

China Machine Vision Industry Development Prospects and Investment Forecast Report, 2013–2017

目 录

CONTENTS

Chapter 1: Development Background of Machine Vision Industry

1.1 Definition of Machine Vision

- 1.1.1 Definition of Machine Vision
- 1.1.2 Principles of Machine Vision
- 1.1.3 Role of Machine Vision

1.2 Features of Machine Vision Industry

- 1.2.1 Entry Barriers to Machine Vision Industry
- 1.2.2 Periodical Features of Industry
- 1.2.3 Regional Features of Industry
- 1.2.4 Seasonal Features of Industry

1.3 Analysis of Machine Vision Industrial Chain

- 1.3.1 Profile of Machine Vision Industrial Chain
- 1.3.2 Impact of Upstream Part on Industry
- 1.3.3 Impact of Downstream Part on Industry

1.4 Policy Environment for Machine Vision Industry

- 1.4.1 Management System of Industry
- 1.4.2 Policies and Laws Related to Industry
- 1.4.3 Development Planning Related to Industry

Chapter 2: Development Status and Trend of International Machine Vision Industry

2.1 Market Size of International Machine Vision Industry

- 2.1.1 Development History of Industry
- 2.1.2 Analysis of Application Status
- 2.1.3 Market Size of Industry
- 2.1.4 Market Pattern of Industry

2.2 Machine Vision Industry Status in Major Regions

- 2.2.1 Regional Distribution of Industry
- 2.2.2 Machine Vision Industry in North America
- 2.2.3 Machine Vision Industry in Europe
 - (1) Machine Vision Industry in Germany
 - (2) Machine Vision Industry in UK
- 2.2.4 Machine Vision Industry in Japan

2.3 Analysis of Major Manufacturers in International Machine Vision Industry

- 2.3.1 Cognex
 - (1) Development Profile
 - (2) Product and Performance
 - (3) Latest Development Trend
- 2.3.2 CCS
 - (1) Development Profile
 - (2) Product and Performance
 - (3) Latest Development Trend
- 2.3.3 Keyence
 - (1) Development Profile
 - (2) Product and Performance
 - (3) Latest Development Trend
- 2.3.4 LUSTER
 - (1) Development Profile
 - (2) Product and Performance
 - (3) Latest Development Trend
- 2.3.5 OPT

- (1) Development Profile
- (2) Product and Performance
- (3) Latest Development Trend

2.3.6 PPT VISION

- (1) Development Profile
- (2) Product and Performance
- (3) Latest Development Trend

2.3.7 Omron

- (1) Development Profile
- (2) Product and Performance
- (3) Latest Development Trend

2.3.8 Microvision

- (1) Development Profile
- (2) Product and Performance
- (3) Latest Development Trend

2.3.9 Basler

- (1) Development Profile
- (2) Product and Performance
- (3) Latest Development Trend

2.4 Development Trend for International Machine Vision Industry

2.4.1 Development Prospects Forecast for Industry

2.4.2 Analysis of Development Trend for Industry

Chapter 3: Development Status and Trend of China Machine Vision Industry

3.1 Market Size of Machine Vision Industry

3.1.1 Development History of Industry

3.1.2 Development Stages of Industry

3.1.3 Development Size of Industry

- (1) Market Size
- (2) Enterprise Quantity

3.2 Competition Status of Machine Vision Industry

3.2.1 Main Competitive Body in the Industry

- (1) Product Manufacturer
- (2) Product Agent
- (3) System Integrator

3.2.2 Distribution of Enterprise

3.2.3 Competition Focuses in the Industry

3.2.4 Integration Information of Industry

3.3 Demand Features of Machine Vision for Customer

3.3.1 Product Benchmark

3.3.2 Product Usage

3.3.3 Requirements for Installation

3.3.4 Product Usage Evaluation

3.3.5 Product Brand

3.4 Analysis of Marketing of Machine Vision Product

3.4.1 Marketing Model for Machine Vision

3.4.2 Distribution of Machine Vision

- (1) Introduction to Major Distributors
- (2) Distribution Information of Major Suppliers

3.4.3 Marketing Platform of Machine Vision

3.4.4 Difficulties in Spreading Machine Vision

3.4.5 Suggestions for Marketing of Machine Vision

3.5 Development Trend for Machine Vision Industry

3.5.1 Fast Technology Update Speed

3.5.2 Constantly Expanding Application Fields

3.5.3 New Thinking to Spread Product

Chapter 4: Research Status and Technology Development of China Machine Vision

4.1 Research Status and Trend of Machine Vision Theory

4.1.1 Basic Theory of Machine Vision

- (1) Machine Vision Computing Theory

- (2) Common Methods for Vision Inspection
- 4.1.2 Development of Machine Vision Technology Theory
 - (1) Primary Vision Theory
 - (2) Active Vision Theory
 - (3) Multi-dimensional Information Integration
 - (4) Three-Dimension Scene Reconstruction
 - (5) Algorithm and System Performance Evaluation
 - (6) Vision Parallel Computing Institution
 - (7) General Visual Information System

4.2 Development Status of Machine Vision Software/Hardware Technology

- 4.2.1 Machine Vision Hardware Technology
 - (1) Lens Technology
 - (2) Camera Technology
 - (3) Light Source Technology
 - (4) Image Grabber
 - (5) Camera Calibration Technology
- 4.2.2 Machine Vision Software Technology

4.3 Development Status of Key Technologies for Machine Vision

- 4.3.1 Image Capturing Technology
- 4.3.2 Image Treatment Technology
- 4.3.3 Dimensional Measurement Technology
- 4.3.4 Flaw Inspection Technology
- 4.3.5 Pattern Recognition Technology
- 4.3.6 Image Fusion Technology
- 4.3.7 Target Tracking Technology
- 4.3.8 Three-Dimension Reconstruction Technology

4.4 Analysis of Development of Latest Machine Vision Technologies

- 4.4.1 Color Vision System
- 4.4.2 3D Monitoring Effect
- 4.4.3 Embedded Technology
- 4.4.4 Collocation of Hardware and Software
- 4.4.5 Solution

4.5 Problems in Machine Vision Technologies

- 4.5.1 Image Ambiguity
- 4.5.2 Impact of Environment Factors
- 4.5.3 Knowledge Guide
- 4.5.4 Massive Data

4.6 Development Trend for Machine Vision Technology

Chapter 5: Analysis of Product Development in China Machine Vision Industrial Chain

5.1 Analysis of Core Components Markets for Machine Vision

- 5.1.1 Analysis of Light Source Market
 - (1) Overview of Light Source
 - 1) Function of Light Source
 - 2) Category of Light Source
 - (2) Demand Status of Light Source
 - 1) Requirement for Light Source
 - 2) Demand Status of Light Source
 - (3) Major Suppliers for Light Source
 - 1) Moritex
 - 2) Schott
 - 3) CCS
 - 4) Advanced illumination
 - 5) Domestic Suppliers
 - (4) Development Trend for Light Source Market
- 5.1.2 Analysis of Industrial Lens Market
 - (1) Overview of Industrial Lens Market
 - 1) Function of Industrial Lens
 - 2) Classification of Industrial Lens
 - (2) Supply and Demand of Industrial Lens

- (3) Major Manufacturers and Product Features
 - 1) Dalsa
 - 2) Cognex
 - 3) Sony
 - 4) Sentech
 - 5) Hitachi
 - 6) Teli
 - 7) Domestic Manufacturers
- (4) Segmentation Products of Industrial Camera
 - 1) Classification of Industrial Camera
 - 2) CCD Camera Market
 - 3) CMOS Camera Market
- (5) New Product Trend for Industrial Camera
- (6) Development Trend for Industrial Camera Market
- 5.1.3 Analysis of Image Grabber Market
 - (1) Overview of Image Grabber
 - 1) Principle of Image Grabber
 - 2) Classification of Image Grabber
 - 3) Function of Image Grabber
 - (2) Major Manufacturers and Product Features
 - 1) Daheng Image
 - 2) Microview
 - 3) JoinHope Image
 - 4) Foreign Manufacturers
 - (3) Potential Threats for Image Grabber
 - 1) Application in Digital Interface
 - 2) Application in Smart Camera
 - (4) Development Trend for Image Grabber Market
- 5.1.4 Analysis of Machine Vision Software Market
 - (1) Development Overview of Machine Vision Software
 - (2) Segmentation Productions of Machine Vision Software
 - 1) Application Software
 - 2) SDK
 - 3) Machine Vision Algorithms
 - 4) C/C++Database
 - (3) Major Manufacturers and New Product Trend
 - (4) Trend for Machine Vision Software Market
- 5.1.5 Analysis of Other Subsidiary Products Market
- 5.2 Analysis of Machine Vision System Integration Market**
 - 5.2.1 Development Overview of Machine Vision System
 - (1) Development of Machine Vision System
 - (2) Classification and Comparison of Machine Vision System
 - 5.2.2 Analysis of Development of Embedded Machine Vision System
 - (1) Overview of Embedded System
 - 1) Development of Embedded System
 - 2) Embedded System Processor and Classification
 - 3) Features of Embedded System
 - (2) DSP-Based Machine Vision System
 - 1) Development and Application of DSP Technology
 - 2) Features of DSP-Based Machine Vision System
 - 3) Application Status of DSP-Based Machine Vision System
 - (3) ASIC-Based Machine Vision System
 - (4) Analysis of Development and Application of Smart Camera
 - 1) Overview of Smart Camera
 - 2) Application and Development of Smart Camera
 - 3) Major Suppliers and Product Features
 - 4) Launch Situation of Smart Camera New Products
 - 5) Development Trend Forecast for Smart Camera
 - 5.2.3 Analysis of Development of PC-Based Vision System

- (1) Major Features of PC-Based Vision System
 - (2) Design Status of PC-Based Vision System
 - (3) Application Cases of PC-Based Vision System
 - (4) Development Trend for PC-Based Vision System
- 5.2.4 Major Domestic Machine Vision System Integration Manufacturers
- 5.2.5 Development Trend Forecast for Domestic Machine Vision System

Chapter 6: Analysis of Development of Machine Vision Industry in China' s Key Regions

6.1 Analysis of Development of Machine Vision Industry in Beijing

- 6.1.1 Development Environment for Machine Vision Industry
- 6.1.2 Development Status of Machine Vision Industry
- 6.1.3 Major Machine Vision Manufacturing Enterprises
- 6.1.4 Development Trend for Machine Vision Industry

6.2 Analysis of Development of Machine Vision Industry in Yangtze River Delta

- 6.2.1 Development Environment for Machine Vision Industry
 - (1) Development Status of Manufacturing Industry
 - (2) Transformation Upgrading of Manufacturing Industry
 - (3) Supporting Policies Related to Industry
- 6.2.2 Machine Vision Industry Status and Trend
 - (1) Shanghai Machine Vision Industry
 - 1) Machine Vision Industry Status
 - 2) Major Machine Vision Enterprises
 - 3) Trend for Machine Vision Industry
 - (2) Zhejiang Machine Vision Industry
 - 1) Machine Vision Industry Status
 - 2) Major Machine Vision Enterprises
 - 3) Trend for Machine Vision Industry
 - (3) Jiangsu Machine Vision Industry
 - 1) Machine Vision Industry Status
 - 2) Major Machine Vision Enterprises
 - 3) Trend for Machine Vision Industry

6.3 Analysis of Development of Machine Vision Industry in Pearl River Delta

- 6.3.1 Development Environment for Machine Vision Industry
 - (1) Development Status of Manufacturing Industry
 - (2) Transformation Upgrading of Manufacturing Industry
 - (3) Supporting Policies Related to Industry
- 6.3.2 Machine Vision Industry Status and Trend
 - (1) Shenzhen Machine Vision Industry
 - 1) Machine Vision Industry Status
 - 2) Major Machine Vision Enterprises
 - 3) Trend for Machine Vision Industry
 - (2) Guangzhou Machine Vision Industry
 - 1) Machine Vision Industry Status
 - 2) Major Machine Vision Enterprises
 - 3) Trend for Machine Vision Industry
 - (3) Dongguan Machine Vision Industry
 - 1) Machine Vision Industry Status
 - 2) Major Machine Vision Enterprises
 - 3) Trend for Machine Vision Industry

Chapter 7: Application and Potentials of Downstream Parts in China Machine Vision Industry

7.1 Application Field Distribution of Machine Vision Downstream Industries

7.2 Application Status and Trend for Machine Vision in Industry

- 7.2.1 Application Overview of Machine Vision in Industrial Manufacturing
 - (1) Inspection Applied in Product Features
 - 1) Product Spatial Feature-Based Inspection
 - 2) Product Surface Quality-Based Inspection
 - 3) Product Structure-Based Inspection
 - (2) Research on Vision Applied in Robot
- 7.2.2 Application Status and Potentials of Machine Vision in Semiconductor Manufacturing

- (1) Development Status of China Semiconductor Manufacturing Industry
 - 1) Status of Semiconductor Manufacturing Industry
 - 2) Investment of Semiconductor Industry
 - 3) Leading Enterprises in Semiconductor Industry
- (2) Application of Machine Vision in Semiconductor Manufacturing
 - 1) Application in the Process of Semiconductor Manufacturing
 - 2) Application in Major Semiconductor Products
 - 3) Application History in Production of Semiconductor
- (3) Application Cases of Machine Vision in Semiconductor Manufacturing
- (4) Application Potentials for Machine Vision in Semiconductor Manufacturing
 - 1) Prospects Forecast for Semiconductor Industry during “Twelfth Five-year” Period
 - 2) Demand for Automatic Production/Inspection in Semiconductor Industry
 - 3) Potential Demand Customer for Machine Vision in Semiconductor Industry
