

China Construction Equipment Leasing Industry Market Research and Investment Forecast Analysis Report, 2013-2017

目 录

CONTENTS

Chapter 1: Summary of development of construction equipment rental industry

1.1 Ranges and the main forms of construction equipment rental

- 1.1.1 Construction Equipment Leasing ranges
- 1.1.2 Main forms of construction equipment leasing
 - (1) Analysis of business leasing model
 - (2) Analysis of financial leasing model
 - (3) Analysis of leveraged leasing model
 - (4) Analysis of sub-leasing model
 - 1) Analysis of leasing-back model

1.2 Development inevitability of Construction Equipment Leasing

- 1.2.1 Superiority of construction equipment rental
- 1.2.2 Inevitability of Construction Equipment Leasing
- 1.2.3 Development path of construction equipment leasing

Chapter 2: Analysis of construction equipment rental industry' s development environment

2.1 Analysis of construction equipment rental industry' s economic environment

- 2.1.1 GDP growth analysis
- 2.1.2 Analysis of investment in fixed assets

2.2 Financial Environmental Analysis of Construction Equipment Leasing Industry

- 2.2.1 Financial Market Analysis
- 2.2.2 Changes in RMB lending rate
- 2.2.3 RMB exchange rate fluctuations
- 2.2.4 Forecasts for the central bank' s monetary policies

2.3 Analysis of policy environment of construction equipment rental industry

- 2.3.1 Regulatory environment of the construction equipment rental industry
- 2.3.2 Legal environment of construction equipment rental industry
- 2.3.3 Accounting environment of construction equipment rental industry
- 2.3.4 Tax revenue environment of construction equipment rental industry

2.4 Analysis of the environment of construction equipment rental industry

- 2.4.1 Analysis of financial leasing industry' s development Status
- 2.4.2 Analysis of financial leasing industry' s market size
- 2.4.3 Analysis of the financial leasing industry' s market penetration
- 2.4.4 Analysis of financial leasing industry' s competition
- 2.4.5 Analysis of financial leasing industry' s booming level
 - (1) Status quo

Chapter 3: Analysis of status quo of building material leasing industry

3.1 Analysis of status quo of steel formwork leasing industry

- 3.1.1 Development of steel formwork rental industry
- 3.1.2 Quo Analysis of steel template technology
 - (1) , Quantity of steel formwork technology patent applications
 - (2) , Analysis of steel formwork technology patent applicants
 - (3) , Analysis of steel formwork' s popular technology development
- 3.1.3 Steel formwork rental industry' s market capacity
 - (1) , Analysis of the demand capacity of China' s steel template
 - (2) , Analysis of the market capacity of steel template
- 3.1.4 Classification of steel formwork rental industry' s enterprises
- 3.1.5 Development trends of steel template leasing industry
- 3.1.6 Prospects for steel template rental industry

3.2 Analysis of scaffolding rental industry' s status quo

- 3.2.1 Application features of scaffolding rental products

- 3.2.2 Analysis of status quo of scaffolding technology
 - (1) , Quantity of scaffolding technology patent applications
 - (2) , Analysis of scaffolding technology patent applicants
 - (3) , Analysis of scaffolding' s popular technology development
- 3.2.3 Scaffolding rental industry' s market capacity
 - (1) , Analysis of the demand capacity of China' s scaffolding
 - (2) , Analysis of the market capacity of scaffolding e
- 3.2.4 Classification of steel formwork rental industry' s enterprises
- 3.2.5 Development trends of scaffolding leasing industry
- 3.2.6 Prospects for scaffolding rental industry

Chapter 4: Analysis of construction machinery leasing industry' s status quo

4.1 Overview of construction machinery leasing industry

- 4.1.1 Development process of construction machinery rental market
- 4.1.2 Analysis of development stages of construction machinery leasing
- 4.1.3 Analysis of the difference between domestic and international leasing market
- 4.1.4 Construction machinery rental market' s development features

4.2 Construction machinery rental market' s operation

- 4.2.1 Development scale of construction machinery rental market
 - (1) Analysis of construction machinery rental market' s penetration
 - (2) Analysis of construction machinery rental business
 - (3) Analysis of ownership of construction machinery rental equipment
 - (4) Analysis of the scale of construction machinery rental market
 - (5) Analysis of construction machinery rental market capacity
- 4.2.2 Analysis of operation of construction machinery leasing industry
 - (1) Analysis of construction machinery rental equipment' s rental rate
 - (2) Analysis of construction machinery and equipment' s rental price
 - (3) Analysis of capital return of construction machinery rental industry

4.3 Construction machinery rental industry' s competition

- 4.3.1 Different types of competition between enterprises
 - (1) Analysis of types of leasing companies
 - (2) Analysis of different types of enterprises' share
 - (3) Analysis of advantages and disadvantages of various types of enterprises
- 4.3.2 Competition between enterprises of different sizes
 - (1) Analysis of shares of enterprises with different asset size
 - (2) Analysis of shares of enterprises with different machine quantities
 - (3) Analysis of shares of enterprises with different registered capital
- 4.3.3 Competition among enterprises of different natures
 - (1) Analysis of shares of enterprises with different natures
 - (2) Analysis of advantages and disadvantages of each type of enterprises
- 4.3.4 Analysis of industry brands' competition
 - (1) Competition level will rise to brand competition
 - (2) Analysis of the industry' s major brands
- 4.3.5 Trends of the industry' s Investment and mergers and acquisitions
 - (1) Status quo of the industry' s Investment and mergers and acquisitions
 - (2) Trends of the industry' s Investment and mergers and acquisitions
