to carry out services

Chapter 3: Analysis of development model of productivity promotion center

3.1 analysis of establishment models of productivity promotion center

3.1.1 analysis of establishment model of government functions + market formation

3.1.2 analysis of establishment model of technical resources + market formation

3.1.3 analysis of collaborative establishment model

3.2 analysis of basic development models of productivity promotion center

3.2.1 from the perspective of participating in technology innovation with companies

(1) analysis of front-end refinement model

(2) analysis of intermediate refinement model

(3) analysis of end push model

(4) analysis of head and tail interaction mode

(5) analysis of whole-process auxiliary pattern

3.2.2 from the perspective of service receivers

(1) analysis of service model for small and medium industrial enterprises

(2) analysis of service model for large industrial enterprises

(3) analysis of service model for modern agriculture

(4) analysis of service model to improve the modern service industry

3.2.3 from the perspective of main means of service innovation

(1) analysis of platform service-oriented model

(2) analysis of professional and technical service model

(3) analysis of intelligence counseling service model

(4) analysis of innovative element service model

(5) analysis of preferential policy port model

3.2.4 from the perspective of the organizational structure of productivity promotion centers

(1) analysis of comprehensive organization service model

(2) analysis of regional (professional) specialty service model

(3) analysis of comprehensive and professional interaction service model

(4) analysis of industry association service model

(5) analysis of profit and non-profit service model

3.3 analysis of the potential crisis facing productivity promotion centers

3.3.1 analysis of the crisis of development environment

3.3.2 analysis of the crisis of value selection

3.3.3 analysis of the crisis of the structure

3.3.4 analysis of the crisis of target

3.3.5 analysis of the crisis of transformation

3.3.6 analysis of the crisis of interaction

3.4 analysis of development strategies of productivity promotion centers

3.4.1 analysis of development strategy choice

3.4.2 analysis of development tactics choice

Chapter 4: Analysis of services of productivity promotion center

4.1 analysis of industrial subcontracting service

4.1.1 analysis of development background and development trends of international industrial subcontracting

4.1.2 analysis of industrial subcontracting business

4.1.3 innovation path of industrial subcontracting business

(1) analysis of the purpose of industrial subcontracting business

(2) analysis of the content of industrial subcontracting business

(3) analysis of the time of industrial subcontracting business

(4) analysis of the location of industrial subcontracting business

(5) Analysis of main parties of industrial subcontracting business

- (6) analysis of the methods of industrial subcontracting business
- 4.1.4 development advice for industrial subcontracting business
- 4.2 analysis of technology transfer service**
 - 4.2.1 analysis of background to carry out technology transfer service
 - 4.2.2 analysis of typical case of technology transfer service
 - 4.2.3 analysis of problems of technology transfer service
 - 4.2.4 analysis of solutions for technology transfer service
- 4.3 analysis of technology consulting service**
 - 4.3.1 analysis of background to carry out technology consulting service
 - 4.3.2 analysis of typical case of technology consulting service
 - 4.3.3 analysis of problems of technology consulting service
 - 4.3.4 analysis of solutions for technology consulting service
