China Calcium Carbide Industry Report 2016-2021, Market Demand, Transformation and Upgrade

目 录

CONTENTS

Chapter 1: Background of development of China's calcium carbide industry
1.1 background and methods of research of calcium carbide industry
1.1.1 background of research of the industry
1.1.2 significance of research of the industry
1.1.3 methods of research of the industry
1.2 analysis of policy environment of calcium carbide industry
1.2.1 regulatory regime of the industry
1.2.2 related policies of the industry
(1) "Guiding Catalog of Industrial Structure Adjustment"
(2) "Notice on accelerating the restructuring of industry overcapacity "
(3) "Notice on related advice for speeding up the restructuring of calcium carbide industry"
(4) " Access for calcium carbide industry"
(5) "Advice on improving differential electricity pricing policy"
(6) "Notice on issues to further implement differential electricity pricing policy"
(7) "Opinions on curbing overcapacity and duplication construction in some industries to guide the healthy development of the industry"
(8) "Notice on the strengthening of project management of coal chemical industry to promote the healthy development of the industry"
(9) "Notice on issues to encourage the use of carbide slag to produce cement"
1.2.3 related planning of the industry
(1) " Twelfth- five year development plan of calcium carbide industry"
(2) " Twelfth- five year development plan of chlor-alkali industry"
1.2.4 policy outlook of the industry
1.3 analysis of economic environment of calcium carbide industry
1.3.1 analysis of the international macro economic environment
1.3.2 analysis of the domestic macro economic environment
(1) China's GDP growth
(2) scale of fixed asset investment
(3) growth of industrial added value
1.3.3 analysis of correlation between the industry and macro economy
1.4 analysis of social environment of calcium carbide industry
1.4.1 coordination between social economy and the development of the industry
1.4.2 environmental issues facing the development of the industry
1.4.3 impact of energy supply on the development of the industry
Chapter 2: overview of the development of calcium carbide industry
2.1 overview of calcium carbide industry
2.1.1 definition of calcium carbide industry
2.1.2 analysis of industrial chain of calcium carbide industry
2.1.3 analysis of the status of calcium carbide industry
2.2 analysis of supply and demand of calcium carbide industry
2.2.1 analysis of production of calcium carbide industry
(1) production capacity of calcium carbide
(2) output of calcium carbide
(3) utilization rate of production capacity of calcium carbide
2.2.2 analysis of consumption of calcium carbide industry
2.2.3 analysis of import and export of calcium carbide industry
(1) import volume of calcium carbide
(2) export volume of calcium carbide
2.3 analysis of competition of calcium carbide industry

2.3.1 analysis of competitive landscape of calcium carbide industry
(1) total quantity of manufacturing enterprises of calcium carbide industry
(2) distribution of manufacturing enterprises of calcium carbide industry
2.3.2 analysis of concentration of calcium carbide industry
2.3.3 analysis of bargaining power of calcium carbide industry
(1) bargaining power of the upstream
(2) bargaining power of the downstream
2.3.4 analysis of potential treats of calcium carbide industry
(1) treat of potential entrants
(2) analysis of substitutes
2.4 restructuring of calcium carbide industry
2.4.1 policy orientation of structural adjustment of calcium carbide industry
2.4.2 effectiveness of readjustment of production of calcium carbide industry
(1) readjustment of production of calcium carbide industry
(2) change of the organizational structure of calcium carbide industry
(3) elimination of backward production capacity of calcium carbide industry
2.4.3 space of restructuring of calcium carbide industry
2.4.4 focus of restructuring of calcium carbide industry
2.5 analysis of market price of calcium carbide industry
2.5.1 constitutes of market price of calcium carbide
2.5.2 factors affecting market price of calcium carbide
2.5.3 review of market price of calcium carbide in recent years
2.5.4 forecast of market price trend of calcium carbide
Chapter 3: analysis of upstream raw materials and energy market of calcium carbide industry
3.1 analysis of supply and demand and price of China's coal market
3.1.1 distribution of coal resources
(1) coal reserves
(2) regional distribution of coal resources
3.1.2 coal production
3.1.3 coal sales
3.1.4 coal price trend
3.1.5 forecast of supply and demand trend of coal market
3.1.6 impact of coal market changes on calcium carbide industry
3.2 analysis of supply and demand and price of China's lime market
3.2.1 distribution of China's lime resources
(1) lime reserves
(2) regional distribution of lime resources
3.2.2 lime production
3.2.3 lime sales
3.2.4 lime price trend
3.2.5 forecast of supply and demand trend of lime market
3.2.6 impact of lime market changes on calcium carbide industry
3.3 analysis of supply and demand and price of China's electricity market
3.3.1 electricity production
3.3.2 electricity consumption
3.3.3 electricity price trend
3.3.4 forecast of supply and demand trend of electricity market
3.3.5 impact of electricity market changes on calcium carbide industry
Chapter 4: distribution of downstream demand of calcium carbide industry and prospects
4.1 distribution of downstream demand of calcium carbide industry
4.1.1 major downstream demand of calcium carbide
4.1.2 distribution of downstream demand of calcium carbide
4.2 forecast of demand for calcium carbide in PVC industry
4.2.1 status quo of development of PVC industry and prospects
(1) analysis of PVC production
(2) analysis of PVC consumption
(3) forecast of PVC industry
4.2.2 analysis of development of PVC production by calcium carbide process

(1) advantages and disadvantages of PVC production by calcium carbide process
(2) analysis of PVC output by calcium carbide process
(3) share of the total amount of calcium carbide in PVC production by calcium carbide process
(4) analysis of cost of PVC production by calcium carbide process
4.2.3 forecast of demand for calcium carbide in PVC industry
4.3 forecast of demand for calcium carbide in PVA industry
4.3.1 status quo of development of PVA industry and prospects
(1) analysis of PVA production
(2) analysis of PVA consumption
(3) forecast of PVA industry
4.3.2 analysis of development of PVA production by calcium carbide acetylene process
(1) advantages and disadvantages of PVA production by calcium carbide acetylene process
(2) analysis of PVC output by calcium carbide acetylene process
(3) share of the total amount of calcium carbide in PVC production by calcium carbide acetylene process
(4) analysis of cost of PVC production by calcium carbide carbide process
4.3.3 forecast of demand for calcium carbide in PVA industry
4.4 forecast of demand for calcium carbide in neoprene industry
4.4.1 status quo of development of neoprene industry and prospects
(1) analysis of neoprene production
(2) analysis of neoprene consumption
(3) forecast of neoprene industry
4.4.2 consumption volume of calcium carbide in neoprene industry
4.4.3 forecast of demand for calcium carbide in neoprene industry
4.5 forecast of demand for calcium carbide in lime nitrogen industry
4.5.1 status quo of development of lime nitrogen industry and prospects
(1) analysis of lime nitrogen production
(2) analysis of lime nitrogen consumption
(3) forecast of lime nitrogen industry
4.5.2 consumption volume of calcium carbide in lime nitrogen industry
4.5.3 forecast of demand for calcium carbide in lime nitrogen industry
4.6 forecast of demand for calcium carbide in steel desulfurization industry
4.6.1 status quo of development of steel desulfurization industry and prospects
(1) emissions of sulfur dioxide in steel industry
(2) level of desulfurization technology of steel industry
(3) forecast of steel desulfurization industry
4.6.2 consumption volume of calcium carbide in steel desulfurization industry
4.6.3 forecast of demand for calcium carbide in steel desulfurization industry
Chapter 5: analysis of development of technology of calcium carbide industry
5.1 production process of calcium carbide industry
5.1.1 major production technology of calcium carbide
(1) electric furnace melting method
(2) thermal oxide method
5.1.2 level of China's calcium carbide production process
5.1.3 progress of R&D of China's calcium carbide production process
5.1.4 development direction of China's calcium carbide production process
5.2 equipment and technology of China's calcium carbide industry
5.2.1 types of calcium carbide production equipment
(1) open-type calcium carbide furnace
(2) combustion-type calcium carbide furnace
(3) closed-type calcium carbide furnace
5.2.2 equipment and technology of China's calcium carbide industry
5.2.3 development direction of equipment and technology of China's calcium carbide industry
5.3 analysis of energy saving and emission reduction of China's calcium carbide industry
5.3.1 main pollution factors of calcium carbide production
5.3.2 energy consumption of calcium carbide production
5.3.3 technical level of energy saving and emission reduction of China's calcium carbide industry
5.3.4 innovation and application of energy saving technology of China's calcium carbide industry
5.4 comprehensive utilization of waste during production of calcium carbide

5.4.1 waste during production of calcium carbide - use of calcium carbide slag
5.4.2 technical progress of use of calcium carbide slag as raw materials of cement clinker
(1) development of carbide slag dewatering technology
(2) technical progress of use of calcium carbide slag in cement clinker
5.4.3 technical progress of use of calcium carbide slag for baking-free brick
5.4.4 technical progress of use of calcium carbide slag to replace limestone as desulfurization agent
Chapter 6: analysis of market of calcium carbide industry in key regions
6.1 analysis of regional structure of calcium carbide industry
6.2 analysis of development of calcium carbide industry in Inner Mongolia
6.2.1 distribution of raw materials resources of calcium carbide in Inner Mongolia
(1) distribution of coal resources
(2) distribution of lime resources
6.2.2 status quo of development of calcium carbide industry in Inner Mongolia
6.2.3 analysis of competitiveness of calcium carbide industry in Inner Mongolia
(1) the status of Inner Mongolian calcium carbide industry in the country
(2) analysis of competition of manufacturing enterprises of calcium carbide in Inner Mongolia
6.2.4 development planning and related policies of calcium carbide in Inner Mongolia
6.2.5 forecast of development of calcium carbide industry in Inner Mongolia
6.3 analysis of development of calcium carbide industry in Ningxia
6.3.1 distribution of raw materials resources of calcium carbide in Ningxia
(1) distribution of coal resources
(2) distribution of lime resources
6.3.2 status quo of development of calcium carbide industry in Ningxia
6.3.3 analysis of competitiveness of calcium carbide industry in Ningxia
(1) the status of Ningxia's calcium carbide industry in the country
(2) analysis of competition of manufacturing enterprises of calcium carbide in Ningxia
6.3.4 development planning and related policies of calcium carbide in Ningxia
6.3.5 forecast of development of calcium carbide industry in Ningxia
6.4 analysis of development of calcium carbide industry in Shaanxi
6.4.1 distribution of raw materials resources of calcium carbide in Shaanxi
(1) distribution of coal resources
(2) distribution of lime resources
6.4.2 status quo of development of calcium carbide industry in Shaanxi
6.4.3 analysis of competitiveness of calcium carbide industry in Shaanxi
(1) the status of Shaanxi's calcium carbide industry in the country
(2) analysis of competition of manufacturing enterprises of calcium carbide in Shaanxi
6.4.4 development planning and related policies of calcium carbide in Shaanxi
6.4.5 forecast of development of calcium carbide industry in Shaanxi
6.5 analysis of development of calcium carbide industry in Xinjiang
6.5.1 distribution of raw materials resources of calcium carbide in Xinjiang
(1) distribution of coal resources
(2) distribution of lime resources
6.5.2 status quo of development of calcium carbide industry in Xinjiang
6.5.3 analysis of competitiveness of calcium carbide industry in Xinjiang
(1) the status of Xinjiang's calcium carbide industry in the country
(2) analysis of competition of manufacturing enterprises of calcium carbide in Xinjiang
6.5.4 development planning and related policies of calcium carbide in Xinjiang
6.5.5 forecast of development of calcium carbide industry in Xinjiang
6.6 analysis of development of calcium carbide industry in Gansu
6.6.1 distribution of raw materials resources of calcium carbide in Gansu
(1) distribution of coal resources
(2) distribution of lime resources
6.6.2 status quo of development of calcium carbide industry in Gansu
6.6.3 analysis of competitiveness of calcium carbide industry in Gansu
(1) the status of Gansu's calcium carbide industry in the country
(2) analysis of competition of manufacturing enterprises of calcium carbide in Gansu
6.6.4 development planning and related policies of calcium carbide in Gansu
6.6.5 forecast of development of calcium carbide industry in Gansu

Chapter 7: analysis of operation of major enterprises of China's calcium carbide industry
7.1 overall development of China's calcium carbide enterprises
7.2 case study of leading enterprises of China's calcium carbide industry
7.2.1 Chemical Plant of Xinjiang Tianye Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's operation
(3) analysis of the company's product structure
(4) analysis of the company's sales channels and network
(5) analysis of advantages and disadvantages of the company's operation
(6) analysis of the company's latest development trend
7.2.2 Inner Mongolia Baiyanhu Chemical Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's capabilities of production and marketing
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation
(10) analysis of the company's latest development trend
7.2.3 Ningxia Dadi Metallurgy Chemical Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's capabilities of production and marketing
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation
(10) analysis of the company's latest development trend
7.2.4 Kaituo Calcium Carbide Co., Ltd. of Ningxia Jinyuyuan Chemical Group
(1) brief introduction of the company's development
(2) analysis of the company's operation
(3) analysis of the company's product structure
(4) analysis of the company's sales channels and network
(5) analysis of advantages and disadvantages of the company's operation
(6) analysis of the company's latest development trend
7.2.5 Chiping Xinfa Huaxing Industrial Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's operation
(3) analysis of the company's product structure
(4) analysis of the company's sales channels and network
(5) analysis of advantages and disadvantages of the company's operation
(6) analysis of the company's latest development trend
7.2.6 Yibin Tianyuan Group Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's major economic indicators
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation
(10) analysis of the company's latest development trend
7.2.7 Ordos Tongyuan Chemical Co., Ltd.
(1) brief introduction of the company's development

(2) analysis of the company's capabilities of production and marketing
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation
(10) analysis of the company's latest development trend

7.2.8 Inner Mongolia Junzheng Chemical Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's capabilities of production and marketing
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation
(10) analysis of the company's latest development trend

7.2.9 Sichuan Yibin Changhong Chemical Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's capabilities of production and marketing
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation
(10) analysis of the company's latest development trend

7.2.10 Xinjiang SNXON Energy Development Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's operation
(3) analysis of the company's product structure
(4) analysis of the company's sales channels and network
(5) analysis of advantages and disadvantages of the company's operation
(6) analysis of the company's latest development trend

7.2.11 Xinjiang Zhongtai Mining Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's capabilities of production and marketing
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation
(10) analysis of the company's latest development trend

7.2.12 Ningxia Yinglite Chemical Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's major economic indicators
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation

(10) analysis of the company's latest development trend
7.2.13 Baotou Xinyuan Chemical Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's capabilities of production and marketing
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation
(10) analysis of the company's latest development trend
7.2.14 Wuhai Jinhe Chemical Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's capabilities of production and marketing
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation
(10) analysis of the company's latest development trend
7.2.15 Zhejiang Juhua Calcium Carbide Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's operation
(3) analysis of the company's product structure
(4) analysis of the company's sales channels and network
(5) analysis of advantages and disadvantages of the company's operation
(6) analysis of the company's latest development trend
7.2.16 Dongxing Chemical Co., Ltd. of Inner Mongolia Yidong Group
(1) brief introduction of the company's development
(2) analysis of the company's operation
(3) analysis of the company's product structure
(4) analysis of the company's sales channels and network
(5) analysis of advantages and disadvantages of the company's operation
(6) analysis of the company's latest development trend
7.2.17 Sichuan Minjiang Electrochemical Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's capabilities of production and marketing
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation
(10) analysis of the company's latest development trend
7.2.18 Yanjin Hongyuan Chemical Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's capabilities of production and marketing
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation
(10) analysis of the company's latest development trend

7.2.19 Haohua Yuhang Chemical Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's capabilities of production and marketing
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation
(10) analysis of the company's latest development trend
7.2.20 Inner Mongolia Domando Metallurgical and Chemical Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's capabilities of production and marketing
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation
(10) analysis of the company's latest development trend
7.2.21 Wenchuan Shunfa Fuse Smelting Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's capabilities of production and marketing
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation
(10) analysis of the company's latest development trend
7.2.22 Ordos Xinhua Crystalline Silicon Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's capabilities of production and marketing
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation
(10) analysis of the company's latest development trend
7.2.23 Guizhou Aidong TDK LLC
(1) brief introduction of the company's development
(2) analysis of the company's capabilities of production and marketing
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation
(10) analysis of the company's latest development trend
7.2.24 Guizhou Anlong Huahong Chemical Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's capabilities of production and marketing
(3) analysis of the company's profitability capability

(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation
(10) analysis of the company's latest development trend
7.2.25 Inner Mongolia Haiji Chlor-Alkali Chemical Co., Ltd.
(1) brief introduction of the company's development
(2) analysis of the company's capabilities of production and marketing
(3) analysis of the company's profitability capability
(4) analysis of the company's operation capability
(5) analysis of the company's solvency capability
(6) analysis of the company's development capability
(7) analysis of the company's product structure
(8) analysis of the company's sales channels and network
(9) analysis of advantages and disadvantages of the company's operation
(10) analysis of the company's latest development trend
Chapter 8: forecast of development and investment of China's calcium carbide industry
8.1 forecast of development of China's calcium carbide industry
8.1.1 influencing factors of development of calcium carbide industry
(1) impact of production capacity
(2) impact of downstream demand
(3) impact of energy market
(4) impact of industrial policy
8.1.2 development trends of China's calcium carbide industry
8.1.3 forecast of development of China's calcium carbide industry
8.2 SWOT analysis of China's calcium carbide industry
8.2.1 development advantages of China's calcium carbide industry
8.2.2 development disadvantages of China's calcium carbide industry
8.2.3 development opportunities of China's calcium carbide industry
8.2.4 development threats of China's calcium carbide industry
8.3 analysis of transformation and upgrade of China's calcium carbide industry
8.3.1 problems facing the development of China's calcium carbide industry
8.3.2 path of transformation and upgrade of China's calcium carbide industry
8.3.3 progress of transformation and upgrade of China's calcium carbide industry
8.4 analysis of risk of investment of China's calcium carbide industry
8.4.1 barriers to enter China's calcium carbide industry
(1) barrier of industrial policy
(2) cost barrier
(3) scale barrier
(4) capital barrier
8.4.2 status quo of investment of China's calcium carbide industry
(1) scale of investment of calcium carbide industry
(2) project of investment of calcium carbide industry
8.4.3 investment opportunities of China's calcium carbide industry
8.4.4 investment risks of China's calcium carbide industry
